country that the man who builds a
house on a heavy and undrained soil
and undertakes to rear a family in
such an environment, is living in a
fool's paradise, and the government
who permits it is permitting as much
of a violation of sanitary law as to
permit him living over a bed of rotten
rubbage, or in proximity to an offen-
sive cesspool, or of harboring a de-
composed carcass. An undrained
damp soil is the harbinger and
of pathological germs. The
woman or child, whose tissue
is susceptible to the tubercle bacillus,
in such an environment has
a same chance of escape as the
pigeon who is in more sanitary
buildings. In the country dis-
trict of the Maritime Provinces of
Dominion of Canada damp and
lined soils, together with living
and unventilated rooms has
much to do in propagating the
of consumption. If this be

to conclude that the masses must
be catered for in their own homes and
in Sanatoria of their own climes.
When we compare statistics of Sanato-
ria in Germany and Scotland with
those of Muskoka, the Adirondacks of
Massachusetts and other parts of the
United States we find that the Sanato-
ria on this continent compare favor-
ably with those of Europe. Dr. Phil-
lips, of Edinburg, although speaking
of Edinburgh as a 'villainous climate'
owing to mist and dampness, reports
that his efforts to care for and treat
the consumptive in his Sanatoria are
equal to or as good as any on the
continent. And with what little ex-
perience the writer has had in caring
for and treating the disease in a San-
atorium in Nova Scotia, which coun-
try is almost surrounded by the sea,
we believe the results are equally as
good.

In Nova Scotia we have a Sanato-
rium act for the establishment of San-
atoria, which passed the legislature in
the year 1900. The act provides for
other Sanatoria conducted by any
private person or benevolent organi-
zation to be under the surveillance of
the government, and which when ap-
proved, each patient shall receive
thirty cents per day, not exceeding
two days. The Provincial Sanato-
rium at Kentville, Nova Scotia, has
been completed since May last. It
was erected and equipped at a cost of
about \$25,000.00.

**Friends Were Anxious About Conductor
McLeod.**

Last spring I was very much reduc-
ed in flesh and weak from an extreme-
ly bad cough, so much so that my
friends were anxious about me. A
friend offered to send me a bottle of
your "Amors Essence" of God Liver
Oil. This I took according to direc-
tions, and was greatly pleased with the
result. My cough grew gradually
better, until it has now ceased to
trouble me, and I now feel as strong
as ever and have regained my usual
weight. I might say that I was very
much pleased with the taste, the cod
liver oil and iron being completely
disguised.

(Signed) ROSS McLEOD,
Conductor Inverness Railway.

Single X, Double X, Treble X.
Why is the letter X coupled with ale?

Because it X-presses his char-
acter. X-amine this X-acted and
highly X-tolled, X-cisable liquor, we
learn that it is an X-tract of malt and
hops, with probably more X-tras.
It is X-seedingly X-pensive, X-treme-
ly dangerous, and X-cessively injur-
ious. Who can X-gaggerate its evil
effects? It X-hilarates and X-hunts
the spirits; it X-cites anger; it X-
tates X-tinguishes energy; it X-
travagance; it ruins X-culture; and
X-tirpates friendships. It makes X-
orbitant X-actions on the body, and
X-erts an X-traordinary influence on
the mind. Its deadly exploits are
everywhere X-hibited and fearfully
X-perienced. X-tians awake, X-
plore this X-ecrable drink curse; X-
clude it from your lips; X-orcise it
from your home; take a firm and
X-pectant prayer strive to X-tricate
its perishing victims; to stay its X-
tension; to X-terminate its power; and
X-pect no response until it is X-iled
out of X-istence.—In Sons of Tem-
perance Record.

Catarrah of the Head

Is very common, but awfully dan-
gerous because it causes deafness and
leads to consumption. Cure is as cer-
tain to follow the use of Catarrhose
as day is to follow night. You sim-
ply breathe the fragrant healing Cat-
tarhose which spreads through the
nasal passages, throat and lungs, driv-
ing out every vestige of Catarrh. 'I
was cured of chronic catarrh of the
nose and throat' writes Ernest M.
Wilkinson of Lauretton after many
years of misery by Catarrhose
which is a splendid remedy to free the
air passages from mucus. Catarrhose
relieved quickly and my cure
has been permanent.' Price \$1.00
for two months' treatment; trial size
25c.

Burly Party—Are you aware, sir,
that you deliberately placed your

came of it, and— Would it be too
much trouble to ask you to return it?

A Sincerely Happy Man
Is Mr. Thos. McGlashan of North
Pelham who was cured of muscular
rheumatism by Nerviline, the most
powerful rheumatic remedy in the
world. 'I suffered all manner of pain
for years, he writes, and Nerviline
was the only thing that did me good.
I can heartily recommend Nerviline
for all forms of rheumatism; it goes
to the very core of the pain and brings
lasting relief. Let every sufferer from
lame back, aching joints and swollen
limbs use Nerviline. It's sure to cure
and costs 25c. for a large bottle.

The Christian in Politics.

This is a Christian country in
which Christian sentiment should
dominate, and in which Christian
men must come to the front and make
the rule of the baser element impos-
sible. If the seat of politics is un-
clean, it will only be cleansed when
Christian men come to the front
and make the rule of the baser ele-
ment impossible. If the seat of polit-
ics is unclean, it will only be
cleansed when Christian men of ability
and worth make their presence
felt by bringing the same ethical
codes to bear upon public life as they
do in private life. Why should any
intelligent man shirk the duties of
citizenship and allow men of the
baser sort to gain the predominance
of influence on the questions which
are of vital importance to the country's
welfare? It is a shame that the term
"Christian politician" should convey
an implied sneer. In an avowedly
Christian land every politician should
be a Christian one and coming good
men should work for the coming of
the day when none but men of knowl-
edge and worth and character and
unsuspected reputation shall be able
to hold the humblest office in the gift
of the people, every man whose patri-
otism is not so weak as to believe that
such is his duty.
