The Assume tragged ther law long an entire week, unly terminating on Monday at mone. We never were present at a more tedious court. It is a pity so many people should be so ill-advised as bring into court civil questious that could be so easily settled outside, if judgment and common sense were allowed to be in

the ascendent.

Beggins !—R. J. Whitely & Co., are turing out some splendid work in their line. The phaetons made for Mesars. A. Smith and H. Martin are models of lightness and elegance, combined with durability. Mr. McMickon's buggy is handsome in appearance and constructed for service. Mesars. J. & J. Story's new light waggen is perfect of its kind. They have now several buggies, phaetons and demorats in process of manufacture, for different parts of the country; and a large, three-seated light waggen, for Mr James Bell to take to Red River. It is very foolish indeed of people to go to large cities for their vehicles when such work is turned out at home.

THE ORIGORA which our citizens ar-pressed great anniety to see, cluded the vision of the most vigilant, coming in at the "wee eans' hour" on Wedeseday morn-ing and sailing before 5 o'clock for Colling-wood, thence for Lake Superior ports. THE HERALS, Steam Barge, came into port on Tuesday night with some 70,000 feet of lember from the Sauble, for Mr James Noull.

James Smaill.

FISHIMO.— The very poor fishing for several weeks, has made the enterprising men who own the boats think seriously of decamping to other and more prolife regions. Last two evenings however having been a little more favorable will probably induce them to hang on for a time. We hope theny will not find it necessary to leave us.
