## MARKET REVIEW

Toronto, Monday, August 19.—Whole-sale men in all lines report a fair to good business, with increasing orders for fall delivery. There is a healthy tone in all markets, but nothing booming.

Crop reports from all over Canada are most promising. Western farmers, so far, have had good weather for harvesting their wheat, and in Ontario and the east growing conditions are reported as good for everything but corn, which needs more warm weather.

The feature of the farmers' market during the past week has been the decline in the price of meat. Other lines are steady to a little stronger.

## WHEAT

The United States wheat crop, it is estimated, will be 800,000,000 bushels. The Canadian crop for the three Western provinces will probably be 250,000,000 bushels. This will be a record for both countries. The most serious question facing the Canadian grower is how he will get his crop to market. Scarcity of wheat for immediate delivery on this side has forced the price up half a cent. No. 1 Northern is now quoted at 81.12; No. 2, 81.04; No. 3, 81.01; No. 4, 80.98; No. 5, 80.95. Part of the Ontario crop is said to have sprouted in the shock. Millers are quoted 56c to 57c for the old crop and 90c for the new.

## COARSE GRAINS

A fair trade has been done in oats this past week, and prices have been advanced half a cent to meet immediate demands. Dealers quote No. 1 extra feed oats at 41.30; C. W. No. 2, 41.30; No. 3, 41.30; Ontario No. 2, 41c outside. 40c here; No. 3, 1c less; barley, 62c to 63c; buckwheat, 70c; rye, 80c; corn, 70c to 84c. At Montreal quotations are as follows: Oats, C. W. No. 2, 41.30; No. 1, extra feed, 41.30; No. 3, 41c; corn, 80c; peas, 52.50 to 53.50; barley, malted, 60c; feed, 63c to 64c.

## MILL STUFFS

Mill stuffs are steady at the advance most have been made to meet immediate foreign demand. Manitoba bran, 52c; shorts, 52c; Ontario bran, 52c; shorts, 52c. On the Montreal market bran is quoted
