### WHO ARE LIABLE FOR SERVICE UNDER THE CONSCRIPTION BILL PASSED BY COMMONS.

Halifax, July 27.—Following will be found a summary of the principal provisions of Canada's Compulsory Military Service law as passed by the House of Commons. It is not likely to be materially changed by the senate.

**Persons Liable to Serve.**  
Every person who has been ordinary resident in Canada since August 4th, 1914, and who is 20 years of age and under 45 years of age, will be liable to be called out for service. The limit is placed at 100,000 men.

### Classes To Be Called

Persons who are liable to serve will not all be called out at the one time. They will be called according to classes in the following order:

- 1—Men who are unmarried and widowers who have no child, 20 years of age and under 35
- 2—Men who are married and widowers who have a child or children, 20 years of age and under 35
- 3—Men who are unmarried and widowers who have no child, 35 years of age and under 42
- 4—Men who are married and widowers who have a child or children, 35 years of age and under 42
- 5—Men who are unmarried and widowers who have no child, 42 years of age and under 45
- 6—Men who are married and widowers who have a child or children, 42 years of age and under 45

### Persons Exempted.

The following persons are not liable to compulsory service under the act:

- 1—Men who receive a certificate of exemption under the act.
- 2—Members of regular or reserve forces.
- 3—Members of military forces raised in other countries.
- 4—Men of the Royal Navy, Naval Service of Canada and of the Canadian Expeditionary Force.
- 5—Men who have served in the Canadian Army since August 1914, and have been honorably discharged.
- 6—Clergy, members of any organized order of all exclusively religious denominations in Canada at the date of the passing of the act.
- 7—Certain persons who are now exempt from Military Service, such as Quakers and Mennonites.

### Duty When Called Out for Service

Men will be called out by proclamation. They must report to the military authorities on the day fixed in the proclamation.

The practical effect of this is that every man who is included in the class or classes called out, becomes at once a member of the Canadian Expeditionary Force. He must report on the day fixed, but until he is placed on active service he is deemed to be on leave of absence without pay.

If a person called out appeals for exemption he is to be deemed to be on leave of absence without pay while his appeal is pending.

### Persons Called Out May Claim Exemption

The proclamation will fix the date when men called out must report. At any time before that date any person may be constituted for the purpose, claiming a certificate of exemption from service.

The grounds on which a certificate of exemption from service may be claimed are as follows:

- (a) That it is expedient in the national interest that the man should instead of being employed in military service, be engaged in other work in which he is habitually engaged;
- (b) That it is expedient in the

national interest that the man should, instead of being employed in military service, be engaged in other work in which he wishes to be engaged and for which he has special qualifications;

(c) That it is expedient in the national interest that, instead of being employed in military service, he should continue to be educated or trained for any work for which he is being educated or trained;

(d) That serious hardship would ensue, if the man were placed on active service, owing to his exceptional financial or business obligations or domestic position;

(e) Ill health or infirmity.

(f) That he conscientiously objects to the undertaking of combatant service and is prohibited from so doing by the tenets and articles of faith, in effect on the sixth day of July, 1917, of any organized religious denomination existing and well recognized in Canada at such date, and to which he in good faith belongs.

### Tribunals

There will be local tribunals to hear applications for exemption.

Each local tribunal will consist of two members. A Board of selection to be named by the Senate are House of Commons, will appoint one member of each local tribunal. It is the understanding that the prime minister and the leader of the opposition will decide on the personnel of the Board of Selection, and parliament will confirm their choice.

The other members of each local tribunal will be appointed by the county court or district judge. The act gives these judges power to appoint themselves to be members of the local tribunals.

### Appeal Tribunals

Any persons who feels aggrieved by the decision of a local tribunal will have the right of appeal.

The appeal tribunals will be appointed in each province by the chief justice of the highest court, and a judge of the supreme court of Canada will be the final appeal judge. He will be known as the central appeal judge; and is to be given power to appoint one or more judges of the superior courts to assist him in the discharge of his duties.

### Certificates of Exemption

The act provides that every person who establishes his right to exemption shall receive a certificate of exemption.

A certificate may be absolute or conditional. If it is conditional, the holder must report to the military authority at the expiration of the condition.

### General Provisions.

The act imposes penalties for disobedience to the law and also summary punishment of persons who resist or impede the operation of the law or incite other persons to resist the law.

