

C. L. B. Cadets

The 1st Nfld. Regiment Church Lads' Brigade paraded yesterday morning at 9.15 for divine service at St. Michael's Church, Casey Street. About 410 all ranks were on duty under the command of Lt.-Col. Walter F. Rendell, C.B.E., and Capt. Len Stirk, Adjutant. The Girl Guides also paraded, the companies present being Spencer College, Girls' Friendly and Ranger companies. The Brigade's Battalion Band under Lieut. and Bandmaster Vavasour, and Bugle Band under Bugle Bandmaster S. Bursell rendered splendid music during the march. The service commenced at 10 o'clock, the clergymen officiating being Rev. Fr. Palmer of the Cowley Fathers, New York, and Rev. E. Nicholls, Rector and C.L.B. Chaplain. Rev. Father Tom Hiscok, I. Parsons and E. Rowe were also present in the Sanctuary. The service was conducted by Rev. Fr. Palmer, who occupied the pulpit and explained the various portions of the Holy Communion service as it was read by the Rector. Fr. Palmer referred to the unveiling of the Soldiers' Monument by Earl Haig, and stated that this service was also an unveiling service—a memorial of our Saviour—whose orders were to "do this in remembrance of Me." Explanations of the ritual and prayers were given by Fr. Palmer during the progress of the worship. The service concluded at 11 a.m. by the Band playing the National Anthem. The parade marched back to Headquarters via Golf Avenue and Pennywell Road, where Lt.-Col. Rendell expressed his appreciation of the work of the Old Comrades (who paraded under President John Crane) in taking such a great interest this year in looking after the C.L.B. athletes. He extended a welcome note to the Girl Guides under Capt. Nash, and Field College Companies in charge of Capt. Horsley. As the Brigade goes to Camp July 23 to August 1st, next month's church parade will be to the Church at Topsail where the much beloved Brigade Camp Chaplain, Rev. Arthur Pittman is Rector. In August the Brigade will likely hold a drum head church service in the Freshwater Valley. On Tuesday next the C.L.B. will have a big programme of music and the presentation of the Outerbridge Shield. These Shields have been always provided by the Brigade's first Lieut. Colonel—Sir Joseph Outerbridge—for the section gaining the most points for drill, attendance and general efficiency. Excitement is running high until Tuesday when the winning squad and their N.C.O. will be announced. The N.C.O. in charge of the section receives a medal and his name is also engraved on the silver plate, with the section number. The section lads who win the trophy are presented with miniature red shields bearing the date, and these are worn for the year on the arm—a badge of honour. Our present Lt.-Col. when a Corporal in charge of a section led his lads to victory in this same competition, and his name is still to be seen on one of the first Outerbridge Shields, showing a noble example now to his lads to follow. Many other leading N.C.O.'s have their names and sections engraved there. The Shields serve as perpetual reminders of gallant members of the N.C.O.'s who have done their bit in "the days that were." The Brigade takes this opportunity to express their appreciation to Col. Sir Joseph Outerbridge for stimulating efficiency in the Brigade drill and attendance all these years by his generous provision of "Outerbridge Shields," and for financial support from time to time. All friends of the Brigade are asked to go to the Armory Tuesday evening at 8 o'clock and see the lads at work, and the Shield presentation to the 1925 winning section with their Non-Commissioned officer. May the best Section win!

Express Passengers

The following passengers crossed over to Port aux Basques by S.S. Kyle at 6 a.m. yesterday, and joined the express:—Mrs. J. Oake and 2 children, Mrs. F. M. Pelley and child, Arthur Corn, J. A. Strong and 4 children, J. C. Buckle, I. L. Chambers, D. Torrance, Rev. A. Bailey, H. Bergman, Mrs. L. Chafe, Mrs. E. Burry, Mrs. T. Gill and 3 children, Mrs. M. Egan and child, Mrs. E. Easton and child, Oscar E. Horton, Mrs. Horton and 3 children, J. Sparkes, T. Taylor, Rev. L. T. Moulton, A. J. Doucette, Mrs. A. J. Doucette and 2 children, J. O. Langlois, Mrs. G. Feltham, Thos. Rose, Miss T. Halbot, Miss H. Halbot, A. E. Henderson, J. R. Stevenson, G. M. Ruddy, H. D. Morrison, J. Paul, Mrs. I. Steer, R. B. Merryman, M. Morris, Chas. L. Allan, T. W. S. Phillips, G. Clinton, Miss D. Brown, A. Howe, Mrs. A. Howe, Mrs. V. McGrath, A. H. McDonald, R. Cormack, A. M. Crane, Jas. Britte, Miss M. LeRoux, Mrs. W. LeRoux, A. E. B. Dauphnee, Mrs. T. White, G. Hogan, S. Pencer and R. Brown.

