

29. The directors for the current year are: Z.A.Lash, President; Adam Brown, Vice President; G.D.Perry, General Manager; Jas. Hedley, Hon. J.K.Kerr, Aemilius Jarvis, F.B.Hayes, D.B.Hanna and R.P.Ormsby. The Secretary and Auditor is A.C.McConnell, and the Treasurer, D.E.Henry.

C.P.R. telegraph operators have contributed over 100 men for overseas service, and are making arrangements whereby each man remaining at home contributes one day's pay a month, in order to provide regular and reasonable relief for dependent families and to relieve the general patriotic fund. The wife of each operator on active service will receive \$20 a month, with suitable allowances for children.

Send inquiries direct to us.

THE INTERNATIONAL NICKEL COMPANY, - 43 Exchange Place, New York

Announcing the Columbia R. S. A. Signal Cell

This cell is already in use by over 30 railroads in the United States and Canada, and is giving satisfactory service in every instance.

The construction is simple, but rugged.

The copper oxide element is unique in that the copper oxide is used in the loose, rather than in the compressed state.

This allows a free circulation of the electrolyte and a constant internal resistance.

The perforated metal container prevents a short circuit with the zinc element.

The element is self oiling, which means that the possibility of failure due to lack of oil is obviated.

It is not affected by weather conditions.

Designed to meet the requirements of all classes of railway work.

Write to us for detailed information.
