Direct Budapest advices carried official denial of the reports that Charles was moving on the capital with troops, and declared he was safely guarded at Steinamunger.

Rumania Fails Again Work in Coal Pits of United To Pay Interest On Loan Made by Canada

Negotiations Reported To Be Proceeding Between the Two Governments, But No Money Is Forthcoming-Other Countries Extended Credits Have Met Their Obliga-

[Special to The Advertiser.] Ottawa, April 1.—"We have 12% ovices on the subject" is the laconic statement of the finance department this morning with regard to the Interest payment on Canada's \$25,060,000 loan to Rumania which was defaulted on its first maturity, and which has again fallen due.

Rumors to the effect that the Rumanian Government was on this occasion prepared to meet its obligations are not borne out by information available here. It has been stated in the House that negotiations were proceeding between the two countries and that Rumania had simply asked that payment be deferred. The other beneficiaries of the credits extended during 1919 have met their interest payments promptly, but Rumania continues in default.

It is stated this morning that the balance of the Canadian external loan of \$25,000,000 which matures in New York, and on account of which \$10,000,000 in gold was recently shipped, is being retired out of Canadian bank balances in New York.
