The Redistribution.

Sir Wilfrid Laurier will bring down the redistribution bill tomorrow. The census returns impose on Ontario a reduction of six members. New Ontario is entitled to two new members, so that eight will be taken from the older portion of the Province. The Government will follow rigidly the principle of county boundaries, although in doing so it will be obliged to extinguish safe Liberal seats. This is good Liberal doctrine, and cannot be assailed, any more than the gerrymander of 1882 can be defended. It is right that the electors who are a unit in municipal organization, who are accustomed to work together through their township and county councils, and whose interests are to that extent mutual, should vote together in elections for the Provincial and Dominion Parliaments. The redistribution of 1882 was a shameful patchwork, sections of different counties being pieced together without any regard to municipal identity, but with the sole object of "hiving the Grifts." The ridings of South Middlesex, West Elgin, West Bruce, North Brant and North Ontario are fair specimens of the hiving process. The constituency of Bothwell, which will of course disappear, was carved out with the deliberate purpose of gerrymandering Hon. David Mills out of the House of Commons. Hon. Alexander MacKenzie, Hon. William Paterson, James Trow and other leading Liberals were conspired against also, though the plot failed. Sir Wilfrid Laurier, the other day pointed out that in 42 counties of Ontario, which at the last election returned 25 Conservatives and 17 Liberals, 88,365 votes were cast for the Liberal candidates, and 86,392 for the Conservatives. It is estimated that on the basis of the vote in the last general election, the Liberals will gain twelve seats by a fair redistribution by county boundaries. The Liberals have waited for twenty years, not to average, but to wipe out the iniquity of 1882. The Opposition will term it a gerrymander, but the Liberal party has always contended for county boundaries, and the scheme can be worked out in Ontario without violating the other Liberal principle of representation by population.

An Impudent Deal.

The mayor, with the aid of his obedient servants on the council and board of health, has succeeded in knifing the medical health officer and burdening the city with an unnecessary official. A number of veterinary surgeons applied for the new post and one offered to do the work for nearly one-third less than the salary set aside for it; but Mr. Tamlin had been picked out for it weeks ago by the mayor, with the Club's approval, and his worship was bound to deliver the goods. Nothing can be said against Mr. Tamlin's professional qualifications, but, as has been pointed out, a portion of the work of dairy inspection does not come within the practice of a veterinary surgeon. In addition, he will have to deal with eighty farmers, some of whom may be his customers. In the strict performance of his duty he may have to give offense and sacrifice considerable private business. No city official should be placed in this embarrassing position. The medical health officer was independent of the herd-owners and milk-vendors, and any complaints against him were rather a recommendation. His salary has been cut down by one-third, without any pretext that he has been remiss in his duty, but simply to put some patronage in the hands of the mayor. The aldermen and members of the board of health who allowed themselves to be used as tools to put through this deal have nothing to be proud of and cannot defend their action to the public. The mayor had the effrontery also to pass over the claims of all other applicants for the position, on the score of his personal friendship and business relations with Mr. Tamlin.

A New Irish Rebellion.

That impossible creation, the stage Irishman, is getting his deserts at last. At a performance of "McPadden's Row of Flats" in New York Saturday, 500 indignant sons of the Emerald Isle, armed with over-ripe eggs and vegetables, rose as one man and pelted the company off the stage. One can sympathize with the protest without approving the method of enforcing it. Any compound of idiotic tomfoolery, served up with a brogue, is passed for Irish comedy on the American stage, which, of course, includes the Canadian stage, and it is no wonder the

real Irishman rebels at this gross caricature of himself, set up as a laughing-stock for "some quantity of barren spectators." There are delightful plays true to Irish life and character, such as those presented by Chauncey Olcott, Joe Murphy, the late William Scanlon and a few superior actors, invariably Irishmen themselves, who would not degrade their countrymen, but the average so-called Irish drama is a burlesque on, and insult to, the race. The typical stage Hibernian is an individual with fiery whiskers, smoking short strong pipes, who seems to have no occupation in life but to crack jokes and heads, and entertain the goat. He is made to look and act as much like a monkey as possible. It is a tribute to the good nature of the Irish people, that they have tolerated this libel so long without complaining. It is not surprising to hear that the United Irish Societies of New York have banded together to suppress these stage parodies, although an appeal to the public to boycott such productions would be a more legitimate method than rotten-egging the actors.

