Hr. Grace Notes.

Little Dorothy Gorman, who was so seriously scalded a few months ago, is fast recovering under the skilful treatment and constant attendance of Dr. Cron. Her parents are loud in their praises of the genial doctor for his kindness and attention to their little one.

The s.s. Coban is expected here on Monday with a cargo of 1,200 tons of coal to the Harbor Grace Coal Co.

Mr. Dunphy, of St. John's and Mr. Rideout, of the West Coast, were in town during the week, and put up at the West End Hotel.

Head Constable Sheppard had a grocer before the court to-day for selling the well-known tonic Beef, Iron and Wine, and another party also for selling hop beer.

Maggie Martin, the youngest child of Mr. and Mrs. Thomas Martin, Victoria Street, fell over the stairs at their home last night and broke her left arm. Dr. Cron was called and attended to the fractured limb.

The troutmen who were in the country on Wednesday last, had a very pleasant day and good sport. Some fine catches of splendid trout were secured. The season closes on Monday week.

Mrs. George Gordon and Mrs. Arch Gordon left by this morning's train for St. John's.

Mrs. George B. Coffin and three children returned to St. John's on Thursday morning after spending some time with her parents Mr. and Mrs. Geo. Parsons, of Bryant's Cove. Mrs. Coffin also spent a few days with friends here.

Mrs. W. Woods, and Mrs. J. Forsey, of Grand Bank, also left by Thursday morning's train for home. They had been on a visit to Mrs. Selby Parsons.

Mrs. William Hawkins, formerly of this town, but now of Sydney, is in Carbonear on a visit to her mother. She also stayed a few days here, the guest of Miss B. Hawkins.

—COR.

Mr. Grace, Sept. 6, 1913.

War on Ragwort

Senecio Jacobaea.

The Halifax Agricultural Society has been engaged during the past few weeks in a laudable effort to rid the section of country from Bedford to Richmond of that most undesirable exotic popularly known as "Stinking Willie," which has cost the farmers of portions of Pictou and Antigonish Counties the loss of many hundreds of cattle, sheep and horses. Farm after farm has been abandoned because the presence of ragwort has made it impossible to keep stock. On some farms all that was left was a solitary pig. Animals once attacked by hepatic cirrhosis—the disease induced by the ingestion of ragwort-infected hay—never recover.

Men have been employed during the past fortnight to cut, pull and destroy the ragwort while in bloom, throughout the district above named. From a small patch at Bedford a few years ago ragwort has spread until it has become general along the western side of the Basin to Dutch Village, and unless systematic and continuous efforts are made to destroy the blooms the country will soon be overpread with this noxious plant from Hubbard's to Ecum Secum.

Ragwort is a biennial, coming up one year and flowering the next, and in consequence, it will take about three years to thoroughly subdue it in any infested district.

The plant was introduced into Halifax County chiefly through the importation of infested hay. The seed may be carried in the wool of sheep and is borne down the streams in time of flood. The Stewiacke River on the confines of Pictou County Senecio luxuriates in undisturbed vigor and thus the seed is carried down stream and passes by stages over the divide to the Valley of the Musquodoboit.

The Halifax County Municipal Council recently placed posters and colored plates of Senecio in many public places throughout the County, so that everyone may be able to recognize the plant.—Halifax Record, Sept. 3.

REQUIM MASS.—Saturday morning High Mass of Requim was celebrated at the R. C. Cathedral for the repose of the soul of the late James J. Bates. The Mass was sung by the Rt. Rev. Monsignor Roche, and the Knights of Columbus attended in a body.

Electric Restorer for Men

Mother The Child is Costive, Bilious

Don't hesitate! A laxative is necessary if tongue is coated, breath bad or stomach sour.

Give "California Syrup of Figs" at once—a teaspoonful to-day often saves a sick child to-morrow.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle. Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company." Don't be fooled!

A Splendid Collection.

Yesterday the people of St. John's responded generously to the appeal made to them to help the orphan children of St. Michael's, Belvidere. The collection was a record one. In the Cathedral Parish the proceeds over \$200 in advance of last year and St. Patrick's (including Kilbride and Littledale) gives an increase of \$50. This gives a collection of which the contributors should feel proud and which the good-nuns and their little charges will appreciate.

The totals were:—

Cathedral	\$1,428.39
St. Patrick's	506.97
Kilbride	22.85
Littledale	28.75
St. Joseph's	40.00
Logy Bay	11.00
Total	\$2,035.96

"The Heart Bowed Down"

At The Nickel To-day.

Probably the greatest programme ever given at the Nickel Theatre will be presented to-day. There will be four full reels of excellent pictures, the new English comic singer will make his first appearance, and the great heroine, John W. Myers, will bring "The Heart Bowed Down" for which his friends have been waiting for the last couple of months. Everybody is anxious to hear him in this one, and no doubt there will be a record attendance.

