LE MANS. Sept. 21 .- In the presence of the officials of the Aero Club of Sarthe, General Bazaine-Hayter, commander of the fourth army corps, the American ambassador, Henry White: a large number of French officers and aeroplane experts and a wildly cheering crowd, numbering 10,000 Wilhur Wright, the American aeronaut, this afternoon accomplished a signal triumph, capturing the world's record from his brother, Orville Wright, with a marvellously impressive flight in his powerful machine of one hour, thirty nine minutes and fifty-one seconds. covering in that time an actual distance of 98 kilometres, or nearly sixty

Owing to the recent accident at Fort Myer, today's trial for the Michelin cup, for the greatest distance covered by an aeroplane in 1908, and the Aero Club prize of \$1,000 for the longest flight over an enclosed ground, attracted intense interest, although the spectators displayed the utmost de-

ference and sympathy. Mr. Wright at first appeared nervous, and ill luck seemed to be pursuing him. The wind was too high in the morning to permit of a flight and when it felll, at four o'clock this afternoon, Mr. Wright made three false

Round and round he went with the regularity of clock-works, the steadiness of a reflroad train. great crowd was at once delighted and amazed at the remarkable stability first manifested extraordinary prudence, flying so low that he seemed almost to skim the earth, but on the thirteenth round he rose to sixty feet. The sun was just then setting, glowing like gold, and the aeroplane appeared like a huge bird circling the plain. Spontaneous cheers greeted the oture, and these were redoubled as he successively surpassed his own rccord and then his brother's.

In the gathering darkness the spectacle became thrilling. The aeroplane could no longer be seen at the farther end of the field; it appeared and disappeared in the gloom like a white phantom, but the sound of the ceaseless churn of the prepellers told the multiwhich had now grown frantic, that Wright still was in the air. Matches were lighted to keep watch of the fleeing minutes and night had fallen when at the end of the thirty-third round Wright shut off his motor and came lightly to the ground in front of

With a mad cheer the crowd broke through the lines and rushed forward, only being prevented from hoisting the American in triumph on their shoulders by charging cavalry. Among the first facilities, reach Mr. Wright's side was Henry White, the American ambassador, who told the smiling aeronaut of the keen Gloucester railway. pleasure he felt in witnessing his victory. Subsequently Ambassador White said he believed the American people should present a testimonial to the

TRAGIC DEATH OF

Bishop Carmichael Collapsed in the Church Soon After Preaching His Sermon

MONTREAL, Sept. 21-After giving to the narishioners of the Catherdal, yesterday, the mesasge of the Pan-Anglican assembly and the Congress at Lambeth, Bishop James Carmichael collapsed, and at 7 o'clock today he passed away. His death was dramatic in the extreme. At the beginning of the service Rev. Dr. Symonds, the body and the bishop there had been some friction, arose and welcomed the bishop in behalf of the wardens, clergy and people in a hearty speech, which touched the aged prelate. It was the wiping out of all differences a few hours before the final parting. When the sermon was finished, Bishop Carmichael said to the vicar I believe I am going to faint," and was assisted to the vestry. There he recovered and prayed with the choir before they left the Chapter House. When taken home he grew rapidly worse and three doctors were called in, his son, Dr. Carmichael, Dr. Finlay and Dr. Hamilton. They saw that he was seriously Nova Scotia.
