The London Delegate Returns From Quebec Convention.

FORM ONE UNION

Great Union Means Increased Strength, Says Arthur Carrothers.

Arthur Carrothers of the local post-office returned Monday from Quebec City, where he attended as London delegate the convention of the postal clerks of Eastern Canada. "Among other matters," said Mr. Car-

rethers today, "we considered the advisability of linking up with the Civil Service Federation, with the result that latter union and our body, postal employees will be merged into one union. This move was definitely decided upon, and will accordingly take place in due time. A greater union means increased strength for us."

Mr. Carrothers spoke highly of the treatment accorded the delegates by the Quebec Legislature, in whose buildings the meetings were held. Delegates were present, he said, from all principal points east of the great lakes.

The Social Service Secretary Awaits Action On Mothers' Pension Controversy.

"The whole trouble with him is that he has nothing to back up his statement with," commented T. D. # CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

#### What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.
