

Guide-Advocate

WATFORD, AUGUST 20, 1920.

EDITORIAL NOTES

The Kingston Whig points out that before the war Germany wanted to rule the waves. After the war she wanted to waive the rules.

Home brewing must have become general, for in spite of prohibition the estimated crop of hops is about the same as in 1917—twenty million bushels.

The office of Governor of Jerusalem, once held by Pontius Pilate, is now held by Ronald Storrs, a graduate of Cambridge University, a son of the dean of Rochester College, England.

Stopping the exportation of Canadian coal is a step in the right direction. Let Europe dig her own coal. She has plenty of it to supply everybody on that side of the globe.

United States officials predict a steadily rising price of gasoline even to an additional 40 cents and that a system of rationing may have to be applied, as a result of the present immoderate use of this commodity.

In the world war the United States lost one in every 2000 of her population, Italy one in 79, France one in 28 and Great Britain one in 66. Considering these figures it is not hard to figure out who won the war.

Living prices in June had increased 136 percent over pre-war rates. The largest single increase is in food prices which have increased 33 percent since last December. The same rates of increase applies to the United States and Canada.

The railways are asking the Commission to endorse a 30 percent rate increase. This will bring about \$137,000,000 extra revenue, a sum equal to the annual interest of our war debt. The railways blame the necessity of this increase to an excess of labor unionism.

How many mothers are teaching their girls today the value of money or the necessity of being economical? It is not their ability to dance well that will make them valuable help-mates in the future, but their ability to spend to the best possible advantage the money their husbands bring home.

According to the United States War Department more than 170,000 citizens were slackers in the war. Their names are to be collected and published broadcast as a punishment. But it is doubtful if men who could incur the odium of being slackers in war-time will be seriously worried by the announcement of the fact in time of peace.

Canada is at odds with the Danish Government over the ownership of Ellesmere Island. For some time Eskimos have been crossing over from Greenland to Ellesmere Island and killing musk-ox. Canada has protested to Denmark through the British Foreign Department, against this action and has informed the latter that if they do not keep the Eskimos at home Canada will take the necessary steps to bring this about. This will mean the establishment of a Mounted Police Station on the Island.

The new rates proposed by the Bell Telephone Co., which the Dominion Railway Commissioners are asked to approve, if adopted will prove a serious blow to Ontario phone users. In Watford the charge for an individual business line will be \$33 a year, for a two-party line \$27, for a rural party line \$21, for an individual residence line \$24. The proposed rates for the cities are also almost prohibitory, business calls being restricted in some instances to about three a day with an additional charge for each extra call.

A visitor in Bothwell from Detroit said to a friend:—"When I made sixty cents an hour I paid for a comfortable home, but now I am getting a dollar and fifty cents and can hardly make ends meet—I want to get back to the farm." Commenting on the above the Times says:—"It might be opportune to mention that this gentleman once lived on a farm and was enterprising and a good worker, but things looked rosy in the city and he went there, and in twenty years made a five thousand dollar home. Would he have done as well on the farm among the Hessian fly, San Jose scale and the wire worm? They are like the profiteer in the city—live on someone else. But, after all, plenty of money has been made and is now being made farming, and no doubt if our city friend had remained on the farm he would have been able to ride in an automobile the same as he does now, only a Chalmers instead of a Ford, if he so desired."

BUILD UP THE SMALL TOWNS.

It is high time that all of us paid more attention to the building up of the small town and less to making the overgrown city larger. The little town is home—or should be. It needs our support and we are the people who must give it life and power if it is to have either. The big city cares nothing for us. It will if it can pull our dollars away and lure our boys and girls into its whirl-pool, but that is the only use it has for us. The little town needs us and we need it. Hall's Corners may not make as large a dent in the map as New York but it really means more to us and we ought to help make it something to be proud of. Why not get over the idea that the bright future of America lies in the great cities? It does not. The future which lies in the cities is shop-worn, smoked dirty and unclean. The true future lies in the country and the little towns. Back them up and make them grow.—Rural New Yorker.

MAY HELP SOLVE THE FARMERS' LABOR PROBLEM

Tractors and labor-saving devices for the farm will form a very important and timely part of the display of manufacturers at the Canadian National Exhibition this year. Unusual efforts have been put forth to make the farm machinery exhibits more extensive and representative than ever before and there is every reason to believe that the progressive farmer will find here the things that he most needs to solve his perplexing labor problems. Wonderful advances have been made mechanically along this line and not the least important are the scores of machines and devices designed to lighten the work of the woman on the farm and to make her lot less burdensome. The farm-wife will be delighted with the progress made in lines of endeavor of peculiar interest to her, while the city woman will also discover numerous simple contrivances to make her housework lighter and more enjoyable.

PALLID CHEEKS MEAN ANAEMIA

New Health Can Be Obtained By Enriching the Blood Supply.

When a girl in her teens becomes peevish, listless and dull, when nothing seems to interest her and dainties do not tempt her appetite, you may be certain that she needs more good blood than her system is provided with. Before long her pallid cheeks, frequent headaches and breathlessness and heart palpitation will confirm that she is anaemic. Many mothers as a result of their own girlhood experience can promptly detect the early signs of anaemia and the wise mother does not wait for the trouble to develop further, but at once gives her daughter a course with Dr. Williams' Pink Pills, which renew the blood supply and banish anaemia before it has obtained a hold on the system.

Out of their experience thousands of mothers know that anaemia is the sure road to worse ills. They know the difference that good red blood makes in the development of womanly health. Every headache, every gasp for breath that follows the slightest exertion by the anaemic girl, every pain she suffers in her back and limbs are reproaches if you have not taken the best steps to give your weak girl new blood, and the only sure way to do so is through the use of Dr. Williams' Pink Pills.

New, rich red blood is infused into the system by every dose of these pills. From this new rich blood springs good health, an increased appetite, new energy, high spirits and perfectly womanly development. Give your daughter Dr. Williams' Pink Pills, and take them yourself and note how promptly their influence is felt in better health.

You can get these pills through any dealer in medicine or by mail postpaid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Our 8x10 Sepia Enlargements are very fine.

ROBSON'S STUDIO PETROLEA

The five-year-old son of D. A. Taylor, lake road, Bosanquet, on Tuesday, ~~Sept. 15~~ ~~Sept. 15~~ the wheel of a binder, breaking his thigh.

The 4-year-old son of Henry Hyatt, 5th concession of Mersea, was struck on the head Monday of last week by a falling hayrack, which knocked him unconscious until the next morning. The little fellow's head was severely injured.
