of poor grass hogs at \$3 75. MONTREAL.

450 head of cattle, 800 sheep and lambs and four calves offered at the East End Abattoir to-day. Trade was unusually dull Up to near noon none of the sales exceeded held at higher figures. Good fat cows and thrifty steers sold at about 3½ c per lb, and common dry cows at from \$20 to \$30 each, or from 2½ c to 3c per lb. There is quite an active demand for dimension and from the demand for shipping sheep and from 4c to 41c checke per pound, is paid for them. Lean old sheep are rather numerous and dull of sale less vie at from \$3 to \$4 each. There is an active demand for good lambs, which sell in lots at from \$3 40 to \$3 75 each, with a few choice lambs at from \$4 to \$4 25 each. prices. Common lambs sell in lots at from \$2 50 to \$3 25 each, and some of the culls will not bring over \$2. Fat hogs are slightly lower in price, or $5\frac{1}{2}c$ to $5\frac{1}{2}c$ per lb. Store hogs sell at $5\frac{1}{2}c$ to $6\frac{1}{2}c$ per lb, the latter price having been paid for a nice Berkshire

BUFFALO.

East Buffalo, N.Y., Oct. 18.-Cattle-Three loads on sale; market was in the same lethargic state it has been throughout the week; occasionally a few loads of cattle would be sold at prices more or less shaded on Monday's figures; calves were plenty, especially grassers, which were not quot-able above \$4 50; veals were worth \$5 50 to \$6.

Sheep and lambs-Twenty-one loads on for print clothes and some makes of brown sale, six of which were left over from yes- sheetings, which are lower on the week. terday; market dull and prices weak for the class of offerings; lambs quotable at \$6 tory. Raw cotton is lower on heavy crop and sheep \$5; some rather good Canada movement. Business failures reported to Bradstreet's lambs sold at \$6 10.

Hogs-Fifty loads on sale, of which nine number 205 in the United States this week, were left over from yesterday; market against 243 last week and 195 this week opened dull and lower on Yorkers and last year. Canada had 41 this week, steady on mediums; mediums and heavy, against 28 last week. The total of failures \$4 40 to \$4 60; corn Yorks, \$4 60 to \$4 70; in the United States from January 1 to Michigans, \$4 50 to \$4 60; roughs, \$3 50 to date is 8,942, against 7,866 in 1888.

THE STATE OF TRADE. "Bradstreet's" Weekly Review of

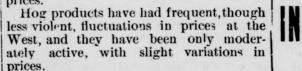

the Situation. New York, Oct. 18.-(Special.)-Special telegram to Bradstreets indicate a slight check in the movement of goods to consumers from several points, notably Chicago, Philadelphia, Boston and St. Joseph, but on the whole the volume continues to materially exceed the movement at the corresponding time last year, and is especially noticeable at St. Louis, Omaha, St. Paul, Kansas City and Louisville. Collections are active or prompt at a few of the cities heard from. The largest week's business on record at Kansas City has been done at that place. The sugar season has opened in Louisiana. Farmers in various portions of the North-west are holding

grain for higher prices. Reports from 90 r ilroads of gross and net earnings to Bradstreet's for August show a gain of 9.8 per cent. in gross and of 22.9 per cent. in net over August, 1888, from January 1 to August 31. Eighty-five railroads show gains of 5.7 per cent. in gross and 15.4 per cent. in net over the same eight months last year. It is claimed in Western markets that large quantities of pig iron have been pur-

chased for speculative purposes, and that the scarcity of the supply is large y ap-parent. The demand for all varieties of ron and steel has been more marked West than East, but at all points it is excellent. Frices still tend upward, rails touching \$32 at Eastern mills, with inquiries for 100,000 tons.

Raw sugars have continued heavy on The royal mail, passenger and Freight slow demand, in spite of a concession of 1-16c, and reports of decreased yield in Brazilian, in Java, and of disquieting reports from Louisiana. Warehouse deliveries and melting are liberal and arrivals moderate. Refined, on free offering and a moderately active demand, is off 1/3c to 1/c.
