SPECIAL NOTICES.

Fitzgerald Block

The Sounding-Board of a Piano. The sounding-board of a piano is made of spruce. There are different grades of spruce. Some grows on marshy ground, and, as is to be expected, retains for a longer time the moisture. Other spruce is grown on the high lands, and is dry, firm and solid. Just what a piano will be depends in a large degree on the quality of spruce used in the sounding-board. Some makers are indifferent about this matter, moved either by false economy or want of knowledge. The wonderful success that has come to the plano manufactured by the old firm of Heintzman & Co., whose London ware-rooms are at 217 Dundas street, is due in a very considerable degree to the fact that in this particular, as in all points of manufacture, they insist on the best. They never allow anything from London, Ont., yesterday. but the very best grown spruce to enter their factory-one of several differences between this high-class instrument and other instruments,

Feather and down cushions, 50 cenia each—the best value in London. Goose feather pillows a specialty. Bedroom Suites, Fancy Rockers, Tables, Spring Beds, Stoves of every kind, at the Bed and Mattress Factory, 593 Richmond Street north. JAMES F. HUNT & SONS. Telephone 997.

Electric Turkish Baths.

Rheumatism and Nervousness are cured by the Vapor Baths, followed by Electric and Manual Massage, which surpasses all other treatments in these most painful and obstinate diseases. Apply to J. G. Wilson, specialist, 320 Dundas street.

The Lake of Constance, Switzerland, is full of a small kind of salmon called gang fisch. They are caught in large seines, thousands at a time.

A Jury of Women

Who have tested the merits of Dr. A. W. Chase's Kidney-Liver Pills return the verdict that for backache and kidmey disorders there is no preparation in any way equal to this great discovery of Dr. A. W. Chase, America's greatest physician. This great kidney cure is sold by all dealers at 25 cents a box, and has proved most effectual as a remedy for the many ill to which

Some naturalists believes that hares never drink, but get enough liquid for their needs in the dew on the grass they

THERE is not a more dangerou class of disorders than those which affect the breathing organs. Nullify this danger with Dr. Thomas' Eclec Aric Oil-a pulmonic, of acknowledged efficacy. It cures soreness and lameness when applied externally, as well as swelled neck and crick in the back: and, as an inward specific, possesses

most substantial results. The most common name for a place n England is Newton, which occurs no fewer than 22 times.

FAGGED OUT-None but those who have become fagged out know what a depressed, miserable feeling it is. All atrength has gone, and despondency has taken hold of the sufferers. They deel as though there was nothing to dive for. There, however, is a cure—one box of Parmelee's Vegetable Pills will do wonders in restring holds. will do wonders in restoring health and strength. Mandrake and Dandenion are two of the articles entering into the composition of Parmelee's Davis, jun.

strong fight against payment, on the ground of over-insurance and suspicious circumstances generally. The cases decided were test ones, involving the following sums, which are only a small part of the total insurance in force: Quebec, \$5,000; Caledonia, \$2,800; London Mutual, \$2,800; Keystone, \$2,800; Manchester, \$8,000. KNOWLES-SILK.

152 Dundas Street.

A happy event occurred yesterday afternoon, at the residence of Mr. and Mrs. Henry Silk, Talbot street, it being the marriage of their daughter, Fannie Victoria, to Rev. Richard W. Knowles, of Tupperville. The house was beautifully decorated for the occasion. At 4 o'clock the groom entered, while Mendelssohn's Wedding March was played by Frank Briglia's Italian harpers. The bride, dressed in a fawn traveling suit and leaning upon the arm of her father, entered a few moments later. Miss Emma Orme assisted the bride, while Mr. W. A. Silk supported the groom, Miss Hazel Gibson making a very pretty maid of honor. Rev. Dr. J. V. Smith tied the nuptial knot. After the ceremony had been performed the guests, some 50 in number, being intimate friends of the bride and groom, sat down to a sumptuous and well arranged spread. The happy couple left on the evening express for De-troit, Chicago and other western cities, amid a shower of rose leaves. The presents received by the bride included a beautiful sapphire diamond ring, the gift of the groom; a handsome upright Heintzman piano, the gift of the bride's father, and a check from each of her three brothers, \$150.

