## Making Sand Ropes THE TORONTO WORLD ONE CENT MORNING PAPER. No. 85 YONGE-STREET. TO

As well try to catch the wind in a net as attempt to fit a foot with a shoe that's not it's shape when first put on; and there'll be "ropes of sand in the boots" that do not keep their shape ;- moreover, there'll be waxed "ropes," pegs, lumps and anything but comfort in the shoe that's not Goodyear welted.

There are as many shapes of "Slater Shoes" as there are forms of feet.

And they are lasted on the Chase. Lasting Machine that automatically stretches the leather fibres exactly as far as they will go without breaking. (The machine that caused a strike.)

This machine and the Goodyear machines are in full working at

"The Slater Shoe Store" 89 KING STREET W., Sole Agents-TheCitizens' Shoe Company Telegraphy. York Central finds itself compelled to

Central is not going to stop at the pass-enger business. It sees that a large freight traffic is to be done by the troi-ley lines between nearby places. An electric line was opened the other day between Buffalo and Lockport, and the expectation was that it would handle nearly all the freight between the two cities. It was no doubt in view of this and other similar projects that the New York Central doubt it the set of the set of the New York Central doubt it the set of the New

## DISPOSAL OF SEWAGE.

The method we adopt in Toronto of getting rid of our sewage is more than unsanitary. It is filthy. Compared with the area of the city the bay is a small body of water, and yet into it we pour Toronto Bay is practically a big cess-pool. Very little of the sewage that is emptied into the bay at the foot of the wharves gets through the two nar-row openings between the lake and the the was remanded for a week.
