Cocoanut Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multisided cocoanut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Multisided cocoanut oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

Two Kinds of Economy in the Post-War Maxwell

THE Post-War Maxwell inherited from its 300,000 predecessors two traits that captivate the person who likes continuous, uninterrupted, comfortable and low-cost mileage.

One is its freedom from repairs. It runs on and on. Give it gas, oil, grease and water and it will deliver an amazing amount of mileage.

The second is the low price you pay per mile. Its thrifty engine with Hot Spot and Ram's-Horn, makes gas go a long way. Its 2000 pounds of weight assures long tire wear.

Such kinds of economy came from years of study and the experience which 300,000 previous Maxwells have taught.

The notable improvements and refinements to be found in this car have caught the attention of many who figured that high efficiency meant high price.

The public has served notice that it does appreciate value.

That is why 40,000 persons will have to go without a Post-War Maxwell this year though 100,000 are being built.
