Gratifying Progress.

The second annual report of the Executive Committee was read, giving complete statistics of 95 companies. There are now 278 officers in the companies wand 3451 boys. Since last meeting 30 mew companies have been enrolled, bringing the total number of companies up to 164. The present number of enrolled companies was placed at 120, a number having lapsed. The fact that a number of companies had lapsed was deplored, and attributed to the fact that they had been organized before securing the support of the church authorities. Others were ambitious and started out too extravagantly. Notwithstanding this, there are over 100 companies doing good work, and the reports received from them are very enports received from them are very en-

It showed the receipts to be \$404.77 and the disursements \$179.91, leaving a balance on hand of \$224.86.

At the meeting of the Jewelers' section of the Board of Trade yesterday a memorial to the Government was drawn up asking for a uniform rate of 30 per cent. ad valorem on silver noveities.

The Tariff Commission promised to effect this uniform rate, but all that was one was merely to put manicure sets in at 30 per cent, the same as cultery, and almost every article in the entire line is put under a different heading. For instance, on what is commonly known as a roller piorter, on which there is a quarter of a cent of blotting paper and about \$3 worth of silver, 35 per cent, is charged. A child's rattle, with belis attached, made out of silver and mother of pearl is charged 35 per cent, the same rate as toys. Whisks, on which the broom part is worth about 5 cents, and the silver handle \$1.50, are charged 20 per cent., Instead of 30 per cent. Combs, in the same way, 35 per cent., Instead of 30 per cent., Instead of 30 per cent. Want Uniform Dutles.

Business Embarrassments. The inspectors of the Bachrack estate recommend to creditors the acceptance of 47½c on the stock, with the addition of 10c cash in settlement of their claims. This means \$19,510 to pay off liabilities of \$45,596.

McIntyre & Wardwell (John J. Dixon) re-ceived the following despatch to-day from Chicago:

ceived the following despatch to-day from Chleago:

Wheat—There was terrific realizing around opening of market to-day. Local and outside longs and for foreign account. This was too much for the market, which never recovered from the immense weight put upon it. It gyrated about in nervous jumps, but the tendency was towards fower prices, and it finally closed at about ac decline for the day. There was no change, as far as the foreign news was concerned. Cables were radically strong and reported a continuance of unfavorable weather in England. World's shipments were about up to requirements at 7,200,000 bush. The market closed with a weak undertone tonight, and it is possible that further profit taking will cause more decline. We think the market is getting into shape, however, again to make purchases profitable.

Corn—The visible increased 3,449,000 bu, and stands at 21,956,000, against 14,100,000 bush a year ago. Advices represent that the material advance in this grain within a few days has induced a larger movement from first hands, and the expectation is that for some days to come liberal receipts at Western centres will be a feature. While this is to be said of the supply we note the demand is large.

Provisions—Have been active. Packers on both sides of the market think ribs are a purchase. Estimated hogs to-morrow, 15,000.
