Opportunity For Enterprise

You have seen frequently in various parts of the country, neat, artistic, substantial and fireproof buildings—dwelling and office, or even a church. You ask of what they are built, the answer is "Cement Blocks." This form of construction is gaining a fast hold on the public fancy. There are opportunities to commence the Cement Block Industry in many parts of the Dominion. Special machines are made to manufacture the blocks. Given a plant and suitable conditions, the enterprising man cannot fail to make good. The *Canadian Cement and Concrete Review* for June, which will be ready next Saturday, gives a little idea of what may be done in this line.

Cement and concrete construction does not interest only those intimately connected with the industry. The subject concerns, directly or indirectly, everyone. Financiers must keep pace with the progress of up-to-date constructional methods. Millions of dollars are invested in the Canadian cement industry which is expanding rapidly.

There is only one journal in Canada devoted to the subject. This is the *Canadian Cement and Concrete Review*. It deals with cement and concrete construction in every branch. It is printed on fine art paper, and is profusely illustrated. It is edited in such a way that it is alike interesting to the builder, the contractor, the engineer, and the general reader.

¶ The tenth number, which will be ready on June 15th, contains amongst others, the following articles:

Cement Blocks.