Won't We Surprise Them.

Quietly in St. John's West youngsters formed up several committees to support the Liberal Party in November next. Young and old are more than interested in this movement and the intelligent views taken by these young men come as a surprise. Three Bond men, sure, for the West End. Morris knows that the West End is gone. He has quit any hope in that direction. He had to Bond and Coaker can't lose.

Your Duty.

Nothing to do with the Custom-house, good friend. Its only reference just now is to yourself. Let us suppose that you are a man of family with sufficient of the world's goods to keep them in comfort. Very well. You did not reach this satisfactory state of affairs without care and labour—few men do. Suppose you are awakened some night with shouts of alarm ringing in your ears. Too late then to talk of prudence; too late then to say: "If I had only, etc., etc." That "If" means too much to many forgetful people. Is it not always the duty of a self-respecting citizen to protect his home and thus provide for those within it. Is it any more then his duty to those depending on him to protect them as far as possible? Can you call your property your own when it is not insured? The answer to this argument is to carry insurance, with Percie Johnson's agency, the most popular office in Newfoundland and the least expensive.

Team Returned.

The baseball team and those with them returned from Grand Falls by the express yesterday. They had a most enjoyable trip.

MINARD'S LINIMENT CURES DIPH-

Cable News.

Special to The Evening Telegram.

LONDON, Sept. 7.

The unanimous protest of the press against holding the Board of Trade enquiry into the Aisgill disaster, behind closed doors, had effect, and the investigation yesterday re-opened in public session. The evidence was sensational, although it embraced only the statements from the men employed on the stationary express. Nicholson, the engine driver, told the Inspector that his locomotive had failed for want of steam, and that the failure was due to unsuitable coal. The locomotive was hauling 243 tons up the steep incline at Aisgill, although the usual limit was 230 tons. His request at Carlisle for an auxiliary engine had been refused. Metcalf, the fireman, said the coal, being so small, he could not keep up steam. He revealed how, by running back to the signal box after the collision, he had stopped a freight train, which was approaching from the south.

BRISTOL, R.I., Sept. 7.

A 70-foot all-steel sloop, keel type, is to be built at Hershoff's yards here, as a candidate to defend the America's Cup next December, against Sir Thomas Lipton's challenger.

MONTREAL, Sept. 7.

The special train, in which Thaw's counsel had made a trip to Cook's Junction yesterday afternoon, returned this morning with a large Thaw contingent aboard. The immigration officers desire to confer with Ottawa before moving. At any rate they have till the 15th to comply with the order, and it is possible Thaw may not be brought into the city until that date. The next matter will be an application for bail prior to hearing before the local King's Bench Court. This will probably be made on Monday.

SIMLA, India, Sept. 7.

One hundred and fifty native women and children were drowned while ferrying across the Punjab on their way to a fair. They were overtaken by a sudden flow of water from the mountains.

JACKSON, Mich., Sept. 7.

Harry Endicott, brother of Farmer Bill Endicott, a noted auto racer, and Mary Sarata, 10 years old, a spectator, were killed and three were injured here to-day, when his auto crashed through a fence after one of the tires had blown up.

LONDON, Sept. 7.

A despatch from Tokio says that reports received from Nanking indicated that more Japanese had been killed there than at first reported, and added that Prince Yamagata, head of the military council, was returning to Tokio in connection with Chinese affairs.

Minard's Liniment Co., Limited.

Dear Sirs,—I had a Bleeding Tumor on my face for a long time and tried a number of remedies without any good results. I was advised to try MINARD'S LINIMENT, and after using several bottles it made a complete cure, and it healed all up and disappeared altogether.

DAVID HENDERSON.
Bellevue Station, Kings Co., N. B.,
Sept. 17, 1904.

Shopping at Ottawa.

In Ottawa the credit system has become so completely the habit of shoppers and storekeepers alike, that it is said the dealers even object to taking cash. The story is told of the wife of a Toronto newspaper man, who became a member of the Press Gallery a few years ago, that when she offered to pay cash to her grocer, that worthy objected. She had asked him for a reduction in the price of her purchases, stating that she was willing to pay cash, and that as everyone else seemed to demand credit, and long credit, at that, she thought she ought to be given a discount.

"My dear madam," said he, "I could not allow you a discount of any kind. Moreover, I would prefer that you should go on the credit system like everyone else. The books are there, and you might as well use them. It would only be a nuisance to have one customer paying cash when everyone else goes on credit. What would be the use of me taking 50c. or 60c. cash up to the bank after a day's business?"

During Dr. Howlett's temporary absence from the city his practice will be conducted by Dr. M. S. Power.—sep 6, 41

BANANAS, etc.

To arrive Thursday.

Cabbage, Potatoes, Bananas, Apples.

And to Arrive Saturday.
