For Your EYES

MINARD'S
"KING OF PAIN"
LINIMENT

Extract from a letter of a Canadian soldier in France.

To Mrs. R. D. BAMBRICK:
The Rectory, Yarmouth, N.S.

Dear Mother:—
I am keeping well, have good food and well protected from the weather, but have some difficulty keeping uninvited guests from visiting me.

Have you any patriotic druggists that would give something for a gift overseas—if so do you know something that is good for everything? I do—Old MINARD'S Liniment.

Your affectionate son,
ROB.

Manufactured by the
Minard's Liniment Co. Ltd.
Yarmouth, N.S.

Nerves So Bad That She Would Sit and Cry

Mrs. Mary Hocking, Madoc, Ont., writes:—
"Dr. Chase's Nerve Food has done me a wonderful lot of good. I suffered from general weakness and was so run down and my heart and nerves were in such bad shape that I would sit down and cry and not know what I was crying about. I also used to have weak spells. Thanks to Dr. Chase's Nerve Food, however, I am real well now. I shall always keep a box of the Nerve Food in the house, and recommend them to my friends; they are a wonderful medicine."

(Mr. J. W. Vince, Druggist, of Madoc, Ont., says: "I have sold Mrs. Hocking your Nerve Food, and the medicine has done her much good.")

27 world-wide tests establish proof of Studebaker Light-Six economy

"Built in Canada"

Studebaker
LIGHT-SIX
\$1375

The fuel economy of the Studebaker Light-Six has been positively proved by 27 world-wide tests, which established an average of 26.9 miles to the gallon of gasoline.

Light-Six consumption of gasoline and oil is low. The mileage runs high. And its low repair cost will be attested to by Studebaker's limited volume of repair parts sales, which in 1922, averaged only \$13 per car for all Studebaker automobiles in operation.

When you consider that the cost of the Light-Six is but \$1375, and that your purchase will enable you to enjoy the economy, smoothness of operation, and the flexibility of a perfected six-cylinder engine, isn't it sound business to invest in a Studebaker Light-Six—just as thousands of other buyers have done?

THIS IS A STUDEBAKER YEAR

FOREST INCOME OF 200 MILLIONS MENACED BY FIRE

In the last analysis, adequate fire protection resolves itself down to the question of whether or not the people of this country wish to save their wood-using industries. Let us look into the service of these to the country. The value of the unmanufactured pulp and paper products is \$250,000,000 per annum. The various companies have invested in the business some \$375,000,000. They employ 33,000 men in the mills and in the forest and they pay them each year \$40,000,000 in wages. Isn't that business worth saving?

The value of lumber, lath and shingles produced in one year is \$150,000,000. Lumber means boards and deals, dimension stock—not the finished product, as in the case of paper. I can't find just how much is added to this value by the various minor wood-using industries. With reservations, I will say that the minor industries, which depend entirely upon wood, produce products to the value of \$60,000,000 annually. They have an invested capital of over \$50,000,000. They employ 13,000 people and pay annually in wages around \$14,000,000. Is it not worth some effort to keep these industries going?

Are these worth while? To these should be added the industries that depend in essential part but not entirely, upon forest products. These, such as horse-

ROYAL YEAST CAKES
RICH IN VITAMINES

MADE IN CANADA

The importance of Vitamines in food is being recognized at the present time to a greater extent than ever before. It has been conclusively demonstrated that yeast is rich in this all important element. Many people have received great benefit physically simply by taking one, two or three Royal Yeast Cakes a day. Send name and address for free copy "Royal Yeast Cakes for Better Health."

E. W. GILL COMPANY LIMITED
TORONTO, CANADA

rawn and motor-drawn vehicles, produce each year products valued at \$86,553,514. The capital invested totals over \$65,000,000. The employees number over 9000 to whom are paid wages amounting to nearly \$12,000,000.

Going back to the lumber industry proper, we find that its invested capital reaches \$250,000,000. It employs 55,000 men, and gives them \$600,000,000 in wages annually. That business is worth saving too, is it not?

There are more than 100,000 people in Canada at work converting the forest product into wealth in some form or other. They are chiefly heads of families or the bread winners of families, thus they represent probably a half million people dependent upon the forests for a livelihood. Are they worth while in their work? Are they worth while to the country?

