**CONSCIENTIOUS CONTESTANTS  
CUT COUPONS CEASELESSLY**  
The Days of Vote-Getting Are Passing By--Try  
and be a Top-Notcher in Your District.

Continued from page 1.  
Be one of them. Hurry, and you may be one of the top-notchers. Be the star top-notcher, and have the honor of getting the greatest number of ballots in all districts. Remember time and tide wait for no man, and don't wait. Get in with a bunch of tiger votes, and push to the front. Get in the crowd that will make a star showing at the last. The ladies who will have the greatest number of votes in their respective districts will be the lucky ones; the lucky five, with their chaperon, will take the delightful sea voyage and land trip to and around the Islands of Bermuda. The Standard and New Star cannot too often sing the praises of the advantages to be gained by visiting this desirable spot, for many years ago Tom Moore, the great Irish poet, spoke of Bermuda as "These leafy isles upon the ocean thrown. Like studs of emerald o'er a silver zone." Moore lived there in 1804, and he ought to have known its beauties. Don't pause an instant in your advance to win the position in this desirable party, for the very lucky lady who heads the voting at the last will be accorded the privilege of selecting the chaperon—a most desirable consideration surely. The honor of winning in each district will doubtless fall to the contestant who is the busiest one in that district until the end in getting the points that count. In reply to many inquiries, it is stated that the pre-payment, through one of the ladies who are striving for the prizes, for a period of six or twelve months by an old subscriber who has heretofore been in the habit of paying the boy or newsdealer by weekly or monthly installments, does not in the least affect the carriers

**CAPE TO CAIRO  
BY MOTOR CAR**  
Remarkable Expedition Contemplated by Four Englishmen—Will Start on Their 6,000 Mile Trip in November

London, Sept. 12.—One of the most remarkable expeditions that have ever taken place will start in November next to attempt to carry the Union Jack by motor-car all the way from Capetown to Cairo, a distance of more than 6,000 miles. The journey, which is carried to a successful conclusion, will falsify Cecil Rhodes's prediction that no one would cross Africa on wheels until the Cape-to-Cairo railway had been constructed, is expected to last four months. That they may be four months of almost incredible hardships and dangers is acknowledged by the members of the party. Hundred of miles of unexplored country will have to be crossed, and the party will be exposed to night and day to attacks from hostile natives. Pestilential swamps must be negotiated, dense jungles penetrated, dreary deserts crossed and wild beasts encountered, with death in the form of various fevers, thirst, starvation, poisoned arrows and snake-bites lurking everywhere.

Unlike the builders of the Cape-to-Cairo railway, who had the benefit of an advance guard of 1000 native troops in the present party, if the bearer-boys exchanged from time to time to be expected, will travel alone. The members of the party will be only four in number, and each will carry his life in his hands.

**Personel of Party.**  
The two principal members of the party will be Mr. B. J. F. Bentley and Captain R. N. Kelsey. Mr. Bentley, who is the leader of the expedition, is an explorer and ardent motorist. He has already covered the greater part of Abyssinia in a motor-car, and was the first to initiate the project of the motor-car expedition of mechanical population. Captain Kelsey is thirty years old, and is a native of Somerset. He fought in the principal engagements of the South African war, and was wounded on many occasions. These two, with a journalist and a bioscope operator, will make up the entire party.

**For Hostility.**  
The expedition will be the outcome of many months of careful preparation. More than a hundred depots have been arranged at convenient distances along the route. Food supplies, ammunition, petrol, and repairing accessories will be deposited at all these depots and a transport expert will be in advance to supervise the preparations. It is anticipated that the advantage of having a motor car will be more than counterbalanced by the many drawbacks. Some notion of the difficulties attaching to the journey will be obtained from the statement that at fewer than 20 rivers and 4 lakes will be crossed on the journey. At all these places a pontoon of local timber on which the motor car will be carried, must be constructed on the spot. The brushwood must also be cleared when it is too dense to push through.

Again, it is feared that the sight of a mechanically propelled vehicle will arouse the hostility of certain tribes of natives in central Africa, through whose territory the expedition must pass. Mountain ranges will be avoided as much as possible, and the expedition will endeavor to follow the route marked out for the Cape to Cairo Railway. As at present arranged, the route northward will be as follows: Capetown, Middleburg, Bloemfontein, Victoria Falls, Livingstone, Bismarckburg, Lake Tanganyika, Vishumbi, Kook, Khartum, Wadi Halfa, Cairo. One of the worst portions of the journey will be the crossing of the Kalahari desert, a vast and sandy plain which stretches between the Zambezi and Orange rivers, for a distance of about 600 miles. While lagoons and "salt-pans" are frequent in some parts of the desert, it is practically destitute of water. The expedition expects to spend Christmas in the neighborhood of Victoria Falls, and to reach Cairo about the middle of March next. The party have already received promises of assistance from the Colonial Office, and the South African, German, Belgian, Egyptian and Sudan authorities, as well as from the chartered company. It is estimated that 5000 gallons of petrol will be used. All four members of the party will be inoculated against fever.

**Every Day Aids**  
Rust stains may be removed from white goods by applying lemon juice and salt to the spots. Bunches of sweet clover hung in the closets will, it is said, keep away moths. Good tea is improved in flavor if a dozen cloves are allowed to soak in it for a few minutes. Use a simmering burner for soups,
