(From the Chronicle) UNITED STATES.

Per Steamer Niagara. The Royal Mail Steamer Niagara, Capt Ryrie arrived on Saturday morning last, 70 hours from New York, en route for England.

The news from Washington on the compromis bill introduced by Mr. Clay, shows that the whole matter has now come to a point. The President's plan stands opposed to that of the distinguished Senator; and Mr. Clay's speech, and our intelli-gence from the capital exhibits the condition of all parties. It is an interesting crisis.

The cabinet of President Taylor still stick together, though several members of it are borne down by a load of obloquy that it will be difficult to survive for any great length of time.

The famous Galphin reports have been presented to the House, and a terrible outburst has been the first result. These papers appear to have acted on the elements of that assembly like a torpedo.

The developement of the Galphin robbery of the Treasury, is only the beginning of the corruption and outrageous venality of the cabinet. There are Broadcloths Vestings. Tweeds, & Doeskins. the Cherokee claims, passed upon by Ewing—the Medium and Fine Shirtings, Sheeting, and other De la Francia claims, passed upon by Mr. Clayton, besides others—all of which are equally illegal and outrageous. No wonder that Mr. Meredith was compelled to announce a definct in Treasury of sixteen millions, for the year of our Lord, 1850.

Government have transmitted orders, by telegraph, to New York, Mobile, and New Orleans, to send expresses at once to the Gulf squadron, di recting these forces to capture the Lopez expedition, which has sailed for Cuba.

The report is, that the attack would be made about the fifteenth of the month, by the adventurers; but there is too much reason to apprehen that the whole affair will prove a failure. Much will depend, of course, upon the feeling in the island with regard to the movement, and upon the ability of the invaders to make a landing.

BERMUDA.

The Royal Mail Steamer Ospray, Capt Sampson, arrived on Sunday last, 31 days from Bermuda. By this arrival we learn that Lord Dundonald, in By this arrival we learn that Lord Dundonald, in his Flag Ship the Wellesley, would not leave for Halifax until the 1st of June. His Lordship has been ehtertaining the elite of the Summer I has at a grand ball and Supper at which shout three hundred and fifty persons were present. Another dred and fifty persons were present. Another Prussian ship has arrived at Bermuda from Wales, with a cargo of coals for Government. She had Tin Plates, Grain Tin, Iron Wire. and was partially dismasted.

The Legislature has voted £150 for the purchase of a Clock to be placed in the tower of Trin-ity Church, at Hamilton. They have in addition Whip Thongs, WHIPS, Cart and Gig ity Church, at Hamilton. NEWFOUNLAND.

The Royal Mail steamship Falcon, Capt. Hunter, come in on Sunday nightirem St. Johns. N. P., via. Sydney, C. B , 13 days from the former port. The news from Newtounland is of little interest.

The Public Ledger says :- " N twithstanding an utristially protracted winter, we are still expemencing a very changeable spring, authorigh nearly orrived at the inside or the month of May. There is much show still lodged in the country, where so me of the roads until very ceently. have been scarcely passable :- all field of eration, are the fore necessarily very backward. This is out of the ordinary course of things even in Newtennian i. the rapid vegetation that was ensure will be hard with corresponding pleasure and satisfaction.-The greater part of the sealing vessels have now returned from the ice, and so the peneral idea i by be formed of the results of the vesage. Elastic Chest Expanding Braces.

THE SUBSCRIBER.

EING acquainted with the construction of Chest Expanding BRACES, recommended as a principal means of the prevention and cure of Consumption, by Dr. Fitch of Philadelphia, a phy sician celebrated for his success in the core of that disease, -and being preed by several of his friends whom he furnished with them, to make it known to the public, he therefore takes this opportunity of complying with their wishes.

These BRACES are recommended to all slighty made or narrow chested persons; also for Round Shoulders or Diseased Spine, as a means of expanding the Chest, so as to give full play to the Lungs, straightening and strengthening the Back, and giving uprightness and symmetry to the body They will be found beneficial to all ages, - but

especially to youth. They may be worn without the least inconvenience, precluding the necessity of Stays-for which Ladies would find it greatly to their advantage, as regards health and beauty, to substitute them. The Subscriber will furnish the Braces whole-

sale or retail, at prices as moderate as possible. MICHAEL HERBERT, Halifax, Feb. 16. No. 6 Aigyle Street.

Broma sought the opinions of many medical genthemen of distinction, for the purpose of having as anobjectionable food for invalids, and was assent that be had fully succeeded. Hospitals, miraries, and households generally, should sluase be provided with it. When gruel, arrowreet, grant, barley, starch, rice, farina, and many other than ordinarily resorted to for patients are of no utility, the Broma is sometimes relished. It is believed that those who use it as a beverage will have methat those who use it as a poverage with move ma-nifest diatetic advantages over the consumers of ten and coffee. We see it stated that dering the last summer those individuals who were contineally using Chocolate or Broma neither had athete of cholera or dysenteric affections, while others of the same families, taking their daily potations a tes, coffee, or simple cold water, were the seffeers, if any. We cannot vouch for the truth of this, bet it has recalled to mind the statement that the oil dealers in Lundon have been free from cholers or the choleroid symptoms. And it has been fer ther observed, that persons who were taking cod liver oil for chronic difficulties, during the presslence of the late epidemic, were not affected by it. Vegetable oil in the first instance, and animal of these statements, to have secured those who took ther the chocolate drinkers have been secure m

THE Agency of the above Company has been

LARIFIED COD LIVER OIL! For the has made considerable progress, without yet have 10 per cent only to the Stockholders, rendering it at once both a Stock and mutual Society without any risk to the assured; their first Bounses declared in May last were in some cases over three per cent annum on the amount of Policy. And on two Policies at this agency on which three annual premiums only had been paid, the Bonus added was over 62 per cent. on the amount paid in, the mortality among the lives assured by this Society were found to be 21 per cent, less than had been calcuated for. The above are facts in favour of the 'Star' which cannot be controverted, and should economend it to the favourable consideration of all parties intending to insure. Policies effected on the participating principle allowed to come in on the payment of 3 annual premiums. Thirty days allowed for the renewal of Policies after becoming due, and Policies expired can be renewed within six months, it the parties health is not impaired and the payment of a small fine-a credit of one half the premium when amounting to a certain sum, may be obtained for the first five years. No extra charge made for crossing to and from Enginad in Steamers or first class saiting vessels at any season, by advising the Agent of the parties, ittention. Policies are sent out by next steamer after arrival of Proposals. The attention of the Public of this Province generally and of Wesleyars in particular, is requested to the favourable terms and privileges offered by the " Star" as above enumerated. It is admitted by all that it is the duty of every person having others dependent on them to provide for them while they have it in their power so to do, and in no way can this be done so effectually or cheaply as by paying according to their means a sum annually on a Life Policy. en been proved even here to be of much benefit to widows and orphans, and so very uncertain areboth life and health, of which we have recently had many sad proofs, that delay in these matters is exceedingly dangerous, the only time to apply is while in Heaith.
