TURKEYS AS LINE FOR FARMERS

Essential to Success With Class of Poultry.

Do not shut the turkey in the close ill ventilated pen at night. This is certain to prove injurious, and will cause great mortality in the flock.

List of Feeds.

There is a wide range to choose from in selecting feed. Corn, oatmeal, meal, and cracked wheat are all good. Shorts mixed with warm skim milk has been fed successfully for the first five weeks. Flocks should be fed the first few days, gradually changing to milk soaked shorts until that forms the whole ration. Mix the shorts moist and crumbly, and do not allow any sour feed to be around. Keep the feeding troughs clean, and give skimmed milk and buttermilk as well as pure water to drink. About one sixth part of the daily ration should be green food, such as onion tops or dandelions leaves cut up fine and mixed with the shorts.

Cleanliness and care not to overfeed are the main points in feeding. Many young turkeys die as a result of feed being left in their troughs too long, when they keep pecking at it, causing fatal bowel trouble. Be very careful in changing feed, and in making any other changes with the birds. Guarding against lice may be accomplished by giving the old hen a thorough dusting with insect powder a day or two before the eggs are hatched, and by dusting the little turkeys from time to time. In dry weather, if dusting places are provided, the poult will dust themselves free of vermin. They must, however, be kept free of these pests because the parasites drink the blood of the little turkeys and enfeeble them so that death soon results.

Profit in Turkeys.

Turkeys are very profitable if taken care of properly, but slipshod methods undoubtedly will result in failure. There is a good market for good birds in the Autumn and Winter, and a very large industry might be the result, if our Canadian farmers would take up the raising of turkeys, if only as a side line. Then too, if there were more birds raised the prices might drop a little, thus placing the would be consumer, to whom, during the years dominated by the high cost of living, turkey was an unknown luxury. There is no real reason why turkeys cannot be raised in such numbers as to make for satisfaction all round.—M. McL., Chetzcooke, N. S.

USE NITRATE OF SODA.
Nitrate of Soda supplies nitrogen in a readily available form and because of this is one of the most valuable of the nitrogen supplying fertilizers. In the Spring, nitrates in the soil may be very deficient because of their depletion by drainage from the soil, caused by Fall and early Spring rains. Liberation of nitrogen in the humus cannot take place until the soil warms and the nitrifying bacteria become active. Hence the suitability of Nitrate of Soda for furnishing available nitrogen early.

"I have used MINARD'S LINIMENT in my home, hunting and lumber camps for years and consider it the best thing I have ever used. It is a quick relief to minor ailments, such as Sprains, Bruises and all kinds of aches. Also it is a great remedy for colds, coughs, and all kinds of chest troubles. It is a sure cure for rheumatism and cannot be overpraised for its many uses."

The champion boxed outdoors yesterday for the first time, going eight rounds with four of his sparring partners.

Polo Has Suddenly Become Popular

19,000 People Saw Game at Hurlingham—Earl of Rock-savage Injured.

London, May 19.—A new sport was discovered by Londoners today, this being polo, which hitherto, so far as this country has been concerned, has been a game reserved for and appreciated only by the few. Ten thousand persons, a large proportion of whom saw a polo game for the first time, were at the Hurlingham polo grounds, where the local club team unexpectedly defeated America's crack 5 goals to 2. The policy of the Hurlingham authorities in bringing the game within the reach of the many was fully justified by the keenness with which the spectators of the play were followed, particularly in the "chopper" seats. The grounds echoed to unaccustomed cheers as the crowd watched the eight men in a sparkling display of speed and intelligence, and grasped the situation with unerring quickness. The riders uncovered bursts of clever racing that held the people spellbound.

A serious accident was narrowly averted in the second period of the game, when the Earl of Rock-savage was crossed by an opponent, Melburn, in a fierce gallop and the horse and rider were thrown in the air. A motor ambulance was rushed to the centre of the field, where the Earl lay on his back, but, after a while he awoke, remarking and concluding with a laugh.

Many Athletes In Preliminaries

Qualifying Contest at Cambridge, Mass., Covers Wide Range of Colleges.

Cambridge, Mass., May 27.—In a qualifying contest covering the widest range of colleges in many years, nineteen institutions placed athletes in the preliminaries of the forty-fifth annual championship games of the Inter-Collegiate Athletic Association held in the Harvard Stadium today. Outstanding in the bitter track and field dual for place were the remarkable performances of the Universities of California and Leland Stanford, Jr., the Pacific Coast group of eighteen starters, fourteen of whom bore the colors of California and four from Stanford qualified, seventeen men out of a total of 92 advanced in the eleven events of the programme.

Harvard scored first place with eleven of the championship events, Pennsylvania were tied for second with ten each and the other sixteen institutions scored as follows:

Yale 9; Pennsylvania State 8; Cornell Stanford and Princeton 7 each; Dartmouth 5; Lafayette, Rutgers and Syracuse 3 each; Massachusetts Institute of Technology and Columbia 2 each; Bowdoin, Brown, Holy Cross Pittsburgh and Williams one each.

The ninety-two athletes who qualified today, plus the entrants in the one and two mile runs tomorrow will compose the field in the struggle for first place honors in the finals Saturday and experts predicted tonight a bitter battle for points. Estimates of the total score of the winning team tomorrow range between 16 and 22 and it is freely predicted that the sweetest winning score of 24 points made by Pennsylvania in 1913 will be out by the victorious college.

While no records were broken in the standard of performance was exceptionally high. When it was seen that a majority of the winners and second place men were finishing comparatively fresh and with much in reserve, the prediction was made that several records were likely to be surpassed in the finals. Weather conditions were ideal of a blustering sun and hardly a breath of breeze.

World champion Earl Thomson of Dartmouth, easily won both his heats in the 120 and 200 yards with the perfect display of timber-topping.

Fighter Abe Attell Before The Court

Former Pugilist Makes Statement Denying Charges Made Against Him.

New York, May 27.—Supreme Court Justice Thorne today postponed until next Tuesday the case of Abe Attell, former pugilist, charged with being a fugitive of justice from Chicago, where he was indicted in connection with the baseball scandal of 1919.

The court held that the only question before it was whether "the Abe Attell who appeared before it was the Abe Attell who had never talked with various men connected with baseball, although he had known Secretary Boys, of the Chicago Nationals, for twenty years. He conceded that he was in Chicago on October 3, 1919, but denied he had been there October 30, as asserted.

Attell also denied that he knew, except by name, Eddie Cicotte, Joe Jackson, Claude Williams, George Weaver and the other baseball players mentioned in the scandal. He also declared he did not know Dan Johnson or any of the persons whose names were given as having brought the complaint.

METROPOLITAN HANDICAP Belmont Park, May 27.—The Metropolitan Handicap at one mile, the first big event of the local racing season was won here today by Mud Hatter. Audacious finished second and Yellow Hand third.
