

METALLIC CEILINGS

are everything that plaster, wood and wall paper are not.

Metallic Ceilings are fire-proof, absolutely.

Metallic Ceilings don't crack or crumble—don't get damp or mouldy—don't need repairs.

Metallic Ceilings are far-and-away the most economical building material you can put in a house.

You don't believe it? We can prove it. Write us for the facts.

Boo Spavin

Cure the lameness and remove the bunch without scarring the horse—have the part looking just as it did before the lameness came.

Fleming's Spavin Cure (Liquid) is a special remedy for soft and semi-solid swellings—Bog Spavin, Thoroughpin, Splint, Curb, Capped Hock, etc. It is neither a liniment nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be misused. Easy to use, only a little required, and your money back if it never fails.

Fleming's Vest-Pocket

Veterinary Adviser

describes and illustrates all kinds of lamenesses and gives you the information you ought to have before ordering or buying any kind of a remedy. Mail for it if you write.

TRUST CHEMICAL CO., 148 Van Horne St. Toronto, Ont. and Binghamton, N.Y.

through the Poultry Producers' Association, at 19 cents a pound for selects (comprising about 40 per cent., of the whole), 16 cents for No. 1 grade (comprising about 50 per cent.), and 14 cents a pound for No. 2 (comprising the remaining ten per cent.). A dealer who had refused to entertain an offer of the goods at this price, when he saw some of it exhibited at the Quebec Poultry and Pet Stock Winter Fair in Montreal, declared that if he had known that was the kind of stock offered him, it would not have been a question of price at all; it would have been a question of getting the stuff.

Gunn & Langlois, of Montreal, have been buying fat hens for the Montreal Hebrew trade at 14 cents a pound, in Peterborough and other points from farmers. A local buyer has been working in the same county, paying 11 cents a pound for the same kind of stock, selling to Gunn & Langlois at 14 cents, and pocketing the difference as his toll. At the same time, Macdonald College is selling similar stock for 18 cents a pound, and broilers at \$2.00 a pair.

The nearer the farm the eggs are candled the better. The time will soon come when farmers will be candling their own eggs.

The present system of marketing eggs is shamefully wasteful and unbusinesslike.

As soon as the poultry circle has a brand with an unimpeachable reputation, it can dictate its own prices.

These sensational, but well-authenticated statements, made by reputable men speaking from actual knowledge, are some of the cannon shots from a battery of argument which has aroused the people of Peterborough county, where the preliminary organization of five egg circles was accomplished last week. The movement is an outgrowth of the propaganda conducted by Prof. F. C. Elford, poultry manager of Macdonald College, Que., the Canadian apostle of co-operation as applied to poultry marketing, and father of that important organization known as the Poultry Producers' Association of Canada.

The formation of these local branch associations in Peterborough, the first important strictly co-operative egg or poultry circles in Canada, was due to the initiative and energy of a level-headed poultry enthusiast named John I. Brown, a native of Renfrew Co., Ont., who has recently become connected with the allied firms of Gunns' Limited, Toronto, and Gunn & Langlois, Montreal. Mr. Brown is a farmer's son who became interested in poultry, made a success of it, and has had considerable experience organizing the poultry industry on a somewhat different plan in the Ottawa valley. One of his special missions in his present position is to organize the egg-and-produce business on a satisfactory co-operative basis, to the end that his firm may be able to secure a supply of reliable, choice-quality eggs and other produce to meet the large and growing demands of their trade. They have no desire to "hog" the business, and do not bind the egg circles to deal with them only, but naturally and reasonably expect, by fair treatment, to secure and retain a good share of the patronage from the circles they are directly instrumental in organizing. It is hoped that other firms will help to promote the movement in other localities. Mr. Brown selected Peterborough county as a starting point, and enlisted the ready co-operation of the Ontario department of agriculture, through its local representative, H. C. Duff, B.S.A., stationed at Norwood, a town twenty miles east of Peterborough. They have had the very effective assistance of Prof. Elford, as well as H. B. Cowan, of Peterborough. By personal canvass and meetings, farmers in the vicinity of Peterborough have been interested and persuaded to organize. This they have done with considerable enthusiasm. The first of the five circles was started in the progressive dairying district of Central Smith, where, on the evening of Friday, June 3rd, a rally meeting was held, attended by editorial representatives of five leading agricultural papers of Canada, each of whom spoke briefly, following the organizers above mentioned, and a local man, T. D. Young, president of No. 3 circle. The meeting was presided over by J. A. McGregor, of Peterborough, president of Circle No. 1. The secretary of this circle is
