NOT ENOUGH YET
 Northwest Still Short of Harvesters--Needs 6,000 More.

Toronto, Sept. 5. --James Hartney, local agent of the Manitoba Government, says that 6,000 additional harvesters are needed.

Winnipeg, Man., Sept. 4. --The harvest excursionists, who left Toronto Tuesday, arrived here this morning.

The weather has turned cool, with frequent light showers, but it has not been wet enough seriously to affect harvesting work. There was a light frost in several places last night.

The city council passed a bylaw compelling transient traders to pay a license fee of \$250. A fee of \$200 is also provided for commercial travelers, who, as agents of retail houses, sell direct to the consumers goods not manufactured in the city.

CHICAGO'S DAILY KILLING
 An Old Man of 73 Shoots the Insulser of a Woman.

Chicago, Sept. 5. --Resenting an alleged insult to a woman, a tenant of the building of which he was the janitor, Amasa Hanyer, 73 years old, shot and instantly killed Henry Martin.

The dispute of Martin and the janitor was begun on the fourth floor of the building, when Martin stepped on the porch and asked for Wm. Garloff, a former friend.

After being informed that Garloff no longer lived in the building, Martin attempted to enter the kitchen of Mrs. Albert A. Baird, with whom Garloff had formerly lodged. Mrs. Baird, after a few words with Martin, appealed to the janitor to eject the visitor, saying she had been insulted. Hanyer ordered Martin to leave the premises, and on the latter's refusal picked up a chair to enforce the demand.

The men fought down two flights of stairs. Hanyer gained the lead, and dashing into his apartments, seized a revolver and fired two shots.

Hanyer surrendered himself to the police, claiming he shot in self-defense.

Robert Mackie, sentenced to 10 years in Kingston Penitentiary for aiding in the Napanee bank robbery, has been released on parole after serving almost four years.

THE FIRST IMPORTANT BREAK IN THE GREAT COAL STRIKE

West Virginia Miners Agree to Resume Work.

SEVERAL MINES TO OPEN TODAY

Mitchell Is Said to Have Advised Miners' Action--The Men Were Granted Concessions.

Huntington, W. Va., Sept. 5. --It is now believed the coal strike in West Virginia is practically at an end. At a mass meeting of miners from all the coal fields along the Norfolk and Western Railroad here yesterday, it was almost unanimously agreed to end the strike provided the operators will take back all the old miners and the latter have signified their intention of doing this. The miners have agreed to return to work next Monday morning.

It is reported that President Mitchell of the miners advised the strikers to return to work, as he realized that winter is nearly at hand and the miners in this field could not hold out much longer, as almost every one is dependent upon the union for food and clothing. It is thought the strikers will soon follow the action of the strikers on the Norfolk and Western.

The Pocahontas mine continues to burn, but the operators think they soon will have the fire under control. No violence has been reported from any quarter of the Norfolk and Western coal field today.

CONFIRMED.
 Wickersburg, Pa., Sept. 4. --President Mitchell this evening confirmed the dispatch stating that the strike of miners in the Pocahontas region had been declared off. He said the strikers were granted some concessions, but he could not say at present just what they were.

Brainwell, W. Va., Sept. 4. --The fire in Pocahontas mine, the Flat Top field is still raging fiercely and the company cannot get men to enter the mine to fight the flames. The fire has extended to the three other mines connected with the Pocahontas.

The shooting of guards by ambushed miners continues a popular pastime among the white refuses to send troops to the scene.

A detachment of soldiers on duty at Rush Run caught two men in the act of firing on the guards. Both were arrested. It is said that both men are non-union.

BAER'S HOUSE GUARDED.
 Reading, Pa., Sept. 4. --Several special policemen have been ordered to guard

the vicinity of the residence of President Baer, of the Reading Railway.

SENATOR QUAY BUSY.
 New York, Sept. 5. --Senator Quay, of Pennsylvania, is in this city en route to the Adirondacks. The senator remained in his rooms at the Fifth Avenue Hotel, and saw no one, until Senator Platt, of New York, arrived. The two then held a long conference on the subject of the coal strike situation.

A special session of the Pennsylvania Legislature is said to have been favored by both as the best method of securing a settlement.

TUGMEN'S STRIKE SETTLED.
 Cleveland, Sept. 5. --After nearly a whole season of hostilities the strike of the Licensed Tugmen's Protective Association of Cleveland has been settled and the men will return to work at once. The conference at which the warring unions were brought together was held in the office of Senator H. A. Hanna, of Cleveland.

The conditions of the settlement are that the strikers return to work at once, but that all men employed by the Great Lakes Towing Company, as captain or engineer who were not members of the Licensed Tugmen's Protective Association April 1, 1902, be discharged within 30 days, and all men employed who were members in good standing on that date are to remain in the employ of the trust until Jan. 1, if the company so desires.

One clause of the agreement is that all men hereafter to be employed by the Great Lakes Towing Company as captains or engineers shall be members of the local lodges of the Licensed Tugmen of the International Longshoremen, Marine and Transport Workers' Association.

A joint conference for the purpose of regulating wages and other conditions was held during the season of the strike, according to the agreement, he held before Feb. 10, 1903, and it was announced in Cleveland last night that this conference will be held there next Friday.

