415th Day of the War

Latest From the Front.

Messages Received Previous to 9 A.M.

OFFICIAL.
LONDON, Sept. 22. The Governor, Newfoundland: General French reports increased artillery activity. The French Government reports footing gained at certain points on the right bank of the Aisne-Marne canal, with elsewhere, violent artillery fighting.

In Russia there is continued fighting in the Dvinsk region and east of Vilna. In successes at other points over fifteen hundred prisoners have been captured.

NEW TERRITORY TO BULGARIA.

LONDON, Sept. 22. Reuter's correspondent at Sofia sends the following: The Commission appointed to sign with the Turks the cession of the new territory to Bulgaria started on Tuesday evening for Demotica. It has been arranged that in case of divergence of opinion regarding the new frontier the dispute shall be submitted to a mixed commission. The Premier at a meeting with his followers, has already explained the political situation to them.

BULGARIA.

LONDON, Sept. 22. The Bulgarian Minister here was advised by telegraph to-day of his government's mobilization order to maintain neutrality, but that it would be armed neutrality. On being asked whether Bulgaria intended to join with the Central Powers, he replied "Certainly not." He said he had no further information and reiterated the assertion that the new move implied nothing more than that Bulgaria was adopting the same precautionary measures that had already been taken by Switzerland and Holland.

THE SERBIAN INVASIONS.

PARIS, Sept. 22. The new Austro-German army on the Serbian front is continuing the bombardment of positions across the river, which forms the boundary line. So far as is known, they have not yet attempted an invasion of Serbian territory. Latest official communication from Nish issued yesterday telegraphed by the Havas Agency sums up these operations as follows: The enemy threw eight hundred shells

from field artillery mortars across the Danube directing them at our works. At the same time the enemy kept up a violent fire with rifles and machine guns from 2 to 6 p.m., accomplishing nothing from a military point of view. We made only slight reply.

THE SERBIAN CAMPAIGN.

BERLIN, Sept. 22. The morning newspapers interpret the news from the Serbian frontier as the beginning on a large scale of an offensive movement against Serbia, and the final reckoning with that State, which is regarded here as having been responsible for bringing the war to war. The newspapers make reference to the strength of the army detailed for the invasion of Serbia, which has been gathered on the Danube during recent weeks. In this connection there are recalled the words of Bethmann Hollweg, the Imperial Chancellor in his speech in the Reichstag: "We have strong armies, ready for new blows." Military critics give warning against under-estimating the strength of the Serbian resistance, but are convinced that the Austro-German force is adequate for the work in view.

NEW PLAN OF CAMPAIGN.

PARIS, Sept. 22. Joffre and the Allied Commanders on this front are developing a new plan of campaign that involves the almost continuous use of artillery on a vast scale along the whole line. Masses of artillery have been employed by both sides since the beginning of the operations in preparing for infantry attacks; pounding their adversaries with shells for an hour or two, then suddenly suspending fire and assaulting with infantry. The Allies are now methodically maintaining their shell fire for days at a time without infantry attacks, dropping projectiles upon the charred front into every 50 yards square and repeating the process. A deadly automatic unceasing pounding of shells is being sent their storm of shells upon encampments of the first reserves, behind the lines and upon the bridges and provision trains. Official reports obtained by French army officers, from their own observations, from prisoners, and from photographs made by aviators, show that parts of the opposing lines, which have been subjected to this unceasing bombardment had been rendered entirely untenable, and that the best the Germans can do to reoccupy abandoned works after the bombardments have let up, and then leave them quickly when showers of projectiles begin to fall again.

FRENCH AIRMEN ESCAPE.

BASEL, Sept. 22. A French aeroplane becoming disabled, came down at Lommerring, near Metz. The two occupants set the machine on fire and escaped into the woods.

THE ARCHIBALD CORRESPONDENCE.

LONDON, Sept. 22. The place of prominence is given by the papers to the Archibald correspondence. Nothing, says the Chronicle, can wipe out the stain or explain away the insults to the American people, "Those idiotic Yankees," as Capt. Von Popen described them. The Standard says, the Yankees were so idiotic as the superior or Capt. Von Popen thinks, and are less impressed than he expects with the "heroic" deeds of the Germans, which have presented themselves to the people of the United States, chiefly in the form of killing non-combatants. Document No. 11 in the Archibald correspondence, is a letter from Capt. Von Popen to his wife, dated New York, Aug. 20, in which the German military attaché says: "We are in great need of being bucked up, as they say here. Since Sunday a new storm has been raging against us. I am sending you a few cuttings from newspapers that will amuse you. Unfortunately they stole a fat portfolio from our good Albert in the elevated English Secret Service, of course. Unfortunately there were some very important things from my report among them, such as buying up liquid chlorine, and about the Bridgeport Projectile Company, as well as documents regarding the buying of phenol and the acquisition of the Wright aeroplane patent, but things like that must occur. I send you Albert's reply for you to see how we protect ourselves. We composed the documents shall meet again soon. The sinking of the Arabic may well be the last straw. I hope in your interests that the danger will blow over. How splendid on the eastern front. I always told those idiotic Yankees that they had better hold their tongues. It is better to look at all this heroism with admiration. My friends here in the army are quite different in this way."

