

HAVE STOOD THE TEST OF TIME

Long years of constant use have demonstrated to the farmers and others in Western Canada the marked superiority of our goods.

A great saving of time and strength may be effected by using a "Manitoba Windmill" to pump water, grind feed and do other multifarious duties too numerous to mention on the farm. It is warranted to last long and wear well.

"Manitoba" Gasoline Engines, built on advanced mechanical principles, made in all sizes, will run the cream separator, pump water, saw wood, and do all other kinds of work where an efficient, cheap, economical power is needed.

Thousands of pleased customers testify to the merit of our machines.

EVERYBODY IS SICK OF DRUGS.

You know you would rather do almost anything than take that nasty dose the doctor gave you. Why, it makes you sick to look at the stuff, and even the smell is nauseating.

Say my friend, ever hear of Nature's cure? I've got it. It's electricity. It's the power that runs every organ of your body; which enables you to think, speak, or do anything else. It's the power that makes your heart pump blood, your stomach digest food, and the various organs perform their functions like so many machines.

Drugs work against Nature. I'll tell you why. Your stomach is a generator of electricity. It supplies the power that runs every organ of your body, including the heart.

You see, it is the action of the juices of the stomach upon your food that produces this electrical force, and when you fill your stomach with poisonous drugs they destroy these juices, consequently your stomach cannot create enough electricity for itself and other organs.

Just the other day a scientist in San Francisco talked over a telephone which received electricity from the stomach of a living man. That's proof enough that the human body is electrical.

When Nature can't cure. It is because she needs aid. So many people have an idea that this aid is drugs. It's not; it is electricity. So if you will restore it to the body, pain and weakness will disappear.

When your stomach, kidneys, liver or digestive organs get out of order, it is because they lack the necessary electricity to enable them to perform their regular functions. The breaking down of one of these organs nearly always causes other troubles. Nature can't cure then, because your body hasn't enough electricity to do the work, so you must assist Nature by restoring this electricity where it is needed.

My Electric Belt does this while you sleep. It saturates the nerves with its glowing power, and these conduct the force to every organ and tissue of your body, restoring health and giving strength to every part that is weak.

Electricity is a relief from the old system of drugging. It does by natural means what you expect drugs to do by unnatural means. It removes the cause of disease, and after the cause has been removed Nature will do the rest.

Dear Sir,—I should have written you before to let you know what your Belt has done for me. I can say that my back is cured, and as strong as ever.

For six months before I started to wear your Belt, I could hardly stoop over to pick up anything off the ground. Sometimes I could not walk, the pain in my back was so bad. I had not worn the Belt more than two months when my back was as well and as strong as ever.

MISCELLANEOUS.

A Modern Institute.

The Keeley Institute of Winnipeg are now occupying their new building, corner Jessie Ave. and Hugo Street, Winnipeg. They now have the best appointed branch institute on the continent, where increased facilities enable them to comfortably accommodate their growing business.

Their new building is modern in every respect, rooms sunny and pleasant, single or en suite, private baths, large club, reading and ladies' reception rooms, screened verandas, a shaded lawn, and a quiet retreat located away from the noise and gaze of the crowded city, where any degree of privacy desired can be attained. The medical department is under the personal supervision of a regular and qualified practitioner, who resides at the Institute, and is competent and skilled in treating special nervous diseases resulting from liquor or drug using.

The most stubborn cases of neuralgia are apt to yield to hot water treatment. Wherever the pain is located, there a hot water bag should be applied. The suffering part should be wrapped in a blanket, and the unfortunate patient should be put to bed and covered with more blankets, and induced to drink at least three cups of water as hot as the palate can stand. This treatment may seem severe, but it is sure to bring relief. Of course the patient should be careful not to take cold when cooling off after this treatment.

A Russian timber dealer has discovered a valuable mine of oak. It is in a river of South Russia, in layers three or four feet deep, scattered over 150 square miles, and its most striking feature is its variety of colors, supposed to be due to the variegated soil of the river bottom. No fewer than twelve shades of pink, blue, yellow and brown have been noted, each log having its own uniform shade. The logs taken out have ranged from forty to two hundred feet in length and from fifteen to twenty inches in diameter, and it is estimated that more than 150,000, averaging seventy feet, remain.

Teeth of all kinds have been worshipped, and are, in fact, venerated as relics in some religious shrines. Buddha's tooth is preserved in an Indian temple; the Cingalese worship the tooth of a monkey; while the elephant's and shark's tooth serve a similar purpose among the Malabar and Tonga Islanders respectively. The Siamese were formerly the possessors of the tooth of a sacred monkey, which they valued very highly, but in a war with the Portuguese they lost the holy grinder and had to pay \$3,500,000 to get it back again. It is now kept in a small gold box, inclosed in six other boxes, in one of the many temples of the Siamese capital.

A little Topeka girl came home from church the other day, and was asked what the minister's text was. "I know, all right," she asserted. "Well, repeat it," the questioner demanded. "Don't be afraid and I will get you a bed-quilt," was the astonishing answer. Investigation proved that the central thought of the sermon had been, "Fear not and I will send you a comforter."

A Funny Game.

Here is a funny game to play:

Stand facing a girl and say to her, "You can't make the same motion I am going to make."

Then she will say, "Just see if I can't."

Now do this: Put your left hand forward, point the forefinger toward your face and make a circle around your face with it, saying, "I see the full moon."

Next point at each eye and say, "Two eyes;" then touch your nose, saying, "A nose;" then touch your mouth and say, "And a mouth."

Now let your arm fall and tell the girl to do exactly as you did and say what you said.

The point is this: She will be sure to do all the motions with her right hand instead of her left.

And you can promptly say, "No, you didn't do it right." She will ask you to go through the motions again and very likely will use her right hand again.

But suppose she is left handed? She will naturally use her left hand to get the trick right. So you should tell her, "Well, you can't do it again," and be sure to use your right hand when you show her again. When she tries to do as you did she will most likely use her left hand, and you can say, "You're wrong this time."

This trick amuses everybody.