Mr. Whitney proposes to delay the Gurney investigation by another spell of oratory in the Legislature. The Government may have to resort to cloture if this continues.

The Legislature of New York has been so stimulated by the development of the Canadian inland waterways that it has decided to spend \$101,000,000 to improve the Erie and Champlain Canals, so as to enable them to accommodate canal barges of 1,000-ton capacity, operated in fleets.

The Premier of Ontario, in closing the Gurney debate, paid a graceful tribute to the ability shown by some of the new members in both parties. As an old parliamentary gladiator, anxious to keep up the intellectual standard of the House, Mr. Ross takes a pleasure in welcoming promising youngsters into the arena of debate, even if they are pitted against himself. Sir John Macdonald was one of the first to pat Sir Wilfrid Laurier on the back. Mr. Gladstone was always on the alert to recognize young talent, and it is said the only occasion on which Mr. Joseph Chamberlain showed emotion in public was when his son was complimented by the Grand Old Man. These amenities add to the dignity of public life, and soften the asperities of political combat.

One Advantage.

[Town and Country.]
 Mrs. Kingsley—You say you like colored servants better than white because they are slower. How is that?
 Mrs. Bingo—It takes them longer to leave.

The Stepmother.

[Buffalo News.]
 The marriage rites were over, and "And thou" turned aside To keep the guests from seeing The tears I could not hide, I weathed my face in smiling And I was my little brother. To greet my father's chosen, But I would not call her "mother."
 She was a fair young creature, With meek and gentle air, With blue eyes, soft and loving, And silken, sunny hair. I know my father gives her The love he bore another, But if she were an angel, I could not call her "mother."
 They've borne my mother's picture From its accustomed place, They've hung beside my father's, A fairer, younger face. They've bade my dear old chamber Will be the boudoir of another, "But I will never forget thee, My own, my angel mother."

THE HOUSE MAY ADJOURN SOON

In Which Case Judges Will Meet at Early Date.

THE OPPOSITION MAY OBJECT

In Spite of Rumors There is Little Doubt But Gamey Will Go Before Commission.

Toronto, March 30.—The proceedings in the Legislature today will to a large extent determine the immediate course with reference to the Royal Commission on the Gamey charges. The Opposition still assume a critical attitude towards the evidence act, but Mr. Foy rather withdrew his open hostility when Colonel Gibson challenged him on the occasion of the last reference to the measure. If the bill passes today Chief Justice Macdonald will make a special trip to the Parliament buildings to give royal assent, and the commission will organize some day towards the end of the week, though they may not commence taking evidence before next Monday.

The Opposition promise a fight over the question of adjourning the House until April 21, though Mr. Whitney said he hoped to conclude the business today if the members are present for voting. The other contentious matter is the voting of \$340,000 supplies asked for April, without which the service and all persons having business with the Government will be greatly inconvenienced. Then there will be the address in reply to the speech from the throne, the proposal to pass which Mr. Whitney objected to on Friday night. The disposal of this, however, is not absolutely necessary before adjournment, although it is a matter of some importance, and it is not unlikely that the House will respect itself if they defer their formal offering of thanks until after the approaching long adjournment.

There seems little doubt, but that Mr. Gamey will go before the commission. At least the concern of the Opposition over the terms of the evidence bill gives color to that view. In any case, Mr. Gamey, if summoned, is no doubtless will be, will be under the same regulations for compulsory attendance and answering of questions as any person else.

TO SETTLE R. R. STRIKE

Grievance Committee Waits on the New York and New Haven Road.

New Haven, Conn., March 30.—The grievance committee of the trainmen of the New York, New Haven and Hartford Railroad went to the office of President Hall at 10 o'clock this morning to resume their conference with a committee of the board of directors, over the wage scale and regulations. With the committee was Valentine Fitzpatrick, representing the Trainmen's National Brotherhood, who by an agreement reached Saturday, is to take part in the discussion as counsel for the men.