GERMAN SUBMARINE NOT RESPONSIBLE.

AMSTERDAM, Sept. 22. A semi-official statement issued in Berlin, reads as follows: "After inquiring, the German Admiralty confirms the statement of the British Admiralty, and it can now be stated that no German submarine is responsible for the attack on the Hesperian."

BERLIN'S LATEST.

NEW YORK, Sept. 22. An illustration of the absurd stories coming from Berlin, via wireless, is seen in the following despatch to the Associated Press: "Berlin, via wireless at Tuckerton, N.J.—According to a private report brought by

travellers who have reached Amsterdam from England, says the Overseas News Agency to-day, the Bank of England was hit by Zeppelin bombs during the last raid on London, and the damage done was much larger than reported."

DUMBA CALLED HOME.

WASHINGTON, Sept. 22. Dumba, the Austro-Hungarian Ambassador, notified the State Department to-day that his government had called him home on leave. He said he expected to sail on September 26, on the Rotterdam.

OVERSEAS BIPLANES.

LONDON, Sept. 22. Eight biplanes have been presented to the British Government by Overseas Clubs. Three of them from Montreal, St. Catharines and Nova Scotia.

WILL LIKELY SETTLE THE QUESTION.

PEKIN, Sept. 22. The Council of State advised the President to-day to call a citizens' convention before the end of the year, to act on a new constitution, which will settle the question whether China is to be a Republic or a Monarchy.

GOVERNOR WALSH AGAIN NOMINATED.

BOSTON, Sept. 22. Governor Walsh has been nominated for a third term for the Democrats. Former Congressman McCauley was chosen as his Republican opponent, at the joint State election primaries.

BOARD OF TRADE ACTIVITIES.

LONDON, Sept. 22. Steps have been taken by the British Government, Runciman said, to secure meat in Argentina, Australia had assured a good supply. If these measures had not been taken a shortage would have really been dangerous to the countries. During the next twelve months, Runciman said, the operations of the Board of Trade would amount to about \$250,000,000. He added that the French Government had such confidence in the Board of Trade that they had placed with it the whole business of supplying the French meat requirements. Circumstances, he said, necessitated the Board entering into contest with a small number of commercial houses controlling the beef trade. The Argentine supply, he said, is in the hands of half a dozen very powerful firms mainly controlled by America. When the Government tried to make contracts it found the prices excessive. The only way in which the government was able to deal with the situation was by requisitioning the whole tonnage that carried beef from South America to this country. Great Britain, he pointed out, was thus supplying her own army and the French army, and had a considerable surplus, which was being sold for the benefit of the civil population. Operations had been on a gigantic scale. Probably in the course of the next twelve months, beef to the value of \$250,000,000 would be bought, sold and distributed by the Board of Trade. He expressed himself as satisfied with the wheat outlook and anticipated that there would be large crops imported by Europe from the States, Canada, Australia and Argentina than for some years past.

Have a Good Complexion, The Flower of Good Health

The true secret of complexion lies in the blood. Keep it rich, pure, nutritious, and, above all, keep the system regular. No aid to complexion compares with Dr. Hamilton's Pills. They tone and enrich the blood, clear the system of waste products, promote good digestion, and, in short, establish sound health, which, after all, is the keynote to all happiness and well-being. Don't delay; the charm of a lovely complexion and all the blessings of health are yours, once you employ this old-time family remedy. All dealers sell Hamilton's Pills in 25c boxes.

Fishery Report.

The latest fishery reports received by the Board of Trade, are: Sept. 18th. From J. White, (Colnett Island to Head of Salmonier)—The total catch is 5,700 qts., but nothing was done last week. Sixty dories and skiffs and 20 boats are fishing. Two vessels have arrived from the grounds and the prospects are not very encouraging though squid is fairly plentiful for bait. Reports from the Outer Grounds are not so good as last week and not many fishermen have yet returned. From W. J. White, (Aquadorte to Caplin Bay)—Prospects are very fair and the catch to date is 9,729 qts. with 20 for last week. The above amount was taken at Aquadorte. Eighty dories and skiffs and 12 whale boats are fishing. A few squid were jigged on Wednesday with a good sign of cod on them and if bait be obtained much better fishing would result.

ANOTHER GASOLINE CARGO.

The schr. Dove, 8 days from Halifax, reached port yesterday afternoon, bringing a cargo of gasoline to Mr. Colin Campbell. Adverse winds were met on the passage, delaying progress, but the vessel just got inside the narrows as the storm came on.

Amusements.

