INTERVIEW

Toronto Liberal Paper Claims to Have had one With the Bothwell Member.

Toronto Star.

James Clancy, Opposition member of Parliament for Bothwell, says he is in the city on purely private business, though that did not prevent him calling on Hon. Geo. E. Foster, while in the city. The Star found the financial critic of the Opposition wearing a pink shirt, a diplomatic expression, and a few other things.

Asked as to the chances of Mr. Foster getting the Conservative nomination in Addington, Mr. Clancy declined to say anything, but declared that he had no doubt that Mr. Foster would soon be back in the Dominion House, "where he ought to be," he said.

Asked about the other story that Mr. Foster would join forces with Whitney, Mr. Clancy allowed himself to be positive. "There's nothing in that story," he said; "I'm sure."

Then Mr. Clancy talked about his own political prospects, expressing the opinion that the new redistribution bill would wipe out his riding.

"Then you're going back into the Legislature," queried the Star. "No; then I'm going out of politics," said Mr. Clancy, with a twinkle in his off eye.

"John W. Bell, you know, who died the other day," he said, "expected soon to be out of politics anyway. I expect those Quebec fellows will pad out their population for all they are worth, and the Liberals in reducing Ontario's membership will combine some of those eastern Ontario ridings, and Addington and Lennox will probably be combined."

Mr. Clancy did not say in view of these expectations what he thought of the application to get Mr. Foster into Parliament as the representative of a riding which, he thinks, is shortly to be wiped out.

Like all politicians, Mr. Clancy knows the value of air-hot air and fresh air—especially both, and consequently The Star's Fresh Air Fund meets with his distinguished approval.

THE LOCAL BUDGET

Henry Sharpe visited friends in this city yesterday.

John Piggott & Sons, have purchased the "Erie Star," from Sold & Millard, to be used in carrying lumber to Windsor and Chatham. It will be captained by Joseph Noble.

"We were very much pleased with the design of the new ship. It was beautiful and appropriate." The Victoria Ave. Greenhouses receive such words of commendation every day. Telephone No. 181.

The impression has gone abroad that the application of the Non-Coms. had been refused in connection with the two weeks which the officers of the 24th Regiment purpose spending at the London Literary College. The delay in the summer and Col. Peters is away from home and nothing definite has been decided.

The 3 o'clock on the C. P. R. was delayed several hours in the case of Mr. Brown, jumping the track at Arkwood, and stopping the thoroughfare. The freight was badly damaged but no lives were lost. The 3 o'clock runs through here every day at that time from Chicago to Montreal, and some of the passengers were going to the Pan-American. The majority of them, however, were Americans.

Or at least, they utilized the delay in examining the city of Chatham and spending their money with the King street merchants.

Bronchitis Sufferers

Act foolishly. If they improve over so little when the fine weather comes, they relax effort and drift back into the old condition which, if possible, becomes more chronic. Hit Bronchitis hard in the summer and you'll get rid of it and drive it out of the system. In winter it is almost impossible to do this. Inhale Catarrhophore regularly. It's a clean, safe thing on Bronchitis. It goes into the moist on bronchial air cells of the lungs, bathes all parts of the bronchial tubes with its healing, germ-destroying vapor, and cures every time. Utilize the aid of all competent druggists and doctors. 25c. and \$1.00.

LOST—Between W. E. Rispin's residence and Somerville's confectionery, a small silver watch, with the letters "N. R." engraved on the case. Finder please leave at Planet Office or at Atkinson & Rispin's Office, and receive reward. J 2dlw.

One Chatham lady was going to the Eau last Saturday morning. She got up earlier than her husband and touched his pocket for all the ready change. Perhaps it is necessary to here remark that the husband was not going to the Eau, but he helped carry her things to the station. Arrived there, the husband went in to secure his wife a ticket, but found he had no money. Neither had the wife, for she had placed the gleaming purse, which she had forgotten and left at home. Sadly she wandered home again a sadder but a wiser woman. At least that is what the Sunday school books say.

The Bonnie Belle went on a cruise of exploration yesterday. It was the purpose of those on board to explore Gerundy Bay and the creeks flowing into it. About 9 o'clock a. m. this beautiful yacht with the rowboats Osirus and Red in tow, left her moorings with the following crew:—Supt. Jones, T. J. Rutley, Will Rutley, Ed. Jones, Jr., and J. W. Young. Capt. Bert Jones was in command. Owing, however, to the compass getting out of working order, the Bonnie ran into Turtle Egg Bay some distance east of Gerundy Bay. After exploring the shore line off Turtle Egg Bay, it was discovered that there were no streams flowing into it. The discovery was also made that the explorers were in the wrong bay. A portage was made across the narrow neck of land that separates the twin lagoons, and Water Lily Creek was found as per the chart. The trip up the creek was fraught with some amusement and many water lilies secured. Ed. Jones, Jr. found a piece of a sea-serpent and some huge mud-turtle claws. Supt. Jones got a snapping turtle and sea urchins. Having discovered that there was nothing more to be discovered, the party returned to Blenheim and, being hungry, all eagerly sought their respective homes and dinner.
