STOCK MARKETS.

II. C. Becher, broker, Bank of Com-merce building, received the following by private wire from Bartlett, Frazier & Carrington today: New York, Feb. 15-Noon.-The market has been very dull during the forenoon tession; and trading has been entirely cofessional, with fluctuations correspondingly narrow. The tone has been teatively good, and the active stocks steady or fairly strong. There is so very little activity that there is little warranting specific comment. A few stocks show a fractional decline from the highest prices, but there is no sign of weakness, and, in fact, little sign of anything, because of the duliness. The opening was tame and the fluctuations from Saturdaria decides were small. day's closing was small. Brooklyn Rapid Transit pool injected little activity, and opper also scored an advance, and it liberally tipped for a rise. Bullish tips in New York Central were not effective. ome good buying of Pennsylvania was siced. The prospect for the afternoon

for a continuance of present condi-ons. Sales to noon were 81,000 shares. TORONTO. Toronto, Feb. 15 139

the total cost of the inquiry into power is to cost \$10,000.

The water commissioners meet this afternoon to prepare their estimates for the year. It is said that one of the matters which will also come up for discussion will be the water supplied to the railways. It is alleged that the city allows the railway companies to use water which it costs the city \$9,000 to pump for about \$6,000 a year. The matter will likely be threshed out today.
