

Finance Committee of the
Board of Governors, too much
stress should not be laid upon
choosing new governors
merely for business ability
since nothing will be
submitted to the Board for
discussion and decisions
touching business —

apparently it is not usual
even to submit a financial
statement — It seems to me
that however convenient for
the despatch of business, the
method is eminently fitted to
to weaken the interest of the
Governors who are not
members of the Finance Committee