VICTORY FOR THE MEN.
 The settlement is apparently in every respect a victory for the strikers. The strike started over a demand from the men for more hours off on Sundays, but developed into a struggle in which President Newman, of the trust, complained that he would not recognize the unions in any way.

The Licensed Tugmen's strike reached at Cleveland is not satisfactory to the men here. All but two of the tugs of the Great Lakes Towing Company are still tied up. The two that are in commission are manned by non-union men.

CATHAM TAILORS ON STRIKE.
 Chatham, Ont., Sept. 4. --The journeymen tailors in a number of shops here have gone on strike to enforce a demand that their employers sign the union schedule of prices.

The charge against them is manslaughter. Bail for the motorist was \$5,000--w. furnished, and Kelly was bailed in the sum of \$2,500.

CENSURED BY PRESIDENT.
 When the President got to his feet after the coach had been struck, he walked back about 15 yards to where the motorist had stopped and asked the motorist: "Why were you running the car like that?"

The motorist only replied: "Because I had the right of way."

The President told him that unless the car had gotten beyond his control, which did not seem possible in view of the way it had stopped, he had committed an act of criminal carelessness, which had resulted in the death of at least one man.

The lord mayor of London, Sir Joseph C. Dimbleby, has cabled to President Roosevelt London's congratulations on his escape. The message of Emperor William of Germany says: "With all Americans I praise Providence that saved your life from the terrible accident."

COAL CHEAPER THAN WOOD
 Ton of Anthracite Equal to Cord and a Half of Wood.

If Coal Reaches \$9 a Ton It Would Still Be the Cheaper.

Ald. Sam Stevely, who has an exact and comprehensive knowledge of the stove trade, said to The Advertiser today that, while it is early yet to form an opinion, he did not anticipate an unusual demand for wood stoves as the result of the rise in the price of coal.

"It is early yet for the people to buy stoves," he said, "but many people are inspecting them, intending to purchase later, and they nearly all ask for coal stoves. The demand certainly is not less."

"There is no reason why it should be less," he added. "Most people have a mistaken idea about coal and wood. At the present time a cord of wood costs the same as a ton of coal; and as a matter of fact, a ton of coal gives the result of a cord and a half of wood. Coal could go up to \$9 a ton and still be cheaper than wood."

A Faithful Postmaster.
 Toronto, Sept. 4. --Mr. A. F. Rutter has received a letter from a friend in Lethbridge, Que., the town which has been burned down. The letter spoke in high praise of the devotion to duty shown by the postmaster. His own property was burning, but he saved the letters, postage stamps and money orders and let his own goods burn. His loss will be about \$10,000 and the Lethbridge residents of Lethbridge have started a petition to Sir William Mulock to try to induce the postoffice department to recognize his devotion to duty.

Control of the Fisheries.
 Ottawa, Sept. 5. --The Minister of Marine and Fisheries will call together

this fall representatives of the various provinces for a conference to determine what interpretation shall be accepted of the Privy Council decision in regard to the control of the fisheries. The local governments are all given rights over the fisheries by this judgment which they did not before possess. That much is conceded, but some of the provinces place an interpretation on the judges' ruling more favorable to their own interests than the Ottawa authorities are disposed to concede. The conference of last spring was in the nature of a preliminary discussion to learn what the contentions of the various authorities were, but this time the ministers will meet for final decisions. If matters cannot be arranged by mutual contention, the Privy Council will probably have a chance to say what certain clauses of the judgment meant.

BOER GENERALS SEE CHAMBERLAIN
 Get a Hearty Welcome From the People.

TRADE CONGRESS SCORE TRUSTS
 White Star Line Orders Another Sigsbee--Wireless Telegraphy Experiments in Italy.

London, Sept. 5. --The conference between the Boer generals, Botha, De Wet and Delarey, and Colonial Secretary Chamberlain, was held this afternoon at Downing street. The generals were escorted to the colonial office by an official of that department of the Government, and drove there in an open carriage. They received a hearty welcome from the considerable crowds assembled at either end of the route. Just prior to their departure from their hotel Abraham Fishes, the Boer delegate, had a conference with them. Louis de Wet, the Boer general, under secretary of state for the colonies, participated in the conference.

CHID LABOR.
 London, Sept. 1. --The trades union congress at its session today voted to instruct its delegates to the House of Commons to prevent any children under 15 years of age being employed in any textile or non-textile factory.

The Cigarmakers' Mutual Association introduced a resolution aimed against "capitalistic combines," which was unanimously adopted. It was worded as follows:

"That, in the opinion of this congress, the growth of gigantic capitalistic trusts, with their enormous power of controlling production, is injurious to the advancement of the working classes, as by such combination the prices of commodities are raised, the standard of comfort of the people can be reduced, and the freedom of the individual is endangered, and national prosperity menaced."

The speakers contended that the time had arrived when, if the state did not control the trusts, the latter would control the state, and that the only permanent solution of the difficulty rested in national ownership and control of these monopolies.

By the instance of the Trades and General Laborers' Union a resolution was passed:

"That this congress of