MINARD'S LINIMENT FOR CORNS AND BUNIONS.

Digby's Passengers

The following passengers arrived from Liverpool on Saturday afternoon by S.S. Digby:—Mrs. M. K. Alderice, Miss Ada Anderson, Miss M. Kathleen Baird, Mrs. C. A. C. Bruce, Mrs. Agnes M. Harrington, A. C. Holmes, Mrs. A. C. Holmes, Master A. P. Holmes, Mrs. J. B. Joel, Miss Mary Keegan, Mrs. Geo. Knowling, Henry Luder, Rev. Hugh J. McDermott, Mrs. McDermott, Miss E. A. Macpherson, Mr. Neville, B. Manson, John Penman, Mrs. Penman, Miss M. E. Redhead, Thos. Stardie. The following are on board en route to Halifax:—Mrs. S. Hodder, Master L. G. Hodder, Miss E. M. Hodder, Miss Hilda Florence Lilly, Mrs. M. G. Morton, Master R. M. Morton; and to Boston:—Robert Emerson Holt, James Harold Robinson.

"Archibald Shoes are good Shoes."—may 30, 25.

Melt sweet chocolate with butter, mix with chopped nuts and use as a filling for cracker sandwiches.

Fishery Vessels Cleared

The following schooners have cleared from Port Union for the fishery:—S. T. W. Blackwood, 26 tons, Capt. Walter Blackwood, crew of 5, supplied by F.P.U. Trading Co.; Louise Churchill, 50 tons, Capt. James Malcolm, crew of seven, supplied by F.P.U. Trading Co.; Bright Water, 48 tons, Capt. Elias Chalk, crew of 7, supplied by F.P.U. Trading Co.; Humber Deal, 55 tons, Capt. Ernest Parsons, crew of 10, supplied by Ernest Parsons; Toy, 40 tons, Capt. Geo. White, 9 persons on board, supplied by F.P.U. Trading Co.; Stewart S., 15 tons, Capt. John Casey, crew of 4, supplied by P. Templeton; Harold Johnson, 57 tons, Capt. James Johnson, 11 persons on board, supplied by F.P.U. Trading Co.; H. W. Wiltzall, 36 tons, Capt. John Healey, crew of 6, supplied by McCormack & Walsh; Gertrude, 35 tons, Capt. Arthur Fergame, crew of 6, supplied by F.P.U. Trading Co.; A. F. Frampton, 48 tons, Capt. James Nolan, crew of 8, supplied by McCormack and Walsh.

"Children of Dust" is Epic of Screen

How a gruff old man learns to love children and the world when past sixty, is one of the absorbingly human angles of "Children of Dust," a First National picture directed by Frank Borzage which opens at the Star Movie to-day.

Archer, the old man, beats a boy severely for stealing a flower for his mother, and is imprisoned. Upon his release the boy "adopts" Archer. Then follows the enthralling story of the lad's later life; of his love for a wealthy girl, of his rival and Archer's part in his romance. Borzage has interwoven all of the pathos and human interest of "Humoresque," his previous great success, into this intense drama in a manner intriguing to the most blasé theatre goer.

Pauline Garon, Johnny Walker, Lloyd Hughes and Bert Woodruff head the superb cast of all stars especially selected for this screen epic.

Daughters of the Empire Praise "Zeebrugge"

Following the record-breaking run of the British naval epic, "Zeebrugge," at the Palace, Montreal, Manager George Rotzky of that theatre received the following letter of appreciation from the I.O.D.E.:

"At the March meeting of the Montreal Municipal Chapter of the Imperial Order Daughters of the Empire, it was decided to write to the management of the Palace Theatre congratulating them on the recent very successful production of the British film play, 'Zeebrugge,' which was attended by so many thousands of enthusiastic admirers.

