

HAVE YOU SEEN THE NEW TELEPHONE DIRECTORY

Have you the new telephone directory for Vancouver and the Lower Mainland? If you have not, inquire for it, so that you may have telephone listings up to date.

Some people think any directory will do, but when you use an old book you inconvenience yourself and delay service on the part of the operator. About 9,000 changes are made between one issue of the directory and another, so you can see how many times you may call the wrong number if your directory is not the latest.

ABDOMINAL BAND

The spring needle knitting produces the flat knit fabric which is essential in a garment that is required to be close fitting and bear the strain of the attachment of another garment to it such as the Diaper. The fabrics are lisle and wool, and wool and silk; seamless bodies, reinforced shoulder and diaper tabs; all styles suitably edged. The feature of the open shoulder is that the band may be put on over the head or feet, avoiding the dangerous twisting of tiny arms.

BABY'S SHIRT

A baby's shirt should embody comfort, convenience and simplicity. The flat knit fabric in these shirts is soft, smooth and porous. Sufficiently elastic to allow unrestricted motion, yet so tightly knit as to retain original form. The flat covered

seams cannot irritate the skin. The edges are crocheted with silk. Necks have silk tubular shirring strings. In wool, and silk and wool. It would be very difficult indeed to find a garment more adapted to baby's needs and comfort than this delightful little shirt.