Must Invest in Protection
Let me emphasize that our great pulp and paper companies, the great lumber concerns will not exist many years longer unless there is more effective fire protection. In order to get more effective protection, the public must invest more money in it. When we consider the area actually under license or pulpwood concession, the amount expended on it as a whole, averages less than one per cent per acre per year. In other words we spend less than a cent an acre as an insurance rate on forest lands whose supplies at the present day yield us products to the value of \$500,000,000 annually.

Confirmation Of Peace With Russia

A brief note from the British government delivered to Leonid Krassin, the Russian Soviet representative, brings to an end the long correspondence beginning with Lord Curzon's ultimatum, and terminates the dispute between Great Britain and Russia which at one time seriously threatened a rupture of the trade agreement between the two countries.

Hundred Thousand Marks For Dollar

Berlin, June 13—Stocks rose in unparalleled fashion on the Bourse to-day when the exchange rate touched 100,000 marks to the dollar in unofficial trading. Some shares reached as high as 300 per cent over their pre-war value. It was a common sight to see ten million paper marks and more offered for shares with a face value of 1,000 marks gold.

QUESTIONS AND ANSWERS FOR THE OUTDOORS MAN

Q. Is there any company in Canada planting a tree for every one they cut down?

A. No, for the reason that no conceivable amount of tree planting can keep pace with the destruction of trees caused by campers, and smokers. One unextinguished camp fire may easily destroy, in a day, more young trees than a corporation or government could plant in a month. Until the forest fire menace is conquered Canada will not see wholesale reforestation by the planting process. The risk is too great.

Aeroplanes at Work

Q. How many aeroplanes are being used in Canada this season?

A. About twenty five, most of them for forest survey, aerial photography and scouting for fires.

Transplanting Maple Trees

Q. Is it safe to transplant maple trees at this season?

A. A very unsafe process. Wait until the leaves are off in the fall and then make sure to dig wide about the roots. Take up plenty of the earth and destroy as few as possible of the fine hair roots.

Causes of Forest Fires

Q. What are the common causes of forest fires?

A. Unextinguished camp and cooking fires, lighted cigarettes and matches. The woods are usually destroyed by the people who need them most, the fisherman, the camper and other pleasure seekers.

KINDLY REMIT YOUR SUBSCRIPTION TO THE ADVOCATE

SHOULD NOT BE

A gentleman who keeps in close touch with Educational matters informs The Fredericton Mail that of thirty-three young men and women who graduated from the University of New Brunswick last month, all but three have accepted situations outside of the province. This statement if correct reveals a rather peculiar condition of affairs but there does not appear to be any remedy for it.

RED ROSE COFFEE

For particular people—
All the qualities of superfine coffee—roasted to a turn, crushed to small, clean grains—every can perfect coffee.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds Headache Rheumatism
Toothache Neuralgia Neuritis
Earache Lumbago Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocarbolic Acid of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

EASTERN STEAMSHIP LINES, Inc INTERNATIONAL LINE

Resumption of Freight and Passenger Service between St. John and Boston
S. S. GOVERNOR DINGLEY will leave St. John every Wednesday at 8 a. m. and every Saturday at 6 p. m. (Atlantic Time) for Boston.
Wednesday trips are via Eastport and Lubec, due Boston about 11 a. m. Thur.
Saturday trips are to Boston direct, due Sundays about 2 p. m.

FARE \$10.00. STATEROOMS \$3.00
At Boston connection is made via the Metropolitan Line express freight and passenger steamers for New York and points South and West.
For staterooms, rates and additional information, apply to
A. C. CURRIE, Agent ST. JOHN, N. B.

NOT SOMETHING NEW BUT SOMETHING GOOD.

FOR almost fifty years Beaver Flour has been demonstrating to Canadian women that it is unrivalled as the best flour for general baking purposes.

The chief reason for this is that "Beaver" is a blended flour,—containing all the richness and goodness of the world-famed Ontario Winter Wheat combined with enough Western Hard Wheat to give it strength.

BEAVER FLOUR

enables any cook to produce bakings that are real food treats.

Bread made with Beaver Flour has that delicious, nut-like, homelike flavor so much sought after by all who appreciate good things to eat; while pies, cake and pastries are noted for their lightness, crisp flakiness and even texture.

Beaver Flour has earned its enviable reputation for superiority. If you are not using it now—try it! Sold by your grocer.
