Ws. Rea, Lot 15, Con. 14, Garafraxa, had all his out buildings, barn, stable, sheds, and all his hay and grain, farming implements and some pigs destroyed by fire, in the early part of the week. Cause of the fire unknown. Though covered by insurance for \$800 his loss is very great.

THE Rev. W. S. Ball, of Guelph, delivered a lecture under the auspices of the Y. M. C. A., Berlin, in the Wesleyam. Church there as Tuesday evening. The Telegraph says that the subject was "Consecration in Early Life," and that the lecture throughout was interesting, and received the close attention of the audience.

On Tuesday afternoon some young lads left Fergus on a shooting expedition. One of them, John Porter, was dragging his gun along when something caught the hammer and set the gun off. The charge injured one of Porter's fingers, and just skimmed past some of the other boys, a few grains striking a son of Widow Hughes, but fortunately doing him little injury.

MILITARY FUNERAL.—On Friday afternoon, James Connors, gunner in the
Wellington Field Battery, was buried
with military honors. Deceased, who
was formerly in the 30th regiment, and
wore two medals for honorable service
in the Crimea, had lived in Guelph for
two years. The battery turned out under
the command of Capt. Macdonald, and a
firing party of the Rifles under command
of Color Sergeant McKenzie. The body
of deceased was conveyed to the cemetery on one of the gun carriages, drawn
by six horses, and the coffin was draped
with the Union Jack.

Remarkable Case of Resuscipation.—
A little child, daughter of Mr. John McDougall, Clarence Street, near North, while playing this morning with an egg cup, and leaning over the edge of a tub containing about six inches, lost her balance and fell in head first. When found her feet were sticking out over the tub, and her head covered with water. She was to all appearances dead. Dr. Mordon was called in and he at once applied Marshall Hall's ready method of restoration in case of drowning. This consists of rubbing the body briskly and dousing with cold water, repeating the operation for some time. Signs of life began to appear in about half an hour, and the child is now in a fair way of recovering its former health and activity. This is the most remarkable case of resuscitation that has ever occurred in this neighborhood, over an hour and a half having elapsed from the time pulsation ceased until it was restored by the exertions of the physiciam.—Landon Advertizer.

Murder in Qu

Reported Mosmon Massacre,
Salt Lake, Sept. 13.—An affidavit by
one of the least guilty among the particupators in the affair, showing conclusively
that the terrible Mountain Meadows
massacre was an act of the Mormon
authorities, has been made here. It will
be remembered a large company of emigrants on the way to California are
known to have been killed with the exeeption of young children. Whea the
massacre was discovered the Mormons
set affoat a-story that they perished by
the Indians, but from time to time circumstantial evidence has appeared indieating they were murdered in cold blood
by Mormons, in revenge for previous outrages upon the latter, perpetrated in Illinois and Missouri. A compotent witmess now states under oath that the
Mormon militia attacked the emigrants,
and, after a fight offseveral days without
results, sent in a flag of true- offering
them protection if they would lay down
their arms. These terms being complied
with, the entire party were batchered by
the Mosmons. The deponent is Phillp
Clingon Smith, who was at the time of
the massacre a Mermon bishop of Cedar
City. He testifies that he was acting as
a recruit in the Mormon militia, that
his Lieut-Colonel Haight, told him the
orders from head-quarters were to shoot
down all emigrants except little children;
that the commander of the Mormon force
Major John D. Lee, in an address to the
troops, told them these were his orders.
Smith heard the orders passed down the
Mormon lines, witnessed the entire masacre, and fired one shot himself—though.
several vollegs were fired—and then ex-
