**SLEEPING CAR COMPANY'S
LIABILITY.**

A decision of interest touching the liability of sleeping car companies for loss of the personal effects of passengers was lately rendered by the Supreme Court of Nebraska. The Court said: "A passenger on entering a sleeping car as a guest—because that is what he is in fact—necessarily must take his ordinary wearing apparel with him, and some articles for convenience, comfort, or necessity. The articles when placed in the care of the company's employees are at the company's risk. The liability of innkeepers is imposed from considerations of public policy as a means of protecting passengers against the negligence and dishonest practices of the innkeeper and his servants. . . . The porter meets the traveller at the door and takes whatever articles he may have with him. He waits upon him and the other passengers in the car so long as they remain therein. The traveller is not required to sit in his seat during the day, but may, if he so desires, go forward into the other cars of the train, and at stations may go out on the platform. His property is left in the custody of the company, which is liable for its safe keeping."—*Bradstreet's.*

The two countries ought to make at once an agreement covering such cases, or Canada will gradually be transformed into a colony of criminals from the States."

By way of comment on the above the *Bankers' Monthly* of Rand & McNally, Chicago, declares that "The admission above is creditable to Canada in every way, when it is known that she stands ready to made a treaty to suit us, as demanded above, but we insisted on con-