CRESCENT PICTURE PALACE.
Go to the Crescent Picture Palace to-day and see the great Detective Drama in 2 reels, "The Apartment House Mystery," Alice Joyce features in this great photo-play, supported by all the Kalem stars. "The Greater Love," "The Fable of the City Grappers and the Unprotected Rubes," and "The Grizzly Gulch Chariot Race" are the other pictures that make up this fine programme. Mr. Harry Collins sings "It takes a Little Rain with the Sunshine to make a World go 'Round" and "To Have to Hold to Love." Ernest Ball's great ballad will miss the Crescent to-day this is a great show.

BRITISH THEATRE.
The many friends and admirers of Madame Olive Timmons—without doubt one of the greatest singers who ever appeared in this country—were gathered to learn that her most successful engagement will terminate on Saturday evening. During her stay in St. John's she has gained enviable notoriety on account of her unassumingly and highly artistic ability. To-day she will sing "Kathleen Mavourneen" and "My Love is an Arbutus"—in her well accustomed manner. The balance of the entertainment may be classed—100 A1. at Lloyds.

ROSSLEY'S EAST END THEATRE.
Mr. Rossley, who has been in New York for some time, securing feature films of the very best quality, has succeeded at very great expense in procuring an elaborate motion picture production "Camille," in which the principal part is taken by the great and divine actress Sarah Bernhardt. Mr. Rossley is to be congratulated on managing to secure the great play in which the "divine Sarah" takes the leading part. There will be another complete change of programme to-night. Ian Mackenzie will introduce the great patriotic song "The Veteran's Song," and Miss Rex Guerin and Mr. William Wallace the wonderful violinist, will also produce new numbers. The feature films are excellent and include "A Modest Hero," Biograph; "The Will of the People," Edison; "Poker Paid," and "This isn't John," Lubin.

Two Fires Last Evening.

Yesterday afternoon, Mrs. James Miller, of Buckley's Range off Plymouth Road, ran to the East End Fire Hall and reported that a house second door to hers was on fire. The firemen were on the scene inside of a minute and discovered a slight blaze in the kitchen of the house, at present unoccupied, sparks from the chimney of an adjoining house got down on the back of the grate of the Coady dwelling and ignited some woodwork. The "extinguisher" or chemical chert was brought into operation and quickly put an end to the fire. Very little damage was done. At 6:30 an alarm was sent in from box 228, bringing the Central and Eastern Companies to the house occupied by a family named Page, on Freshwater Road. The chimney was on fire and the roof was being lit. The same process as in the former instance was applied with equally effective results. We are informed by one most competent to express an opinion on such matters, that this recently adopted "Protector Extinguisher" is the most convenient and most useful apparatus that is in the Fire Department at the present time.

"On the Field of Honor."

The publishers of The Family Herald and Weekly Star, Montreal, are making a strong bid for that beautiful picture, full of pathos, entitled "On the Field of Honor." It is assumed the publishers of the Family Herald have in mind using it as a presentation plate. If this is so there is a great treat in store for readers of The Family Herald and Weekly Star this autumn. In past years The Family Herald of Montreal has been noted not only for the wonderful excellence of that journal but for many beautiful pictures it has presented to its readers. The Family Herald has a name for succeeding in any-

thing it undertakes, and we feel sure it is humanly possible to secure "On the Field of Honor" that the publishers will succeed in getting it. "On the Field of Honor" is attracting widespread attention in Europe.

This Date in History.

SEPTEMBER 23.
Full Moon—23rd
Days Past—265 To Come—99
MARSHAL BAZAINE died 1888, aged 77. Denounced by the French nation in 1870 as a traitor for capitulating at Metz and surrendering with three marshals, 6,000 officers and 170,000 men he was sentenced to 20 years' imprisonment but escaped in 1874. He was undeniably brave and has not lacked apologists.
WILKIE COLLINS died 1889, aged 65. English novelist, who wrote many successful books. He lacked humor and appreciation of the finer shades of character but conceived some striking individualities.
When the sea grows grey and silent, And the moon sinks out of sight, And the stars turn sick and tremble after seven hours of fight, God keep us dirty sailor men, from the Pole Star to the Cross, For we need Almighty keeping, an' some high, Almighty Boss.

GREAT WAR, 1914. Recapture of Lubovka on the Drina by the Servians reported. German cruiser and two torpedo boats reported to have been sunk in the Baltic by the Russian warship Bayan.

Smitten by Stern.

The schr. Henry M. Stanley went ashore near Cape Harrison, Labrador, caught fire and became a total loss. The crew were saved. It is said that the vessel was chartered by Mr. Job Roberts to load codfish for Europe. Mr. Roberts is at present on the Labrador coast. It is yet unknown whether or not the vessel had begun loading when lost. The theory is expressed that the Stanley felt the full force of the storm prevailing recently on the Labrador and that she went ashore and became a total loss, the crew escaping.

Here and There.

Sir Robert Bond was in the city yesterday. He returned to Whitbourne by the evening train.

Delicious Ice Cream at WALKER'S Premium Store, 27 Charlton Street.—jly17,3m,s,tu

DIRECT SAILING. The Furness Liner Algeriana will leave London for here direct on the 30th inst., with a general cargo.
