## ST CHARLES' SEMINARY

SHERBROOKE.

### Its sanitary condition.

This Institution, founded in 1875 and incorporated by an Act of the Provincial Parliament in 1879, is delightfully located at the confluence of the St Francis and Magog rivers. Its commanding position in the center of Sherbrooke, the metropolis of the Eastern Townships of Canada, gives it all the benefits of country atmosphere and aspect with the convenience of city life. Nor are the appendages and interior of the establishment less conducive to health than the salubrity of the climate. Extensive grounds and a spacious recreation hall afford every desirable facility for youthful exercise and amusement.

Sherbrooke being the convergent point for numerous railways, viz : 1. the Grand Trunc ; 2 the Passumpsic and Connecticut Rivers and Massawippi Valley ; 3. the Sherbrooke, Eastern Townships and Kennebec ; 4. the St Francis and Megantic International ; 5. the Quebec Central ; 6 the South Eastern ; 7. the nearly completed
