

## RATES FOR CURRENT DISCUSSED TODAY

Power Co. and Commission—Generous Offer Made to Premier.

The matter of rates for the current, should the New Brunswick Power Co. be called upon to furnish it to the New Brunswick Electric Power Commission, to help out the Musquash development, was under discussion this morning by Gordon Kribbs, representing the New Brunswick Electric Power Commission, and M. A. Pooler, general manager of the New Brunswick Power Company.

Mr. Pooler informed the commission that the Power Company would be able to handle the load of the commission until December, but as that was the heaviest month, they would not be able to render any assistance during that month. Mr. Pooler also called upon Mayor Fisher and explained the circumstances to him, so that the city might take whatever action it thought advisable to protect the citizens in the matter of street lighting and other civic services during December. Mr. Pooler said the connection could be made by the end of next week and work would be started on it immediately.

Power at its own price was the offer made to the Provincial Government by E. N. Sanderson, president of the Federal Light and Traction Company, of which the New Brunswick Power Company is a subsidiary, yesterday, a telegram to Hon. P. J. Veniot, Premier of the province.

In giving out the message the Premier commented on the generosity of Mr. Sanderson in thus placing the plan of the Power Co. at the disposal of the government, should the need arise. The Premier was of the opinion that the flood of last spring and the dry summer were acts of God, and the government could not be held responsible for failure in such cases, but in order that there might be no question of good faith they would take all practical steps to provide service.

The following is the telegram which the Premier received from Mr. Sanderson: "Hon. P. J. Veniot, Premier of New Brunswick, Fredericton, N. B. 'We place all our available capacity at your disposal and in this emergency you are at liberty to connect your system with our switchboard immediately, without waiting to negotiate contract, and we agree in advance to accept for service furnished such compensation as you might decide is fair.' E. N. SANDERSON."

### "THE BISHOP" AT BORDER.

St. Croix Courier: Chas. O'Brien of St. John, popularly known everywhere as "The Bishop," is spending fair weather among his friends in St. Stephen and is receiving about the heartiest welcome of any of our visitors to the exhibition. "The Bishop" is an old time railway express messenger and is known and esteemed from coast to coast. He is known everywhere as a prince of entertainers and a right good fellow. Once in a while St. John sends out a good chap, and "The Bishop" sure is one of them.

### FIRE ON BARGE.

The Dominion Coal Company's barge No. 6 was damaged by fire early this morning. Some slack coal had been loaded in the scow and it is thought that the fire was caused by spontaneous combustion. The barge was lying in front of the coal pocket at the foot of North Market wharf and was later moved into Market slip. The fire was first seen by policeman George Totten, who was patrolling Douglas avenue and he sent a message to police headquarters. The patrol was sent to the scene and Detective Saunders rang in an alarm from Box 7. The blaze was confined to the zombing about the barge and some slack coal in the bottom of the barge. The damage was reported not great.

## Punishment Of Revolters Refused

(Continued from page 1.) Captain-General Primo Rivera explained in an interview that the purpose of the movement was "cleaning up politics and making them honest." Its cause, he asserted, was "the obstinacy of the Government in refusing to get rid of a baneful ministry, whom it forced upon the people and the King."

The revolt has extended to Madrid, according to Rivera, although the officers there have been kept to their barracks.

### Moroccan Failure is Cause.

Paris, Sept. 14.—The impelling cause of the seizure of power by the military in Barcelona and other points in Spain is understood here to be the treatment of the army by the Spanish Cabinet and Parliament following the military reverses in the campaign against the Moroccan rebels.

Public opinion calling for punishment of those charged with failure, the civil Government undertook to punish the officers who were held responsible while declining, it is alleged, to act against civilian contractors and functionaries in various governmental departments for furnishing inadequate supplies to the expeditionary force in Morocco. The military juntas or officers' committees of the army, accused of civilian officials with corruption in the quality and quantity of war materials, dilatory deliveries and general insufficiency in providing the army with means for fighting, so that the commanders at Melilla were forced by orders from Madrid to launch attacks while in no condition to do so, resulting in great loss to the Spaniards.

### Prisoner Watching.

Paris, Sept. 14.—Don Jaime de Bourbon, the Spanish pretender, has arrived in Paris from Nice to watch events in Spain.

