Obligation to Man Contained in the Marriage Ceremony is Being Dispensed With.

Rev. J. Gibson Inkster, in his address before the Mothers' Clubs of the city in the Normal School last evening, boldly advocated woman trustees for the public schools of the city.

Women are today, he declared, coming into their rightful heritage as never before. The word "obey" in the marriage ceremony is being cut out by ministers as a relic of barbarism. He was opposed to a suggestion of Inspector Edwards that the Mothers' Clubs." "Tae word 'mother' stands for far more than anything else in the word," he declared. In favor of the small playground in easy reach of the children rather than the larger playground, which is less accessible. Neighborhood playgrounds should be established in all parts of the city, and the mothers should orself being the play of the children. Children engion social life quite as much as the grown-ups, and by such a playground scheme, their play would be properly supervised and directed.

Mrs. A. T. Edwards, president of the Y. W. C. A., told of the plans being made for the local organization of the same lines as the Boy Scouts.

Mr. C. B. Edwards hoped to see the schoolrom become the social centre of the neighborhood, and both the school and grounds made greater use of than at present.

Ottawa, May 5—Dealing with the question of cheese imported into Scotland. James A. Findiay, inspector at Glasgow, reports: "This is still a depressing feature of the Canadian cheese trade in respect that the accuracy of marked weights cannot be relied on, and importers find it essential to test thoroughly the weights of each shipment for shortage, particularly during the summer months. It is a serious matter to importers who have contracted to take a factory's weekly output, to find the cheese arriving showing from one-half to two and three pounds short weight per box, not to speak of odd boxes turning up five to ten pounds lighter than the market weight, which viewed in the most favorable light, can only be called gross carclessness.

"Importations into Glasgow of Canadian cheese last year fell 35,000 boxes. It is attributable to a heavier output of Scotch cheese, and also the strike making many idle. Butter importations from Canada to Glasgow are also decreasing, owing to the high price of the Canadian article."
