

A COMFORT TO THE SOLDIERS

STAG

CHEWING TOBACCO

SAVE THE COUPONS
GOOD FOR PRESENTS

The fine, rich flavour and lasting qualities of "STAG" have made this famous chewing tobacco a prime favorite all over Canada.

Our gallant Canadian boys at the front are enjoying its satisfying qualities.

Extract of a letter from a Corporal at the front to a Suffolk Clergyman:—

"What hurt us most" he writes, "was the poisonous gas, which made the air green and yellow, choking and poisoning men where they stood. Tobacco saved many lives in that battle. We began to feel choky, but put big chews in our mouths, and this caused us to expectorate the gas. Now whenever we notice the gas, we chew tobacco, which greatly helps.

- | | |
|-----------------------------|--------------------------------------|
| 1. Farm Management | 5. Gasoline Engines and Installation |
| 2. Agricultural Engineering | 6. Farm Conveniences |
| 3. Audel's Automobile Guide | 7. Gas, Oil and Steam Engines |
| 4. Farm Blacksmithing. | |

For the benefit of all our readers we want to publish articles on **Conveniences for the Farm Home**. We know that a great many farmers employ different ways to save time, labor and money and we want to help pass this information on. In order to get practical information we are offering the above books to be competed for by our readers.

RULES—Read Carefully

No article should exceed 600 words in length. Write plainly on one side of the paper only. Commence each subject on a separate piece of paper and sign name and address in full on each article. Do not attempt to fill out the articles with unnecessary words. The prizes will be awarded on the facts which each article contains. Any photographs which are available should accompany articles. All articles for competition must reach this office on or before November 3, 1915. The result will be published in the November 17 issue of The Guide.

PRIZES For the best article received on either of the subjects mentioned below we will give any two of the books 1, 2 or 3. For the second best article we will give either one of the first three books or any two of books 4, 5, 6 or 7. For each third best article we will give either one of the last four books (Nos. 4, 5, 6 or 7).

SUBJECT 1.

The Mechanical Hired Man

Articles on this subject should describe the various uses to which the small gasoline engine has been put on the farm. Drawings, sketches of the layout of line shafting, etc., or photographs showing the arrangement of the engine and power machines will all help to make the article more interesting and will be considered when awarding the prizes. Articles should contain the cost of the engine and the installation of the various labor saving devices, the cost of operation, full details of installation and a short note on the advantages of the layout.

SUBJECT 2.

Water Works on the Farm

This subject will include the manner of locating the source of water, its position, the manner in which it is laid on in the house and buildings, whether it is a gravity or pressure system, how the outside pipes are insulated to keep them from freezing, how much the installation cost.

SUBJECT 3.

The Farm Automobile

What uses can it be put to? Do you use it as a power plant? Is it cheaper than a pair of drivers? How long during the year can you use it? How much does it cost in gasoline and repairs? What kind of car is most satisfactory in your district?