### Warships at Barcelona.

Paris, Sept. 14.—A Spanish naval squadron has arrived at Barcelona, and it is understood that the admiral has received drastic orders to put down the revolt headed by Captain-General Primo Rivera, says a dispatch to Le Journal from San Sebastian.

### SHOOTING TRIP.

If the old adage "the early bird gets the worm," is true then P. W. Munro, Dr. J. H. Allingham, Dr. A. E. Macaulay and Gordon Lively will return home in a few days with well filled bags of duck. The party left this morning for Grand Lake where they will complete preparations today for duck hunting. As the season opens tomorrow they will be right on the ground ready to start shooting.

### MISS PRESTON IS BETTER TODAY

Leading Lady of Carroll Played Quite Ill Yesterday.

Miss Edna Preston, leading lady of the Carroll Opera House, was taken ill yesterday about one o'clock suffering from nervous breakdown. She made a plucky effort to appear for the afternoon performance and was at the theatre when she collapsed. Three doctors were in attendance and while they pronounced her case not serious, she was unable to appear. The curtain was held until 2:45 in the hope that she would regain strength but at that time the management came forward to announce that the afternoon performance must be cancelled. Dr. G. A. B. Addy and Dr. C. L. Emerson had been called and Dr. Stanhope of Bangor, Me., met with them in consultation. Dr. Stanhope and his wife had just arrived in St. John to visit Mrs. Stanhope's sister, Miss Marsh, of the Carroll Players.

After an afternoon of quiet Miss Preston insisted on taking her part in the evening performance. She rested between the acts and whenever she was off stage. Her courage won for her the warmest admiration of her part without faltering.

Miss Preston is reported better today, all patrons of the theatre will be pleased to learn.

MORE OPTIMISM AT SYDNEY NOW

F. E. Lucas, Here Today, Says Conditions Better—New Fuel.

That business conditions at Sydney had shown quite an improvement following the settlement of the recent strike and there was a more optimistic feeling in the business men generally was the cheery message brought to the city today by F. E. Lucas of the British Empire Steel Corporation.

Mr. Lucas, who is the manager of representation by the men on the board of management had met with great success and there was a much better feeling in the business men generally was the cheery message brought to the city today by F. E. Lucas of the British Empire Steel Corporation.

The particular object of his visit to the city at the present time was to inspect the coal dealers here, the introduction of what they said was a better fuel than American anthracite, a domestic coke which was being manufactured by the Steel Corporation. This fuel would be placed on the market in time for fall deliveries, and the Steel Co. were prepared to stand behind their claims that it was better from every point of view than was anthracite and would remove the Maritime Province from the straits of dependence on the United States for fuel. He is accompanied on the trip by J. Kempton and A. W. McMaster of the coal sales organization.

ASK YOUR NEIGHBOR

There is hardly a neighborhood in the United States where women cannot be found who have derived benefit from Lydia E. Pinkham's Vegetable Compound. For nearly fifty years this famous medicine has been overcoming some of the worst forms of female ills. As one woman has been benefited by its use she has told others who have used it with the same good results; so the use of this great medicine has spread from shore to shore by the recommendation of those who have found it good. Therefore, ask your neighbors; let her tell you from experience the benefit which all women derive from its use.

## 90,000 Expected At N. Y. Fight

(Continued from page 1.) and the threat of rain. The forecast was clear and cooler.

British Pick Dempsey. London, Sept. 14.—None of the boxing experts writing in the London newspapers anticipates anything but victory for Jack Dempsey in tonight's fight. After a minute examination of the records of both challengers and champion, they come to the unanimous conclusion that Dempsey's superior skill will triumph over Firpo's crude strength, that is unless the Argentine manages to put home one of his sledgehammer rights.

One newspaper prediction is that Dempsey will win within three rounds. Another expert expects Firpo will last six rounds, but on the whole the opinion of British fight fans may be summed up as follows:

"If Dempsey is unable to beat Firpo, there's nothing in boxing."

Dempsey Weighs 192½.

New York, Sept. 14.—When Jack Dempsey defends his heavyweight title against Luis Angel Firpo tonight at the Polo Grounds he will weigh more than at any time in his championship career. He scaled 192½ early today when he weighed in at the State Athletic Commission. His challenger had not put in an appearance when the title-holder stepped off the scales.

DEATH OF CHILD.

Friends of Mr. and Mrs. Thomas Buckley, 115 Chesley street, will sympathize with them in the loss
