## REPORT.

THE lapse of another year, has brought us again to the period when we are called to meet together in the House of God, in order to join in mutual exercises of devotion, make known the dealings of God with the Society during the year; unite our congratulations or condolences, as existing circumstances may demand, and exhort to renewed exertions in the sacred cause. Certain it is, that in proportion to the acknowledged excellency of the object of Missionary exertions, will be the interest taken in their success, by those who sanction them with their countenance and support. We therefore, are happy to have it in our power to respond to your call, and to furnish a Report replete with interest, and which cannot fail to increase sympathy, and animate to persevering effort. It will indeed be seen, that difficulties demanding the special interposition of Almighty agency, still continue to try the patience of God's servants, and that in order to their successful cultivation of some parts of the great Mission field; strong faith in the promised supply of the Holy Spirit's influence is indispensable. Abundant encouragement, however, arising from positive instances of conversion, increased liberality, and manifest indications of providential superintendency, enable us to rejoice in the assurance that we are warranted still to use the language of our venerable Founder. The best of all is, God is with us! During the year, fresh plots of the vast field have been brought under cultivation; the first fruits of an abundant harvest reaped, immortal souls the reward of Emanuel's passion have passed into the Heavens, and principalities and powers in heavenly places, beholding in the Church, these demonstrations of the wisdom and goodness of God, are looking forward to still more glorious results.

## EUROPE.

"During the past year, the exertions of the Society's Missionaries and the operations of the Schools have been rendered instrumental, by the blessing of Almighty God, in the extension of scriptural Christianity in Ireland. Mr. Muller still continues his zealous exertions at Menenden, in Germany; which the Great Head of the Church is pleased to crown with an encouraging measure of success. The review of the work in France and Switzerland,