Mr. and Mrs. Knowles will be at

BUDGET AN ELECTRIC

The "Still" Excites a Great Deal of in terest in London.

home at Tupperville after Sept. 26.

The Still Motor Company (Limited), Toronto, have sent one of their electric carriages to the fair. The body of the vehicle was made by Gray & Sons, of Chatham, and is an ordinary "Ivanhoe"-a handsome two-seated carriage of fine proportions. The electrical equipment furnished by the Still Motor Company is the invention of Mr. W. J. Still, a young Canadian, and is the only one in the world that can be attached to ordinary carriage bodies, the storage battery being only about one-third the weight of any other. The president of the Still Company, Mr. Thomas Bengough, of Toronto, was in the city yesterday, and pointed to this electric "Ivanhoe" as a proof of the statements he made at the mass meeting in Victoria Park last month, when it was proposed to equip an electric autocar for passenger purposes. He remarked that the autocar might have been running here now and doing a rushing business If the offer of his company had been accepted. He had found that many Petrolia, on the charge of arson, was leading citizens would have financially

MARRYING THE DEAD

Peculiar Practice in Tartary Noted by a Famous Traveler.

Among the many practices tha Thargey attended the groom, and Miss Marco Polo came across in his travels in the far east, the Tartar custom of marrying the dead deserves notice. He says: "If any man have a daughter who dies before maralso die before marriage, the parents of the two arrange a grand wedding as to how it can be made more between the dead lad and lass, and marry them they do, making a regular contract. And when the contract papers are made out they put them in the fire, in order that the parties in the other world may know the fact, who has been organist of St. James' and to look on each other as man and wife. And the parents thenceforth

> "Whatever may be agreed on between of paper, and then put these in the fire, saying that in that way the dead person will get all the real articles in the other world." This custom is also noted by other writers, even as late as the eighteenth century.

Healing nutriment, it becomes a poison there was no cure and no hope. What table Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and convey the food partaken of into healthy nutriment. They are just the medicine to take if troubled with indigestion.

Interesting Papers Read at the Health Officers' Convention.

3,000 Deaths From Consumption in This Province Last Year.

Dr. McCring on Thinks This Dread Disease Can Be Cured - Afternoon and Evening Sessions.

Ontario resume their sessions at the city hall yesterday afternoon. discussion on tubercations was continued, and was followed by a paper by Dr. F. H. Mitchell, medical health officer of Delaware, on the officer of Delaware, on the utyce?
Municipal Health Officers and Beards of Health in Dealing with Tuber losis." He hoped the time was not off when tuberculosis would be a thing of the past. The doctor saggested that printed instructions should be distribut-

ed among consumptive people to pre-vent the spread of this disease as far as Dr. P. H. Bryce, secretary of the pro-vincial board of health, read a paper dealing with the need for a municipal sanatoria for consumptives, based or the number of cases of consumption in the public institutions. He showed how the death rate in public institutions had been reduced by proper man agement, such as having good floors, properly paraffined, from 22 in the 1,000 some years ago, to about 11 per cent now. In late years the pauper class in hospitals had increased 300 per cent. He also stated that there had been 3,000 deaths in Ontario from consumption last year. On the contrary, the deaths from diphtheria were cut down one-

third Dr. McCrimmon thought as a rule that milkmen were not unwilling to have their cattle tested, though they objected to paying for it. The stables, in the place where he came from, were

in first-class sanitary condition. Dr. McCray said that there had been a decrease of fully 50 per cent of tuberculosis in England and on the continent during the last 50 years. The people of Ontario needed a great deal of education along the line of fighting this disease. Dr. Mackenzie said he believed that the greatest danger of in-fection lay in the sputa, which, when carried in the air, spread the contagion to others.

Dr. Grange read a paper on the "Dissemination of the Virus." He considered sunlight and fresh air very neces-. sary in the stables where cattle are kept. He also thought that animals suspected of having tuberculosis should be kept apart from healthy animals, and different pails used in feeding them. The men who attended the diseased cattle should not attend the heal-

Dr. McCrimmon agreed with Dr. Grange's views. He also believed that if consumption in human beings was scientifically treated in its first stages it was possible to save the patient's has on it a lot of good wood. It was life.
