

CANADIAN MEDICAL EXCHANGE.

Medical men cannot be too often reminded that when they are thinking of selling out their practice, that it should be done quietly, quickly, and with the least publicity possible. It is very detrimental to one's practice to have it locally known that the physician is contemplating removing from their midst. Dr. Hamill who conducts the Canadian Medical Exchange for the purchase and sale of medical practices has certainly systematized his methods to perfection so as to insure a short-cut to the goal desired, and we feel safe in saying that physicians stand a better chance of selling their practices by having their offer on Dr. Hamill's register than by all other methods combined that they could adopt.

NOTICE TO MEDICAL PROFESSION.

At a meeting of the American Surgical Trade Association held in Philadelphia, June, 1906, it was resolved that after January 1st, 1907, the trade adopt the French scale for all catheters, bougies and sounds.

A committee was appointed for the purpose of getting up a proper and accurate French scale card, and the same will be mailed to you.

Every physician will see the importance of this step, as you are all acquainted with the annoyance of having catheters, bougies and sounds, and other instruments, marked in American English and French numbers.

You are requested from above date to use only the French scale in ordering such goods, and when no scale is specified orders will be filled by the French scale.

YOUR DEALER.

AFTER MANY DAYS.

That "honesty is the best policy" is strikingly illustrated by the relation of Scott's Emulsion to the requirements of the new Pure Food Law.

At the present moment the manufacturers of preparations which contain alcohol or harmful ingredients, are greatly worried at being compelled to come out into the open and change their formulas, or state the harmful ingredients on their labels

Scott's Emulsion, on the other hand, pursues the even tenor of its way, undisturbed and unruffled. It has always anticipated the new law, in that it never contained any harmful ingredients. Consequently no change of formula or label is necessary.
