CASE FOR ELECTRONIC MEDICINE PRESENTED

Book on Abrams Method of Diagnosis of Interest to Many Londoners.

The English practitioners of "F R. A." (Electronic Reactions of Abrams) have issued a book explain-ing their position and a reply to their During his lifetime he has occuvarious critics, professional and otherwise. The book, which is of interest to many Londoners, practitioners and others, is the work of several hands, but the only name appearing in connection with it is that of Sir James Barr-one of the developed resources of the country the late Dr. Abrams in this country. He is named as the "editor," and he contributes a chatty "foreword," which is not in all respects flattering.

He is named as the "editor," and he contributes a chatty "foreword," which is not in all respects flattering.

He is named as the "editor," and he contributes a chatty "foreword," which is not in all respects flattering.

He is named as the "editor," and he contributes two pleasing solos, clarted two pleasing solos, clart which is not in all respects flattering to orthodox medical science. The body of the book consists of a brief account of Abrams' life and work; a reply to critics; a description of reply to critics; a description of Abrams' diagnosis and treatment; a lengthy selection of case reports, mostly of an astonishing character; and a technical "Report on the Elecrical Properties of an Oscilloclast' Professor E. Tavior Jones. There is thus presented in a compendious form enough material to enable any seeker after truth to learn wh Abrams' fundamental ideas real were, what is the attitude towards them of his medical disciples in thi country, and something of what the disciples have done in the treatment of various diseases by his methods

Sir Henry Cowan Declares Settlement On Large Scale Necessary.

Special to The Advertiser. by Staff Correspondent.

Toronto, Nov. 16 .- "Present indications point to the gradual elimination of the Liberal party in Britain and run against Aldermen Handford and there is every reason to believe that we are in the process of returning to the two-party system," said Sir Henry Cowan, member of the British ing hardy settless struggling for a livelihood in a sparsely settled district in remote Lower Canada, flowton, in commenting upon the political future of England, in an interview of England, today.

"There is nothing more improbable," he went on, "than a fusion between even the more advanced section of the Liberal party and the more moderate section of the Conservative ago, a short distance from the river and on what is now known as York street, just a short distance from the spot where the first building was erected, Mr. Scatcherd is well able to describe the present city as it was party in the near future, but the labor party appears in one very important question to take the view and consistently held—that industry must be protected against any unfair foreign compatition. It below fair foreign competition. I believe seen in a decayed state in some cedar that that circumstances will compel swamps near here. the two parties which hold diverse views on other questions to act to-gether on this matter."

"It is intolerable when hundreds of thousands of our own skilled workmen are out of employment that the home market should be flooded with foreign manufactured goods, which are cheap only because they are pro dused under conditions which British workers would refuse to accept.' The English member is a keen pied himself in its study in the different parts of the empire with the view to working out a scheme of redistribution of the white population

land with a future of almost unlimited possibilities if only it can be peopled with the right citizens. "Realizing the enormous uncountry, I am convinced that only by scale than has yet been contemplated of the man power of Britain to Canada, can the best interests of both the method of the man power of Britain to Canada, can the best interests of both the method of the man power of Britain to Canada, can the best interests of both the method of the man power of Britain to Canada, can the best interests of both the method of the man power of Britain to Canada, can the best interests of both the method of the m the mother country and the dominion

be conserved and promoted." Sir Henry does not minimize the difficulties presented by such a scheme. He believes that they are great, but he firmly believes that they can be surmounted. "I see that very clearly, but I am convinced that with goodwill on both sides, much can be accom-plished," he concluded.
