

ABBEY'S EFFERVESCENT SALT

**The Fountain of
Health**

♦ ♦

A trial of a good article establishes its goodness—With a poor article the reverse is the case.

In introducing Abbey's Effervescent Salt into Canada, the proprietor had this truth in mind.

All they ask is a fair trial.

The merits of the preparation will do the rest.

The reputation Abbey's Effervescent Salt has won in England and Europe, as a standard preparation, is being repeated here

THE CANADIAN PHARMACEUTICAL JOURNAL, SAYS:

"We have tried Abbey's Effervescent Salt, and find it an excellent compound. It was most favorably commented upon by the medical profession at the recent meeting in Montreal of the British Medical Association. The Company was not afraid of submitting it to the criticism of medical men. All were invited to sam-

ple and pass judgment on it. This was invariably favorable, some expressing the opinion that it was superior in points to any other on the market. A morning draught of this stimulating preparation will send a man to his daily occupation invigorated and ready for any task."

DR. G. P. SYLVESTER, TORONTO, SAYS:

"It gives me pleasure to testify to the merits of your preparation! I have been using it in my practice for some time, and find it one of the most pleasant and efficient laxatives I have ever used. To the weak and irritable stomach it is soothing and overcomes any acidity that may exist. I have no doubt it will be very useful in many forms of Rheumatism and Gout, assisting to neutralize the uric acid and also help to eliminate it. I will continue to prescribe it on all occasions where it appears suitable."

THE CANADA LANCET:

"This preparation deserves every good word which is being said of it. A sample is offered to each physician, and most favorably is it commented upon. There is no doubt but that the daily use of Abbey's Effervescent Salt will be a great preventive and aid in warding off attacks of disease."

THE DOMINION MEDICAL MONTHLY:

"This is a well known English preparation, the rights for which have been purchased by a Canadian Company, and it is now being produced here. There is no doubt that it is one of the best forms of effervescent saline we have met."

J. A. S. BRUNELLE, M. D., O. M., Montreal, Professor of Surgery, Laval University Medical Faculty; Surgeon to the Hotel Dieu, etc., says:

"I have found it particularly beneficial in the treatment of derangements of the liver and of the digestive organs, and I consider that the regular use of a preparation of this nature has a decided tendency to prolong life. I am using it in my hospital practice."