It also provides that when the Central Appeal Judge approves, any newspaper or other printed publication which incites persons to resist may be summarily suppressed.

The act goes into operation as soon as assented to by the governor general.

This law does not prevent any person from voluntarily enlisting.

Alex. J. Smith, may have struck something better than a gold mine. We hope so. He has opened on his farm at Lower's Barney's River, what promises to be a valuable deposit of red oxide, or red ochre. The stuff has been examined locally by mining men and favorable comment made. Mr. Smith is taking the question of the prospect with some of the leading paint manufacturers in Canada and help to develop a paint mine of considerable importance. From trail pits put down there seems to be a large deposit of the mineral which is of special value just now. — Eastern Chronicle.

### A Million Barrels of Apples Expected in Annapolis Valley

(Herald)

Halifax, July 27.—A. E. McMahon, general manager of the United Fruit companies of Nova Scotia, was in the city yesterday. Mr. McMahon, in company with George E. Graham, general manager of the Dominion Atlantic Railway and F. J. C. Cameau, general freight agent, has just returned from a visit to New York and Boston in the interests of the development of sales of Nova Scotia apples at American centres. From Boston to New York they were accompanied by W. H. Baisdale, general freight agent for the Eastern Steamship lines.

Last season a somewhat similar trip was made and negotiations were opened up for apple sales, but owing to the demands of the English markets the good prices obtained and the sufficiency of tonnage, very little fruit was shipped to the United States. Conditions have changed. There is now an embargo on apples being shipped into Great Britain and tonnage is not so easily available. It is considered probable that there will be a partial lifting of the embargo and Furness, Withy and company are confident they can supply the necessary tonnage, but at the same time with the million barrel crop that is expected full advantage will have to be taken of the American and the Western Canada market. Mr. McMahon is very optimistic regarding the prospects, not only of a good crop but of good market, and the co-operative organization, of which he is general manager, have already booked some extensive orders.

Casual travellers through the valley having noticed a large number of trees suffering from the blighting effects of canker worms and other insect have reported that the crop will be away below normal. A practical examination of the district, however, has been made during the past few days and it is discovered that the majority of orchardists expect in their orchards considerably larger crops than last year. An estimate based on reports of the various big co-operative companies and the larger individual growers claims, that the total crop of the valley will reach a million barrels at all possible were it not for the fact that all the progressive orchardists have devoted much attention and spared no expense in their spraying operations. The mid-summer drop of fruit has not been excessive and the present fine weather is developing the fruit rapidly.

### British Government Will Purchase Artillery Horses in Nova Scotia if Available.

General Neill and Colonel Chaplin representing the British Remount Commission, interviewed Principal Cumming, Secretary for Agriculture, at Truro last week in the possibility of purchasing artillery horses for the British Government in the Province of Nova Scotia. General Neill stated that the British Government could get all the horses they needed in the United States, and could secure them there easier than in Canada. None the less he said that they would prefer to buy in Canada. As a result of this interview was arranged that in about three weeks time a purchaser and inspector will come to Nova Scotia and buy horses at certain points, provided it is ascertained that a reasonable number of horses of the class required can be obtained. At the present time the British Government is purchasing two classes both for Artillery purposes as follows:

### 1—Artillery Horses

Height 15.1 to 16 hands. Weight, 1200 to 1350 lbs. Age, 5 to 9 years.

Color, any color except light greys or whites and washy or buckskin colors.

### 2—Heavy Artillery Horses.

Height, 15.2 to 16.1 hands. Weight 1500 or over.

Age and color same as above. Price paid \$215.00.

All horses must be sound and free from blemish, and good moving active horses in good condition.

General Neill stated that he did not care to send a purchaser to any one centre in the Province unless there was a possibility of getting together not less than 50 horses of the classes described.

Principal Cumming would like to get word from any communities in the province of Nova Scotia where it was thought 50 horses of the classes described could be gotten together. It is not likely that arrangements can be made for more than 10 depots in Nova Scotia, and as there are a good many communities in the province where there are few, if any horses of the weight called for, it would seem that the area, in which buying can be done, must be limited. Interested parties should communicate with Principal Cumming at the earliest possible date so that the schedule can be drawn up and arrangements completed with the British Remount Division for the purchase of these horses.

Price paid \$185.00.
