STEADY REDUCTION

and Flour Is Coming Down.

The following comment on the market situation as regards toodstuffs appears in Canadian Grocer this week:

Markets this week show few changes. Some lines show reductions and others are higher. The flour and cereal markets are inclined to be easy and lower prices are expected within a few weeks. Business generally is good for this season and collections are reported healthy. Montreal.—Big bids are being put out to stimulate business at this rather quiet season. Hence this day afternoon next. The stores and other places of business will close at noon on that day.

IS RECOVERING.—City Clerk S. Baker is recovering from a slight attack of typhoid fever which has confined him to his home since the beginning of the week. He expects to resume his duties in another week. Montreal.—Big bids are being put out to stimulate business at this rather quiet season. Hence there are some artificially lower prices recorded. Fresh meats have expanded in price range.

Bacon and hams are cheaper. Eggs are slightly dearer. Butter remains firm and cheese is very weak in price.

Fish is short in many lines. The vegetable market is on the whole much cheaper. Fruits are cheaper in many lines, especially apples. Flour prices

Innes, especially apples. Flour prices may be lower. The new pack of canned peas is slightly cheaper. Corn flake prices are withdrawn. Brooms are reduced in price.

Toronto.—The markets generally are steady, although some have developed an easier undertone and lower prices are expected on cereais, starches and corn syrups in view of the steadily decreasing grain market. Raw sugar continues in a declining market, but the refined product is unchanged. New pack red pitted cherries are offered at prices that compare favorably with last year. Sockey salmon is considerably higher than a year ago, but pinks and chums are lower. No prices have yet been named on Spanish Valencia raisins, but the fundation of the board, "he said.

MORE GLADIOLI.—Although the promising than last year. Peromising than last year.
