oration of the Former Monarchy Under Charles Would Imperil Peace, Declares Note Communicated to Budapest Government—Smaller Powers Bordering Hungary WIII Resort to Military Action At Once If the Former Monarch Makes Further Move To Regain Power — Blockade Against Hungary Would Be Established by the Entente Powers.

Paris, April 1.—Warning was given Hungary today by the that the restoration of the Hapsburg dynasty would entail rous consequences for the Hungarian nation.

This warning, issued through the council of ambassadors, tituted a virtual ultimatum from the chief Allied powers, inuding Great Britain, France, Italy and their leaser associates. was given additional point by the fact that it was communicated ficially to the Allied states by which Hungary is surroundedsecho-Slovaia, Jugo-Slavia, Rumania and Poland, at least the first three of which, comprising the "little entente," have declared tnemselves ready to take military action against the Hapsburg

Meanwhile advices reaching Paris through official and other reliable channels gave no confirmation of the rumors that exmperor Charles was marching upon Budapest at the head of a arge body of troops to replace himself upon the throne.

Official advices to the French foreign office emphasized that Charles was still at Steinamanger, near the Austrian frontier, that egotiations were in progress for his removal from Hungary, premably back to Switzerland, through Austria, and that quiet prevalled at Budapest, the Hungarian capital.

Direct Budapest advices carried official denial of the reports that Charles was moving on the capital with troops, and declared he was safely guarded at Steinamanger.

Poughkeepsie, N.Y., April 1.-Temporary alimony of \$7,500 a month. coun-sel fees of \$35,000, and \$12,500 for ex-penses, were fixed today for Mrs. Annie U. Rumania Fails Again Work in Coal Pits of United To Pay Interest On Loan Made by Canada

Negotiations Reported To Be Proceeding Between the Two Governments, But No Money Is Forthcoming-Other Countries Extended Credits Have Met Their Obligations Promptly.

[Special to To v Advertiser.]

Ottawa, April 1.—"We have 12 dvices on the subject" is the laconic statement of the finance department this morning with regard to the interest payment on Canada's \$25,000,000 loan to Rumania which was defaulted on its first maturity, and which has again fallen due.

Rumors to the effect that the Rumanian Government was on this occasion prepared to meet its obligations are not borne out by information available here. It has been stated in the House that negotiations were proceeding between the two countries and that Rumania had simply asked that payment be deferred. The other beneficiaries of the credits extended during 1919 have met their interest payments promptly, but Rumania continues in default.

It is stated this morning that the balance of the Canadian external loan of \$25,000,000 which matures in New York, and on account of which \$10,000,000 in gold was recently shipped, is being retired out of Canadian

Volunteers Called For To Avert Possible Destruction of Valuable Properties—U. S. Coal Merchants Receiving Big Orders As Result of Walkout—Fears Are Entertained That Railwaymen and Transport Workers' Union May Join in Sympathy With Coal Diggers—The Government Prepares for Such an Emergency.

London, April 1 .- All work ceased in the coal mines of the United Kingdom at midnight with the exception of a very few districts, and approximately 1,200.0 miners were ide today as a result of the contro versy over the wage issue. In only two collieries in Yorkshire, one in have promised to continue at their posts without prejudice to any terms that may be agreed upon, but all other pit workers, including mechanics, pumpmen, ventilating men and pony men came out with the miners. Danger that the mines may be flooded threatens and many may be irretrievably ruined from the inrush of water. Strengous efforts are

being made everywhere to enroll volunteers. Yorkshire pumpmen have decided to remain at work, and hope was expressed today that others would follow their example. ORDERS FOR U. S. COAL

The first effect of the strike has been the placing of orders with

S. coal merchants. Advices from New York state that a flood of orese ket has been received there, and although the country's stock of coal estimated at 1,000,000 tons, the price of household fuel already has rise London and other urban centres are believed to have several weeks

supply on hand owing to the fact that export of coal has been completely stopped by the board of trade, except in cases where special permits have been issued.

Apprehension is felt that the National Union of Rallwaymen and the Transport Workers' Union, partners with the miners in the labor dispute may be tempted to strike in sympathy with the coal diggers. In such an event, the nation would be confronted by a cris's of unpracedenied gravity. One of the targest wards in London took pre sythaux steps yesterday and formed a company of special police to project property. Orders were issued last night to employees of various Government departments to "stand by" to report for transport duty, if necessary
