The City's Send-Off.

The City Council held a special meeting yesterday afternoon to pass the recommendation of the Board of Control that Col. Otter be asked to accept from the city of Toronto a draft for £150 sterling with the best wishes of all classes for the success and safe return of himelf and his command; that the officers accompanying the contingent, viz.: Capt. Barker, Capt. Mason, Lieut. Temple and Lieut. Wilkle, be asked to accept £25 each, and that five sovereigns be presented to each non-commissioned officer and man from the Toronto Volunteer Regiment and "C" School; also that each officer be presented with a pair of the most modern field glasses, the cost of which will be \$400. The board further recommended that in the event of an additional officer from either of the Toronto regiments being appointed to the contingent, that he be asked to accept £25 and a pair of field glasses, and that the rouncil concur in the following arrangements made by the Committee on Legislature and Reception:

1. The presentation of a self-cocking revolver to each officer of the Toronto contingent, and to Major Denison and Capt. McDonnell, "Toronto Boys" who will be attached to other contingents.

2. The presentation of a sterling silver match box, suitably embossed and engraved, to each member of the Toronto contingent.

3. That His Worship the Mayor be requested to Issue a proclamation for a half. Wars Robert Gooderham

3. That His Worship the Mayor be requested to issue a proclamation for a half-holiday on the day of departure of the contingent.

4. That Lieut.-Col. Grasset be appointed grand marshall to take charge of the arrangements of procession, etc., on day of departure.

Correspondents Also.

Controller Burns moved in amendment that the above be further supplemented by the presentation of two field glasses to the correspondents of the Toronto papers who will accompany the Canadian contingent.

Ald. Frankland, in his usual plous tone of voice, said he did not approve of Ald. Burns motion, as both papers were well able to supply their correspondents with field glasses, and further an order had been issued by the commanding officer in the Transvaal, restricting the number of wewspaper men going to the front, consequently they will not see any fighting and will have no need of the glasses.

A Matter of Good Taste.

from Council that it be fully considered, and feeding such consideration it would not be advisable to make public the names and free class to which each fireman has been assigned by Dr. Sheard.

Arrangements All Completed.

The Legislation and Reception Committee, in conjunction with the commanding officer of the Toronto regiments, met again yesterday afternoon and completed all arrangements for the big civic send-off. The men will all assemble at the Armouries on Wednesday afternoon, which has been proclaimed a half-holiday by the Mayor, at 1.30, and at 2 o'clock the presentation of souvenirs to the men and revolvers and field glasses to the officers will take place. Brief addresses will also be delivered, after which the contingent will leave for the Union Station. The route they will take will be up 'University-street, to Elm, to Yonge, over Gerrard to Jarvis, down Jarvis to King, along King to Simcoe, and thence to the station, where they will entrain.

The parade will be in charge of Chief Grasett, and, besides the Public School corps, the Veterans of '66 Association and other organizations will participate in the farewell.

A lotter was read at the meeting from

Ald. Hallam Subscribes, Too.

Ald. Hallam announced that he was willing to present to each member of the contingent a 10s piece, and would place the money in Lieut.-Col. Otter's hands, with instructions to him to divide it among the men when they reached Africa. The offer was received with cheers.

Mayor Shaw has telegraphed to the Department of Militia at Ottawa, requesting them to change their order, which says the men must leave by the 9 o'clock train Wednesday morning. There is no doubt but what the request will be compiled with, as the Mayor pointed out how the city's arrangements would be interfered with if the men left at that hour.

Ald. Frankland now saw that he had put his foot in it, and as no one supported him he tried to climb down from his isolated position. "I have no reason," he said, "to try and buck the Board of Control's report, but if it had been the spontaneous desire of the council to give the correspondents the glasses. I would have supported the amendment."

Fred Iglestrom, who is an employer of Mr. Heintzman, and who was chosen from the ranks of the Q.O.R. for duty in South Africa, with a purse of gold. Pte. Iglestrom is one of the crack shots of the regiment, and very popular, and it is also worthy to note that his employer is securing his situation for him when he returns, which it is hoped will be soon.

Total—48. VACANT SEATS.

If Mr. Garrow is unseated that would make six elections to be held. The Government, it is conceded, would hold Brant and Peterboro. This would make 49 seats, and, taking from it the Speaker's vote, it would give the Liberals 48. If the Conservatives carried the four disputed seats they would have 45, leaving the majority on Mr. Ross' side 3. He could hardly carry on a Government with 3 of a majority; if two left him he would be forced to dissolve the House. If, however, Mr. Ross won two of the protested seats, he would have a clear majority of seven.