"The Daughters of the Empire consider this success an evidence of the appreciation of British plays, which come to our city none too frequently, and hope that it will be possible, in the future, to have more of them. With the assurance that such productions will always receive the patronage and most ardent support of our large organization, I remain,

Yours sincerely,
ERMINA C. HOLLAND,
Honorary Secretary,
Montreal Municipal Chapter."

This wonderful picture opens at the Nickel Theatre to-night, under the distinguished patronage of His Excellency Sir William Allardice, and party.

FIRST BAND CONCERT:—The first open air band concert of the season takes place in Bannerman Park at 8.15 this evening, when the popular Mount Cashel Band will render a programme of choice selections. Should the evening be fine a large attendance is anticipated.

S.S. Ceuta leaves Montreal on the 20th inst., for here, via Charlottetown.

S.S. Hitherwood leaves Montreal on the 28th inst. for here via Halifax.

Columbia Dry Batteries

Best for bells, buzzers, gas engine ignition, radio and all general purposes. More power, better service for a long, long time.

Obtainable everywhere at little cost.

National Carbon Co., Inc. 30 East 42d Street New York, N. Y. U. S. A.

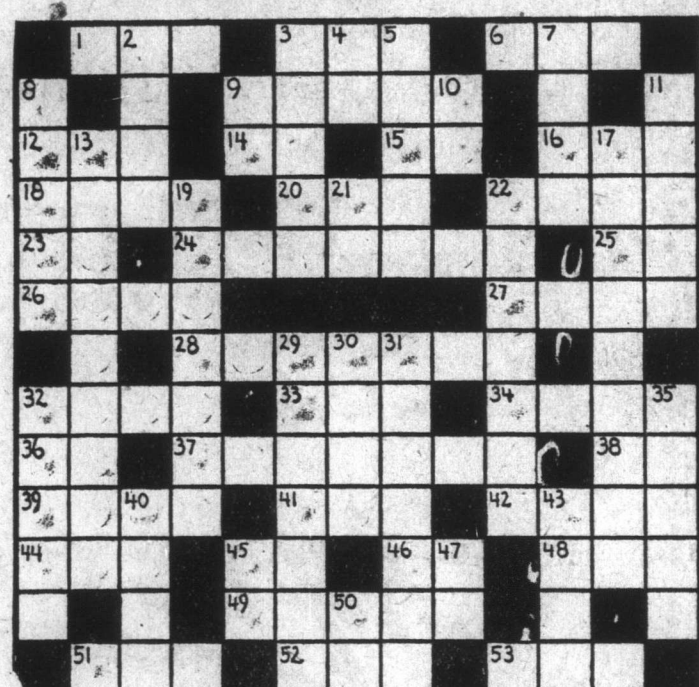

Household Notes

For the luncheon, corn bread can be baked in sticks and served with currant preserves.

Flavor whipped cream with nutmeg, sweeten with sugar, and serve with steamed rice.

Use left-over mashed potatoes in an omelet, using the same amount of potato as milk.

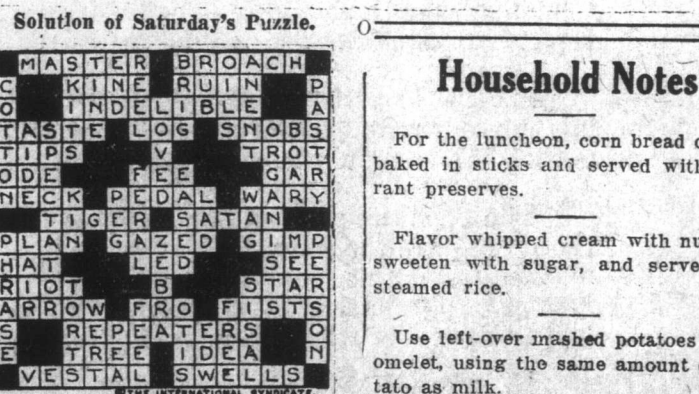

CROSS-WORD PUZZLE

SUGGESTIONS FOR SOLVING CROSS-WORD PUZZLES

Start out by filling in the words which you feel reasonably sure. These will give you a clue to other words crossing them, and they in turn to still others. A letter belongs in each white space, words starting at the numbered squares and running either horizontally or vertically or both.