ANGRY GERMAN-YANKEES

They Object to Admiral Dewey's Remarks on Kaiser's Navy.

Pittsburg, March 30.—Delegates of the western branch of the German-American Alliance of Pennsylvania have adopted resolutions declaring that the "recent disparaging and uncalled-for remarks of Admiral Dewey about the German navy were, if the press has quoted him correctly, unworthy of a naval officer of his rank. Coupled as his undiplomatic statement was with an eulogy of Great Britain's fleet, the delegates would seem that the admiral's discourtesy to Germany was prompted rather by social prejudices than by true patriotism."

A Serious Mountain Fire.

Cumberland, Md., March 30.—A fire has been raging some days on Mount Pisgah, in Clay County, W. Va., and is assuming such a threatening nature that the people are praying for rain. It is feared that the village of Clay will be destroyed.

Out of Plumb.

When the wall is out of plumb the building is more or less unsafe, and the higher the wall is carried out of the perpendicular the greater the danger of collapse. It is about so with the health; it is out of plumb when the digestion is impaired, when there is a dull, sluggish feeling, with nervousness, irritability and sleeplessness. Every day that these symptoms are neglected increases the liability to physical collapse.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It purifies the blood and cures nervousness, irritability and sleeplessness by curing the diseases in which they originate.

"For three years I suffered untold agony," writes Mrs. H. R. White, of Stanstead, Stanstead Co., Quebec. "I would have sworn I was going to die. I was so weak and nervous all the time; then it would work up into my stomach and each distress it is impossible to describe. I wrote to the World's Dispensary Medical Association, stating my case to them, and they very promptly answered and told me what to do. I took eight bottles of Dr. Pierce's Golden Medical Discovery, and five vials of Dr. Pierce's Kidney and Bladder Pills, and my health is now as good as new. I am a well woman to-day. Dr. Pierce's medicine also cured my mother of liver complaint from which she has been a sufferer for fifteen years. We highly recommend these medicines to all suffering people."

The People's Common Sense Medical Adviser, containing 1008 pages, is given away. Send 31 one-cent stamps for expense of customs and mailing only, for the book in paper covers, or 50 stamp for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

For those who turn away from their work at night, Well pleased that another day Has taken its flight, Let too short for glory; they end With the dust they bite.

Shot at an Author.

London, March 30.—A special dispatch from Paris announces that a woman fired several shots from a revolver today at Marcel Prevost, the well-known French writer.

RHEUMATISM

Mr. A. Shepherd, 46 Farley Ave., Toronto, Had Rheumatism So Bad He Had to Give Up Work—Was in a Very Bad Condition.

A Few Bottles of Powley's Liquefied Ozone Destroyed the Disease Germs and He Was Cured to Stay Cured—Now Has Neither Ache Nor Pain.

About three years ago I contracted rheumatism. I at once put myself in my doctor's care and he relieved me. In a few months the rheumatism came back a great deal worse than it was before. I then tried different advertised cures, but I did not receive any benefit. By the time I was in a bad condition and was discouraged. I suffered intense pain and my wife put on hot water applications, which eased me a little. I was at this time recommended to try Powley's Liquefied Ozone. In a short time I began to feel better and by the time I had taken a few bottles every symptom of pain and rheumatism had left my body. This was in January, 1901. I have not had the least symptom of this distressing disease since.

To Powley's Liquefied Ozone is due this wonderful cure, and I can strongly advise other sufferers to try Ozone for their rheumatic troubles.

Yours truly,
 A. SHEPHERD,
 46 Farley ave.
 Toronto, Jan. 29, 1902.

Ozone Cures Rheumatism Quickly and For All Time to Come.

Mr. Shepherd's case is simply one among hundreds. Every day cures of rheumatism are being effected by Powley's Liquefied Ozone that you hear nothing of. It is two years since Mr. Shepherd was cured and the fact that he has had neither ache nor pain since proves that he was cured to stay cured. By destroying the germs that cause the disease Ozone effects cures of rheumatism when all drug preparations fail. It is sold by all druggists at 50 cents and \$1.00 per bottle.

