

When you pay the price of first quality sugar, why not be sure that you get it? There is one brand in Canada which has no second quality-that's the old reliable Redpath.

"Let Redpath Sweeten it."

2 and 5 lb. Cartons— 10, 20, 50 and 100 lb. Bage. Made in one grade only—the highest!

## What Did We Plant in Our

Vegetable Garden?

To help win the war we must all produce, so every patriotic Canadian has a vegetable garden this year. We have a fine assortment of vegetables in our garden, and if you will study the pictures at the right you may be able to discover what we are growing. Each of the pictures represents a common vegetable that you all know. Here are two examples from the series our artist drew and we will tell you that No. 1 is Cauliflower (Call-eye-Flower) and No. 8, Beets (Bee-eats). Now see if you can solve the rest and when you have them all, write your solutions on a sheet of paper and send them to us.

This Contest is Free of Expense to All

## Follow These Simple Rules Governing Entry to the Contest

THE CONTEST EDITOR, RURAL CANADA & CONTINENTAL BLDG., TORONTO

flower show coming this month we expect this also to be a busy month. BELLE STONE,

A NEW ORGANIZATION

Three Hills reports a new U.F.W. with
Mrs. C. M. Flett as secretary? Mrs.
Pariby, the president, visited there on
July 9 and held a successful meeting,
with the above result. Success to them!
L. R. B.

Gleichen sends the following:

The U.F.W. was organized in Gleichen May 12, 1917, with 12 members. Mrs. Wm. Walsh, president; Mrs. John Buckley, vice-president; and Mrs. R. B. Hayes as secretary. Mrs. Pariby 2ave an address to the U.F.W., June 29, 1917, and a social afternoon was arranged for July 17. We have held no separate meetings yet, but hope to soon.

CARSTAIRS U.F.W.

Carstairs U.F.W. reports a member-ship of 35; and an egg circle with a steadily growing membership. The eggs are handled by the co-operative merchant. The proceeds of two lunches which were served brought \$46.60. Red Cross work is claiming considerable attention and there is an interesting program as well.

L.R. B.

Mrs. Cartwright, Gwynne, reports:—
A benefit dance was given at the home of Mrs. Cartwright in June by the women of the Gwynne U.F.W.A. and neighboring women for the Red Cross Fund. The music was kindly donated by members of the U.F.A. and others. During the evening ice cream, cake, sandwiches and coffee were served and \$62 was taken in. The expenses were \$17, leaving the sum of \$43, which we would like sent to the Red Cross Fund. Our little club is prospering and we expect to help more in the future.

DOES THIS LOOK UNPATRIOTIC?
Asker raised \$200 for Red Cross during the month of June. These are busy farm people too, but they realize that they have a duty in this great struggle. I wonder how the idea got abroad that the farm people of Alberta are unpatriotic?

L. R. B.

## STUDYING INTERNATIONAL RELA-TIONS

Gough Lake U.F.W., one of the latest to line up with us, is taking up the study of International Relations. They have ordered four books on the subject:—An-Introduction to the Study, of International Relations; The War and Democracy; After the War; The Problems of the War and Peace. All of these are by well become authors.

## HOME MADE SOAP

Grandmother spew how to make use of left-over fats and greases and she kept the kitchen supplied with a useful grade of home made soap.

Here's the way she did it: She saved all the "drippings" and kept them in a large earthenware crock and at the end of each month she made them into soap. First she put all the fat into a large kettle on the back of the stove, and when it was all melted she cut up a large raw potato and dropped it in to purify it; then she let the fat cook slowly until all the water was avaporated or until it stopped sputtering. When the fat was pure she strained it through several thicknesses of cheesecoth, or if she wanted it whiter she strained it through several thicknesses of cheesecoth, or if she wanted it whiter she strained it through charcoal or clay.

She made a sody solution of one

afrained it through charcoal or clay."

She made a soda solution of one pound of pure caustic soda dissolved in five pints of water and mixed in 14 ounces of this solution to each pound of pure warm fat, and she stirred the mixes until smooth. Then she poured the mixture into pane or hoxes lined with greated paper and put it away in a dry place to harden.

A number of meetings of electors are being held at various points throughout Western Canada in favor of the establish-ment of a national government pledged to a strong win-thomas program. Reso-lutions calling for the moion of all parties endorsing compulsors' military service are being massed.