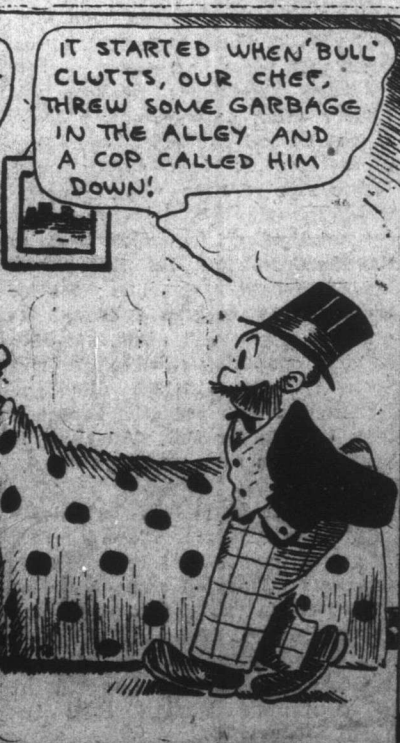

- | | |
|---|---|
| <p>HORIZONTAL</p> <p>1—Pronoun 2—Definite article 3—At the present time 4—Twelve dozen 5—To unclose (post.) 6—Topographical Engineer (abbr.) 7—This or that manner 8—Man's name 9—Not so much 10—French for "horn" 11—Tribe; people 12—One of British Isles (abbr.) 13—A familiar garden flower 14—Behold 15—Scout 16—To rend asunder by force 17—A votary of art 18—A volcano in Sicily 19—A title (abbr.) 20—Girl's name 21—A musical note 22—Index-arm of a graduated circle 23—Preposition 24—Descendants 25—A coin of Portugal and Brazil 26—Presently 27—Scotch word for "one" 28—Point of compass (abbr.) 29—Prefix meaning "with" 30—Spanish word for "one" 31—To falter 32—Part of verb "to be" 33—United States Senate (abbr.) 34—Employment</p> | <p>VERTICAL</p> <p>1—Colors 2—City in N. An All-Wave Broadcast Receiver THE COILS

EDITED BY JOHN M. CLAYTON. PART III

The construction of the coils is shown in our illustration above. The secondary is wound on first. Appropriate holes are provided in the coil forms for both the contact plugs at the bottom of the coil and for the terminal wires passing through the coil form. The end of the coil, on which the plugs are mounted, will be referred to as the bottom of the coil. Insert the plugs in the mounting strip, put on the small copper terminal lug on the inside of the coil (after it has been cleaned with a file and tinned with solder) and screw the nut which holds the plug in place as tightly as possible. Repeat the above with all four plugs.

As the number of turns in primary, secondary and tickler will vary with each coil we will describe the method

a strip of heavy manila paper one-half inch wide and a foot long. Wrap this around the bottom end of the form over the secondary wire itself. Place a small amount of glue on the END of the paper strip so that the strip will be held in place. This provides an insulated winding form at the bottom end of the coil one-half inch wide—insulated from the secondary coil. Over this strip the primary coil is wound. The two ends of the primary coil are not connected to the plugs in the coil mounting, but are soldered to small terminal posts provided on the coil form itself.

The primary coil for this 80 turn secondary should have 15 turns of No. 24 wire.

The tickler coil will vary in number of turns with different sets. In general 15 to 20 turns of wire will be sufficient to go with the 80 turn coil. The tickler should be not over ¼ inch in diameter. The correct polarity of the tickler terminals can most easily be found by experiment. If it set does not oscillate when the tickler terminals are connected to the plus terminals in one direction, take the tickler out, turn it over and re-connect it to the plus. The tickler should be so proportioned that when the secondary tuning condenser is set at 100 the set will just oscillate nicely when the regeneration control dial has to be turned almost to 100. If the set oscillates with the regeneration dial at 50, take off some of the tickler turns and keep on taking them off until the tickler control is correct.

The 80 turn coil with a 15 turn primary and a tickler having from 15 to 20 turns will tune from 220 to about 595 meters. For shorter wavelengths the following coils will be needed: For a wave length range from about 150 to 300 meters a secondary coil of 59 turns of No. 26 D.S.C. wire, a primary of 12 turns of No. 24 wire and a tickler having from 12 to 15 turns of No. 24 d.c.c. wire will be correct.

Next comes the primary coil. Cut