HIS PLAY REJECTED

A Disheartened Dramatist Shoots Himself in a Paris Theater.

Paris, March 30.—Another disappointment littered an attempted suicide, side in a Paris theater Saturday evening. Just as the second act of "L'Autre Danger" at the Theater Francaise was about to commence the audience startled by a pistol shot in the foyer, where a man was seen to fall with a wound in his head. The would-be suicide proved to be a Grand Trunk detective, aged 60 years, residing at Villejuif, a remote suburb of Paris. He was taken to the hospital and the bullet, which had lodged in a bone near the right eye, was extracted. His life was found to be in no danger. M. Salary said he had just had a play rejected by the management of the Theater Francaise after having been given to understand that it would be accepted, and, disheartened, he resolved to end his life in the theater which caused his disappointment.

ROSEBERY'S SUGGESTION

He Would Like to See Kitchener as War Secretary.

London, March 30.—It is not easy to understand the motives which prompted Lord Rosebery to come forward in the House of Commons in support of the new Council of National Defense. The House of Commons, possessing the power of the purse, exercises a constitutional control over the executive, and can displace ministers by censure. Lord Rosebery's speech condemned the extravagance of the army estimates and the futurity of Mr. Brodrick's reform. The move on the treasury alone is now as much as was the expenditure on both services when Lord Rosebery left office, and the national debt, which successive Governments had done so much to reduce, had gone back to what it was 40 years ago. All this is both true and important, but it had not much to do with the motion, and Lord Rosebery's renewed suggestion that Lord Kitchener should be Secretary of State for War had been even less. Why Lord Rosebery clings to this eccentric idea is an insoluble enigma. When Lord Rosebery grows tired of the word "efficiency" he might preach some excellent (timely) sermons on the word responsibility.

MADE HIM SIT UP

Wm. Doeg's Terrible Sufferings Permanently Cured by Dodd's Kidney Pills.

Sundridge, Ont., March 30.—Two years ago all Sundridge rang with the wonderful cure of William Doeg. For years he suffered ceaseless pain. Dodd's Kidney Pills cured him and now strong and healthy he often recalls those days of agony and eulogizes the remedy that caused his cure.

"The trouble commenced in my back," Mr. Doeg says, "and so intense was the pain that I could not lie down to take a rest, but had to sit night and day in a chair."

"Doctors treated me for rheumatism with no benefit and I was almost in despair when I started to use Dodd's Kidney Pills. I soon found they were doing me good and I kept on till I was entirely cured. And better than all, I have had no return of the trouble."

FREIGHT TRAINS ROBBED

Five Grand Trunk Employes at Port Huron Arrested.

Port Huron, Mich., March 30.—A bunch of arrests were made Saturday night, which clears up a series of robberies of freight cars. Grand Trunk detectives, with the assistance of Chief Marx, and local officers, made the arrests. William Hickey, night yard master at the tunnel; Frank McGaw, engineer; William Rette, fireman, and James Hobbins, and H. H. Huey, switchman, members of one of the train crews at the tunnel yards, are the men arrested, and they have confessed. For several months past, numerous freight cars have been robbed of shoes, clothing, whiskey and other articles, and no clue was obtainable for some time. The seals on the cars were replaced after the robberies, making detection difficult. Railroad officials on the Chicago end discovered that several car seals had been tampered with, and Port Huron officers, together with Grand Trunk detectives, began work on the matter. The train crew would break open cars, take out what they wanted and resell the cars. The plunder was then divided. The men are all well known in railroad circles, and their arrest and confession has created a sensation. Much of the stuff stolen was burned up several days ago.

FREED AND EASY expectoration immediately relieves and frees the throat and lungs from viscid phlegm, and a medicine that promotes this is the best medicine to use for coughs, colds, inflammation of the lungs and all affections of the throat and chest. This is precisely what Bickel's Anti-Consumptive Syrup is, a specific for, and wherever used it has given unbounded satisfaction. Children like it because it is pleasant, adults like it because it relieves and cures the disease.
