Rosland, B.C., Nov. 2.—(Special to The World, via Spokane, Wash.)—It is stated on unobtainable authority that John A. Finch of the War Eagle mine and his associates have obtained control of the Rosland. All the stock has been withdrawn from the market except small lots left in brokers' hands. A Toronto man visiting here obtained an option on a block before the deal went through in Spokane. The block of stock referred to above was purchased for Mr. Finch by his Rosland representative—Ed. World.

Brantford Men in It, Too.

A number of Brantford capitalists are now interested in British Columbia mines. The company is known as the Brantford Mining Company. The officers are among the best known business men of Brantford and the best proof that they have the confidence of their fellow-citizens is that \$10,000 worth of shares have already been taken up in that city. The interests of the company and other mining interests. The work of the company is rapidly going on, and the reports are most satisfactory. The company has also an office in Brantford.

Mining Notes.

The Mining Review says Mr. Montgomery of Toronto purchased the Hattie, a 1200 x 1200 foot claim in the Rosland, at a good figure the other day, and afterwards refused an offer of \$5000 over the purchase price.

Why waste breath talking about severance and street improvements under the protection under the government of Victoria? Let us have a more substantial and more intelligent Mayor and Council with some intelligence to spend the trouble about the Victoria government is that there is no use in speculating by reason of the head; the only way to move it is by applying pressure to a man who is more than an intelligent portion of its anatomy.—Rosland Mining Review.

INFLAMMATORY RHEUMATISM.—Mr. S. Ackerman, Commercial Traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Electric Oil for inflammatory rheumatism, and three bottles effected a complete cure. I was the whole of a summer unable to move without crutches, and every movement caused excruciating pain. I am now out on the road and engaged to all kinds of weather, but have never been troubled with rheumatism since. However, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others, as it is so much for me."

BROADBENT MINING AGENCY.

VERY LIKE A FAKE. The People of Toronto are Too Keen to be Taken in by a Spiritualist.

A fair-sized audience assembled in St. George's Hall last night to hear Prof. H. D. Barrett of Washington, D.C., President of the National Spiritualist Association, deliver a lecture on "Spiritualism," and to witness the performance of Mrs. Prior of Colorado, a spiritualist medium. Prof. Barrett spoke for about an hour, and explained what spiritualism was, and its place among other religions. It consists of the elements—phenomenon, science, philosophy and religion. When all these elements are properly understood, a religion is evolved that for purity and beauty surpasses all others. It would be very difficult for the average man to appreciate this, as it is not a religion, but a religion, a rapid and ready talk, but a very sane response.

Mrs. Prior began her spirit conjuring by saying that spirits informed her that a gentleman had brought a picture of a lady to the meeting, and had had so several times. The fellow wouldn't stand up, and she had to come down to find out who he was. After asking a number of people, she finally spotted Mr. Walker, but that gentleman denied knowing anything of the kind. It was finally discovered to belong to an old lady. The next spirit that appeared was that of Emily Sherman, an old lady who had passed to the great beyond. Associated with her were her cousin, Jane Holmes, and her sister, Eliza. No one present seemed to have ever heard of Eliza or Jane, and the medium passed on to the spirit of a man who evidently was a policeman, for he was leaving behind him a large sum of money, and was very rapidly, of course, no one in the audience knew the fellow.

Though Mrs. Prior made several failures, she is clever in her work, and gives a very good entertainment. She explained these mistakes through the fact that the people would not be honest enough to know the spirits' call.

Railway Notes.

Mr. G. C. Jones, Superintendent of the Midland division of the G.T.R., was in town yesterday. Four locomotives built for the Canada Atlantic Railway at the Baldwin locomotive works, Philadelphia, have arrived in Stratford. A new locomotive, weighing 120,437 pounds, has been built by the Cooke Locomotive and Machine Company of Paterson, New Jersey, for the Chicago section of the G.T.R. system. The engine was designed by F. W. Moore, Superintendent of motive power, and will be used for the passenger service.

Shot in the Back and Died.

North Bay, Nov. 4.—Louis Beauchamp was out with his gun, which was a tightly fitting cover. He met William Ducheneau, and on laying the gun on a log it went off, the bullet hitting the latter, passing through him, and flattening itself against the unfortunate man's backbone. Dr. Baxter was called in and removed the bullet, but it was a hopeless case from the start, and Ducheneau died about midnight.

To Extradite Mrs. Stremann.

Inspector John Murray left last night for Buffalo with the necessary papers for the extradition of Mrs. Stremann. He wanted on the charge of poisoning her husband at Rainham. Prof. Ellis' analysis of the contents of the stomach shows 15 milligrams of arsenic. Mrs. Stremann, it is thought, will put up a strong fight against coming back to stand her trial.

A Gas Cusher.
