BECAUSE

We sell you direct, without the assistance or expense of any local agent.  
We offer you a choice of Organs never before gathered under one management.  
We contend our prices are much lower and for better instruments than you can procure elsewhere. Get our prices and compare them.  
We give from one to two years' credit, as may be arranged, charging no interest the first year.  
We give cash buyers **TEN PER CENT.** discount for cash.  
We mark our prices on each instrument in plain figures, make no deviation therefrom except the cash discount. We believe the one-price system protects the customer against all imposition or overcharging, and ensures the lowest price to all.  
We guarantee satisfaction. We ship on approval to any point in the Dominion, with privilege of return at our expense, as to return freight, if not satisfactory in every way. We leave the matter of satisfaction to your decision.  
We guarantee to save you money in buying your Organ from us.
