Second Base to Grand Opera Sammy Strang's Long Jump Maor Leonard Wins in Straight Heats—Ritchie, of Chatham, Cantinga 2:35 Pace.

SAMMY STRANG-NICKLIN.

Samuel Strang-Nicklin won't play second base for Montgomery, Ala, this year, and Manager Johnny Dobbs must hustle for another infielder to replace the big leaguer.

Sammy, who played ball for a long time under the Strang monacher, because his folks objected to spreading the name of the family over baseball's pages, says, in a letter postmarked "Paris," that he is through with the national game, and will henceforth devote his time to elevating grand operations.

Didn't know Sam aspired to be a Caruso, did you? Huh! Thammy war-bles like a kill-a-lee bird. As a wardler the Strang-Nicklin has the finest product of the Hartz Mountains in a trance. In the letter amounting his intention to forsake the plaudits of the fans and seek recompense in a more artistic atmosphere. Strang-Nicklin drives home the fact that his voice has been plowed and cross-harrowed, and is now in the cultivation stage of development. With scientific irrigation and a diet of throat lozenges, he hopes for an engagement in a minor league opera company before he is much older. In due time he expects to chirp 347 in fast company. If he fails we may hear him in vodveel, advertised as "the sweet-voiced minstrel" who has the nerve to sing his own composi-tions—a la Doc White.

in fast company. If he fails we may near him in vodved, advertised as the west-twiced ministrel" who has the nerve to sing his own compositions—a la Doc White.

The advent of Strang-Nicklin in opera brings to mind some of the players who have achieved dictinction after quiting the diamond. Prominent are Governor John Tener, of Pennsylvania, one of the 'round-the-world baseball tourists; John M. Ward, the New York attorney; A. G. Spalding, head of the house of Spalding; Mike Donlin, who married Mabel Hite, and made good as an actor; Carland Stahl, the Chicago banker; Fielder Jones, the Oregon lumber baron, and many others who acquired a competence in baseball and used it to advantage in business or professional life.

A part of our forward-looking is to look backward, to gather together what we have on hand of fall and winter goods, and dispose of them.

The active season for clothes buying is over; most of you have bought winter clothes of us, and we can't expect any great rush for these unless we special inducement.

We'll make it in the prices. We'll clear out the winter stock for room for spring goods, and here's the way we'll do it.
