The Influence of Money!

When money is scarce interest rates rise and investors loan their funds on mortgages and bonds for the high return, but when money is plentiful interest rates naturally decline and surplus funds are put into good stocks causing them to advance in price.

The latter condition exists in America. That country has accumulated the lion's share of the world's gold, and this surplus money is seeking higher earning power than bond interest offers. We suggest buying good stocks now for advancing prices.

FALSE ECONOMY.

It is often remarked by customers, "I must try and make my old clothes do for the winter." Perhaps the winter may mean very much longer. To protect your body against our cold winds you want warm woollens. An investment in a good Suit or Overcoat may save you months of illness. Durable material, cut and moulded to your figure by expert workmanship in the garment at MAUNDER'S. Samples and self-measuring cards sent to your address.
