Important to Mothers.

The manufacturers of Castoria have been compelled to spend hundreds of thousands of dollars to familiarize the rublic with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trade-mark. This counterfeiting is a crime not tonly against the proprietors of Castoria, but against the growing generation. All persons should be careful to see that Castoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children. Parents, and mothers in particular, ought ito carefully examine the Castoria advertisements which have been appearing in this paper, and to remember

### THE CHINESE MUST FIGHT.

allowed to enter Pekin in order to escort the Minister to Tien Tsin is absolutely impossible."

This is the dictum of Li Hung Chang, It was transmitted last evening to William Pritchard Morgan, member of Parliament for Merthyr-Todyll by his agent at Shanghai. The lagent had carried to Earl Li a message from Morgan, urging that the ashed troops be allowed to enter the capital, and stating that a settlement could be made at Tien Tsin, whereby a war of the world against China would be averted; but even the optimistic Li failed to hold out the slightest hope of its feasibility, altho he retreated to Mr. Morgan's agent his declaration that the Ministers had left Pekin, fixing the date of their departure as Aug. 2. The agent makes this comment: "The consuls are without confirmation." These messages have been sent to Lord Salisbury, accompanied by a statement by Mr. Morgan, urging that alibes should take no steps to endanger the lives of the Ministers.

Ministers Won't Leave Pekin.

A message from the Belgian Minister, dated Pekin, Aug. 2, seems effectually to dispose of the rumors that the Ministers have either left or intend to leave Pekin.

Safe Conduct Authorized.

The Chinese Minister at London. Sir this Shih Chin Fen Loh, says he has received a telegram from China announcing that along imperial edict, Issued on Aug. 2, authorizing immediate and safe conveyance of all Europeans in Pekin to Tien Tsin. Several despatches are reprinted giving hears and the ailies, honers and the ailies, honers and the ailies, honers and the ailies,

The Daily Mail's correspondent at Che Foo, telegraphing Monday, says: The fighting lasted seven hours, and the ailies, when my report left, were pursuing the Chinese, but owing to the floods traveling was difficult. Thus the Chinese will have time to re-form and to recover from the effects of battle. Only a small garrison, with 14 guns, remains at Tlen Tisin, where some anxiety is felt because of a report that 15,000 Chinese are said to be moving, two days' march to the southeast."

Praise Japanese Bravery.

Praise Japanese Bravery. All the correspondents agree in praising the bravery and organization of the Japanese, but none of them brings the story much beyond Gen. Chaffee's report.

Li Ping Hung, according to the Shangnai correspondent of The Standard, has been appointed generalissimo of the Chinese forces, and has left Pekin to command the treons outside the city.

The long-searched-for will has at length been found.

THE NEW BRITISH WAR LOAN. Sir Michael Hicks-Beach Explains Why

Lists Were Closed so Soon. Lists Were closed so soon.

London, Aug. 8.—Answering a member of the House of Commons, who asked the reason for the early closing of subscriptions for Exchequer bonds, the Chancellor of the Exchequer said the lists had been closed as soon as the bonds had been subscribed for.

In substance the Chancellor of the Exchequer said:

"When I made the usual confidential inquiries to ascertain whether

"When I made the usual confidential inquiries to ascertain whether the proposed terms were likely to be attractive, I received such very received encouragement that I accepted an offer already made to me by a leading Anglo-American house in London to place half the issue in the United States on the terms I had decided to offer here. This part of the issue was already taken when the loan was issued in Great Britain."

The Reserve Was Low.

The Reserve Was Low. This assured the success of the loan. But there was another realoan. But there was another reason: Last Thursday the reserve of the Bank of England stood at the lowest point for years and he was advised that great relief might be afforded here by the movement of gold from the United States if a large part of this loan (£10,000,000) were taken there.

were taken there.

In conclusion the Chancellor of the Exchequer said: 'I regret any disappointment caused by the early closing of the lists, but I hope it may to some extent be mitigated by consideration of the very important points I have just mentioned."

British People Are Angry.

London, Aug. 7.—The allotment of such a large portion of the new war loan to America has not been well received in many quarters. The Chronicle, in its financial article, says:

"The people are so angry that they have not time to consider as to what humilation they have been brought to in having to appeal at all to the foreign money market for assistance." British People Are Angry.
