"If examinations were made of every-one, people would be surprised at the num-ber of persons walking about suffering from heart disease."

This startling statement was made by a doctor at a recent inquest. "I should not like to say that heart disease is as common as this would imply," said the expert, "but I am sure that the number of persons going about with weak hearts must be very large."

"Hundreds of people go about their daily work on the verge of death, and yet do not know it. It is only when the shock comes that kills them that the unsuspected weakness of the heart is made apparent."
"But undoubtedly heart weakness, not

disease, is more prevalent nowadays. I should think that the stress of living, the wear and rush of modern business life, have a lot to do with heart trouble.'

Mrs. Annie Barlow, 35 years, with three trunks and two children aged five and seven years, was taken off the 8.10 train from Owen Sound at Parkdale last night by Detectives Murray and Guthrie. They also removed Thos. Ratcliffe, also 35 years old, also of Owen Sound.

This action was taken at the request despite the fact that, in law, a wo-man cannot steal from her husband. Ratcliffe is charged with abducting the children.

Political Intelligence

The Buffalo Express has a despatch from Toronto alleging that between \$3,000,000 and \$3,500,000 were contributed to the Liberal campaign fund by the Standard Oil Company. "Ontarioresults," it is said, "were a sad blow to the Conservatives. They say that up to a week before election day, Ontario was theirs by a majority sufficient to sweep the enemy off the face of Ontario earth. Then, they say, came the cash, barrels of it, and when the polls closed, Ontario had done no better than stand pat."

Tariff concessions are said to be the motive for this unusual generosity on the part of the Octopus. One would think that if three million dollars had been afloat for a week in Ontario some one would have noticed it, but the correspondent contents himself with saving:

with saying:

"Conservatives here, if they are
up against anything like the reputed power and resources of the

up to date, they are very positive
that the virtual collapse of their

It will be remembered in this connection that when the Bell Telephone Company ob-tained authority from parliament to increase its capital stock by \$20,000,-000, the same member proposed an amendment requiring the stock to be "offered for sale at auction and shares not sold for want of bidders may be sold by the company at private sale, but for not less than their market

The Montreal Herald (Lib.) is taking a hand in the choice of Mr. R. he intends to resign the leadership. It prefers Premier McBride, and fears that Sir James Whitney's flery temperament would not do at Ottawa.

"At Ottawa," says The Herald, "the leader who permits himself the indulgence of raising his voice above the tones of politeness is lost. It is not that the tone is ower; on the contrary, it is high-er, but it is a long step from Cape Breton to Vancouver Island, and, in between, there are several groups of men who hold in utter ho and absolute conviction views which are in some cases diametrically opposed to those held by others, and in other cases do not come within the normal cognizance or sympathy of the others at all.
